Rose Geranium Essential Oil Organic

** 100% NOP Pure and Natural, Organically certified oil.
Not adulterated, not diluted, from one single plant source**

Latin Name: *Pelargonium graveolens var. roseum*

Extraction:

The Geranium oil is obtained by the harvesting of the Geranium plant, which includes leaves, stems and flowers (whole plant)

The plant is steam distilled on the Essential oil farm

Farming & Harvesting:

The Organic Rose Geranium farm is located within Madagascar. This farm is maintained under strict, NOP 100% organic certification with plants being cultivated without any pesticides or herbicides. The water source is from a clean supply.

The Rose Geranium crop is harvested every 4-6 months. The Plants are harvested at full flower which results in the best quality oil at that phase of the plant growth cycle. Brown leaves and thick stems are avoided because brown leaves make the oil brown and the stems do not contain oil.

Oil Analysis and uses:

The Rose Geranium oil is known to have Citronellol levels around 15%-25% maximum.

The Citronellol is part of the Monoterpenols family. Monoterpenols are known to have an anti-inflammatory potential.

The Rose Geranium oil is also known to have geraniol levels above 12%. Geraniol is known to have anti-fungal properties

Geraniol is also part of the Monoterpenols family.

Geranium is also very commonly used in perfumery

Oil Description & Odour Profile:

The Geranium's oil is not a viscous oil, it is free flowing, similar to water. The colour is a vibrant green colour.

The odour is leafy, green and rosy.

Uses:

Rose Geranium Organic oil is safe for topical use, inhalers and diffusers. For children, keep concentrations lower to around 2%-5% in dilution. Dilute before applying to sensitive areas like face and neck.

Blends well with:

Grapefruit, Jasmine, Fennel, Lime, Rosemary and Orange

Safety Information:

We do not recommend that you take any oils internally and do not apply undiluted essential oils onto the skin without advanced essential oil knowledge or consultation from a qualified aromatherapy practitioner. Use extreme caution when using oils with children. If you are pregnant, epileptic, have liver damage or have any other medical problem, we recommend that you use oils only under the proper guidance of a qualified aromatherapy practitioner.
