Medibottle

Medibottle is an infant medicine dispenser that makes giving babies medicine easier and is three times more effective in delivering accurate dosage than any other method. Functioning like a baby bottle, the Medibottle squirts small amounts of medicine into the nipple as the baby drinks and ingests the medicine undetected with the other liquid.

Medibottle retails for \$15 CAD and can be purchased online at www.savibaby.com, at retail stores nationwide, or via phone at 888-373-BABY (2229)

Baby-umptious

Melissa Beth's baby-umptious diaper bag will keep you and your baby organized and super stylish.

Velour outer body material, wipeable inside lining, backpack conversion straps and matching changing pad make the baby-umptious diaper bag a must have.
