A Breastfeeding Bonnet? Yes!

What a great concept! A “**modern bonnet for breastfeeding babes**”. One of the best parts of being on the **CanadianBabies** team is learning about all of the innovative new products that are out there and being able to share this knowledge with our readers.

I sure could have used one of these hats six years ago when, at two weeks post-partum alone for the first time with my baby, I stopped at a local bagel shop. I thought she needed to nurse so I picked her up and tried to get her to latch on, only to find that she had fallen fast asleep. Breast exposed and now full of milk, all attempts to wake her were futile and I began spraying milk all over her and quite possibly other innocent bystanders! Not only would this hat by **MoBoleez** have helped to keep me covered, I could also have used the large, super soft brim to soak up the spray!

A few months later when she was much less sleepy, the brim would have helped to shield her from distracting lights and noises and could have provided us with an instant game of “peek-a-boo”!

Clever little illustrations with phrases such as “Café au lait” and “Milky Way” on the top of the head and subtle messages on the edge of the brim make these Canadian-made, eco-friendly hats the perfect gift for any new mom. The attention to detail in this product shows the passion that **MoBoleez** founder, Diane Sam, has for breastfeeding.

MoBoleez hats are the only hats designed specially for the breastfeeding baby and mom. Check out this Canadian-made, eco-friendly product line at www.moboleez.com

Wearing Baby with Style

It's stunning, gorgeous! Perfect attire for a wedding, a baptism, or any other formal occasion. No, it's not a dress, it's a baby sling!

This **Pippalily** sling is the most beautiful baby sling I've ever seen. Forget about drab denims and colourless cottons, this baby sling is made of the most beautiful brocade fabric and is available in several gorgeous colours. Plus, it's easy to use and very comfortable for mom & baby.
