TROUBLE SHOOTING

No.	Problem	Possible Cause	Solution
1	Sounds coming from massage mechanism	It is normal for sound to be made by the motors, or the massage rollers rubbing on the backrest area.	It is normal and no need for treatment.
2	The chair can not be started up.	The power supply plug is detached.	Insert the power supply plug into the socket again.
		The power supply switch is not turned on.	Turn on the switch
		The fuse of massage chair blew out.	Replace with a new fuse.
3	No sound from the speakers	The volume is turned to lowest.	Turn the volume up
4	Backrest or legrest can not ascend or descend	Over pressure is put on backrest or legrest.	Reduce the pressure on backrest or legrest.
5	The airbag installed at seat cushion or legrest not working.	Check whether there is air tube blockage	Clear the air tube

If chair is still operating abnormally after above measures have been taken to the massage chair, please contact manufacturer for repair and maintenance.

Note: Do not dismantle the product by yourself. Infinity Massage Chairs shall shoulder no responsibility to the damage of the product or the injury of people caused by improper use! Thanks your cooperation.

▶ PRODUCT STORAGE AND MAINTENANCE

Maintenance

- ▶ Wipe down the chair with a mild cleaner and a damp cloth.
Use dry cloth to wipe the controller and power supply box.
- ▶ Use a piece of cloth that has been dipped with neutral detergent to wipe the back cushion and pillow, then use a piece of wet cloth to wipe them, and finally put them to a well-ventilated place for natural drying.

⚠ Caution

- ▶ Make sure to pull out the power supply plug firstly before maintenance. Do not use wet hands to pull out the plug to avoid electric shock. When clean the back cover, please be cautious of detergent entering into the power supply box!
- ▶ Do not iron the upholstery.

Storage method

- ▶ Wipe off dust and dirt from the product after use, if the product is not to be used for a long period of time, please cover the product with a dust cover (self provided).

⚠ Caution

- ▶ Do not store the product under direct sunlight or in places of high temperature. This may cause the color of the upholstery to fade.

Reminder

During daily use, please check whether the following symptoms exist:

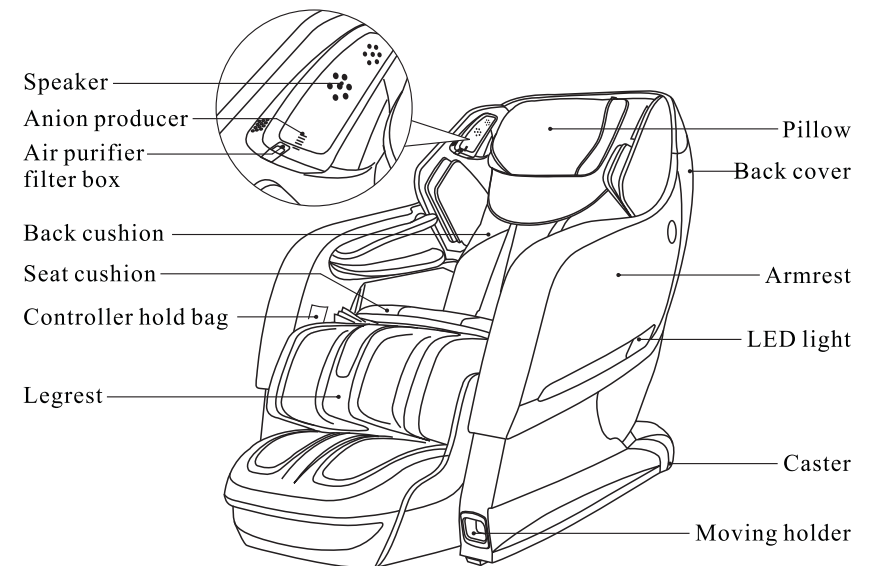

- ▶ Any unusual smells.
- ▶ Power issues.
- ▶ The power supply cord is hot.
- ▶ Other abnormal symptom

⚠ Caution

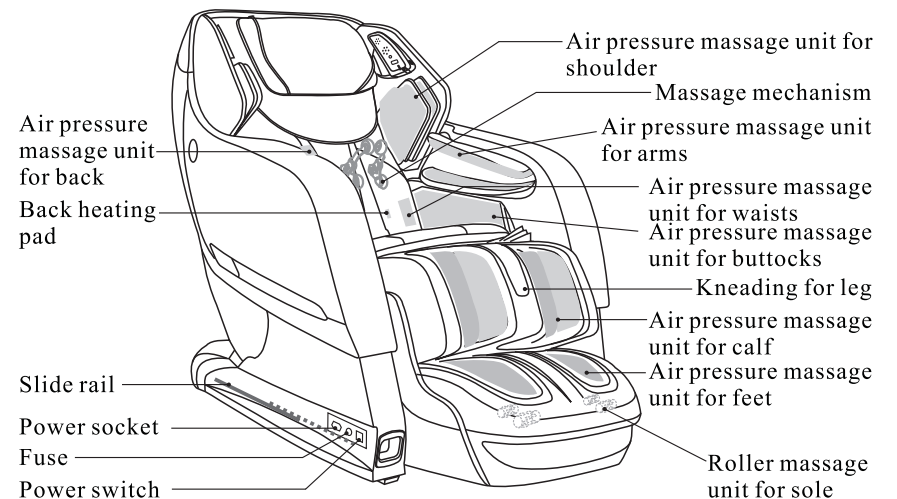

- ▶ Please stop using the massage chair to avoid breakdowns and accidents occurring if any above symptom exists.
- ▶ Turn off the power supply switch and pull out the power supply plug, and then contact the manufacturer or technician for repair and maintenance.
- ▶ Except all the normal operation and maintenance mentioned above, any other repair and maintenance can only be operated by our authorized dealer or service agent.

▶ NAME AND FUNCTION OF EACH COMPONENT

Internal structure

▶ NAME AND FUNCTION OF EACH COMPONENT

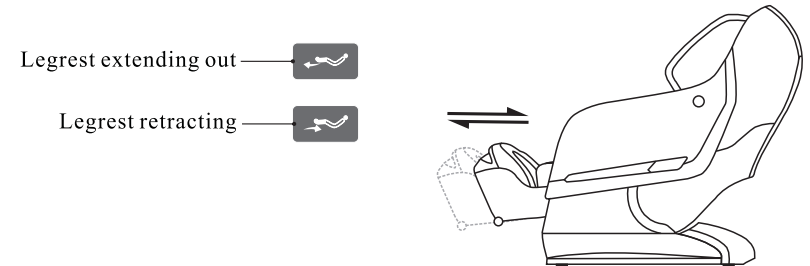

Controller

▶ PREPARATION BEFORE USING

Legrest Extend and Retract

- ▶ To adjust legrest to match your leg, press or to adjust the relative position of leg and legrest manually when legrest is not moving in order to get the best massage.

- ▶ Legrest can be extended or retracted automatically or manually according to different position and height, because of sensor inside

⚠ WARNING

- ▶ Only use chair as intended. Sit in chair in normal position.
- ▶ Before adjusting the angle between calf and backrest parts you need to make sure no obstacles are around.
- ▶ Do not insert leg, foot or other goods into chair's gaps when leg parts extend or reset.
- ▶ Wait for chair to reset completely before exiting chair.

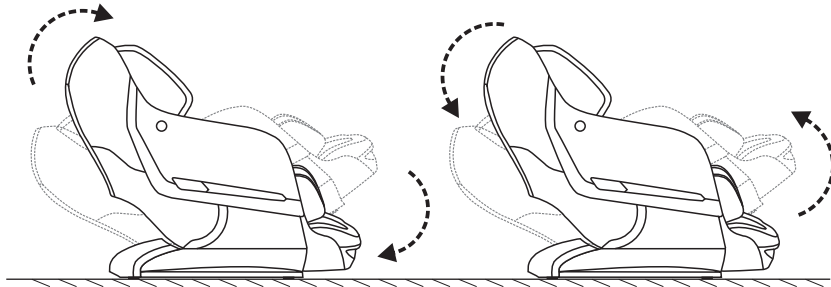

After using

- ▶ Please power off the chair and unplug the chair power cable from the power supply socket after using the massage chair.
- ▶ Put the controller inside of the pocket.
- ▶ Please power off the chair and unplug the chair from the power supply socket when the chair is not in use, to avoid children starting the chair accidentally.
- ▶ Please cover the chair if it is not in use for a long time.

► PREPARATION BEFORE USING

Massage chair initial setup

- Before setting up, please make sure there is enough space around the chair. Then use the controller to recline down the chair backrest to the limit position, raise up the legrest to the highest position and stretch out to the limit length. Make sure the chair will not contact anything.
- Test all functions work normally, then power off the chair and return it back to original position.

Before sitting in the chair

- Make sure the legrest is installed correctly.
- Make sure the chair is in original position, if any part is not in initial position, please power on/off again to make the whole chair go back to original position.

Caution

- If the legrest is moving, do not climb onto the chair.
- Do not put any heavy load on the legrest when it is moving.

► NAME AND FUNCTION OF EACH COMPONENT

Display screen menu

▶ Auto mode

Press power button this will turn the LCD on. Press auto to enter auto program menu. You can choose sports refresh, extension, rest&sleep, working relief, neck&shoulder or waist&spine according to your desire. (See the menu picture below)

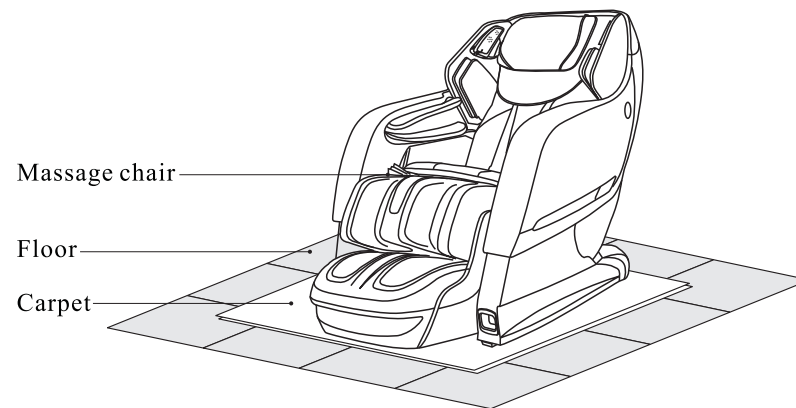

Sports refresh: This is designed for the muscles after sports activities and exercise. It can ease and relax muscles after intense exercise, promoting the circulation system to improve muscle recovery after exercise.

Extension: This massage comes from Thai massage. the strong kneading and stretch of the body can effectively stretch legs, waist and other parts, and it is the best choice to relax tired muscles and increase physical vigor.

▶ PREPARATION BEFORE USING

Floor protection

▶ Please put carpet or other pad under the massage chair, in order to avoid any scuffing or marking on the floor.

Surrounding environment

Keep the massage chair away from damp places (for example: bathroom).

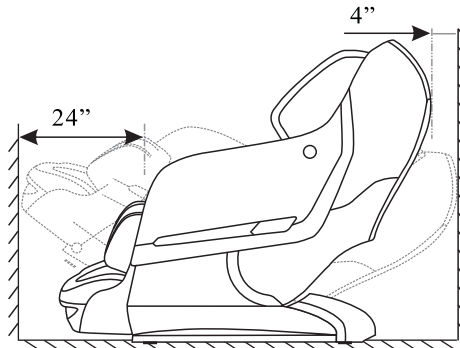

Keep the massage chair away from high temperature sources (for example: stove) to avoid fire or damage to leather material.

PREPARATION BEFORE USING

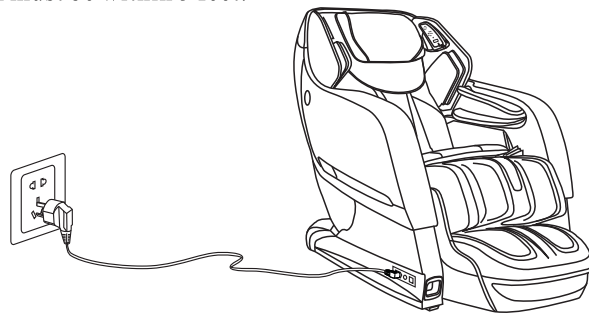

Installation position

Safety distance for the periphery of massage chair.

- ▶ Please make sure there is adequate space for installation this product:
Back: minimum 4" from the wall or any other objects.
Front: minimum 24" from any other objects.

- ▶ The distance between the power socket and the power switch must be within 5 feet.

Caution

- ▶ Make sure the distance between the power socket and the power switch is less than 5 feet to avoid damage to the power cables when the chair reclines up and down.
- ▶ Before using, please make sure cables are clear of chair.
- ▶ When the whole chair makes parallel movement forward or return back to original position, please check first whether there are kids, pets or some other barriers to avoid accidents.

NAME AND FUNCTION OF EACH COMPONENT

Rest and sleep: To improve the quality of lunch break and sleep; The mild massage kneads body parts with heavy and light strength massage to relieve tired body gradually.

Working relief: Great program for people who work at a desk or travel a lot. Strong massage to ease muscles and recuperate body.

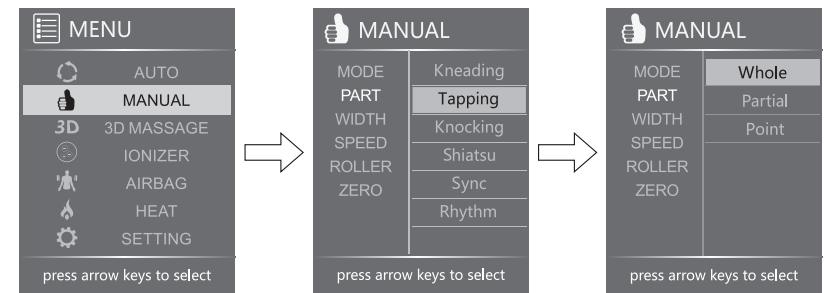

Neck and Shoulder: To relieve neck and shoulder pain symptoms 80% of the massage time will focus on the neck and shoulders. The curve design of the chair backrest makes the massage rollers completely touch the shoulder and neck, so it can effectively relieve neck and shoulder fatigue.

Waist and Spine: To relieve the pain of lumbar vertebra 80% of the massage time will focus on the lumbar vertebra and the rollers will conduct specific massage to relieve the sense of tension and insure lower back health.

Manual Programs:

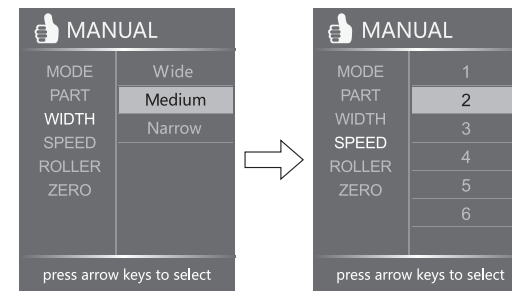

Press Menu button, choose Manual and press it to enter manual programs.

Press up or down button to choose mode, part, width, speed, roller or zero.

Mode: Under mode function, press right button first, then press up or down button to choose massage style of kneading, tapping, knocking, shiatsu, sync, or rhythm.

Part: Under Part function, press right button first, then press up or down button to choose whole, partial or point.

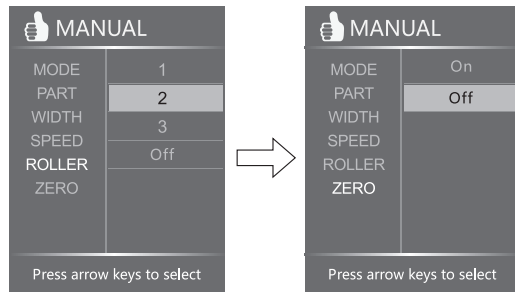

WIDTH: Under Width function, press right button first, then press up or down button to choose Wide, Medium or Narrow.

SPEED: Under SPEED function, press right button first, then press up or down button to choose speed from one to six.

▶ NAME AND FUNCTION OF EACH COMPONENT

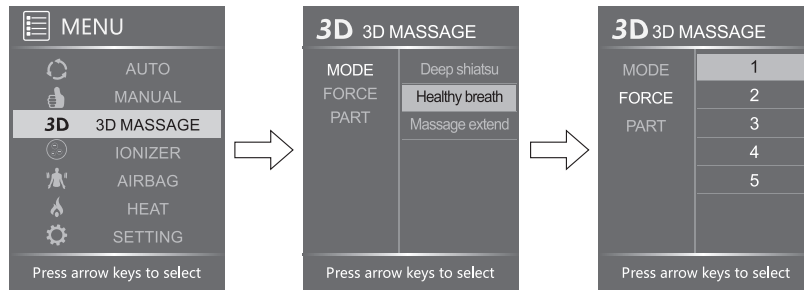

ROLLERS: Press MENU button first, then choose ROLLER, adjust the roller speed from 1 to 3 or stop the rollers by pressing up or down button.

ZERO GRAVITY: Zero gravity creates a completely relaxing, naturally comfortable massage position: Somatological design makes back, buttocks and legs stay in a certain angle like lying in space capsule, under which the body pressure is thoroughly released and the muscles achieve a completely relaxing status.

▶ 3D MESSAGE

Press MENU button first, then choose 3D, adjust the 3D MODE (Deep shiatsu, healthy breath, massage extend), massage force and part.

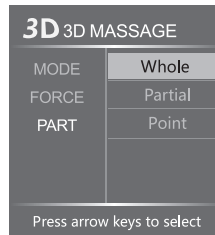

Deep shiatsu: deep shiatsu on the back for 10 minutes;
Healthy breath: 5 minutes healthy breath massage with rhythm for breathing in and out, which does good to the user's health.

Massage extend: 5 minutes massage extend mode.

FORCE: Under manual, 3D massage force is adjustable from 1 to 5 grades.

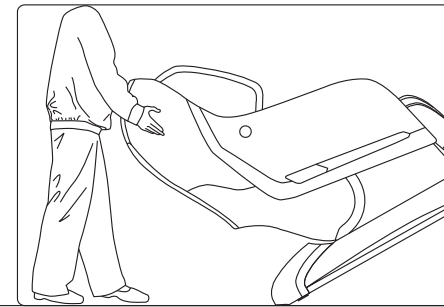

Part: Under Part function, press right button first, then press up or down button to choose whole, partial or point.

▶ PREPARATION BEFORE USING

Move method

- ▶ There are moving rollers at the bottom of the chair.
- ▶ Raise the back to the highest point.
- ▶ Unplug the chair.
- ▶ Lift the front part of the chair as showed in the figure (one person raise the front part via holding moving holder, another person push the chair when holding the top of the chair), move the chair by the rollers.

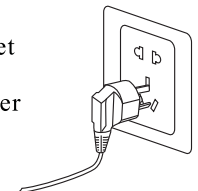

⚠ Caution

- ▶ Don't move chair when there are people in it.
- ▶ Don't use the armrest for moving the chair, only hold the moving holder in the back and front

Turn on power supply

- ▶ Plug the power cord into three prong grounded outlet only.
- ▶ Power on the chair by pressing the button at the lower part of the exterior of the right armrest.

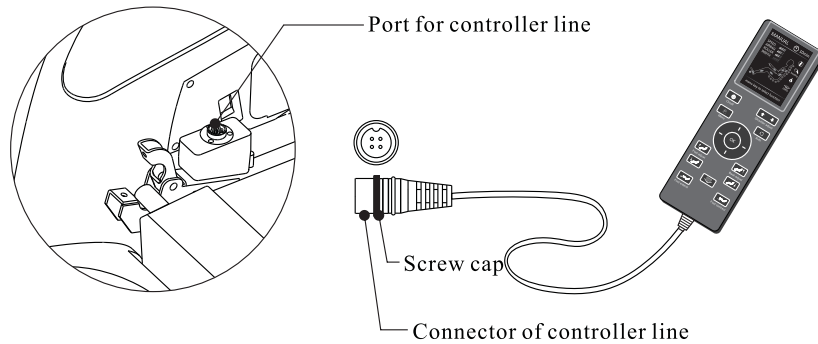

⚠ Caution

- ▶ Before switching on the chair, please make sure there is no damage on the power wire and other exposed wires.
- ▶ Make sure the power switch is off before the chair is connected to electricity.

▶ PREPARATION BEFORE USING

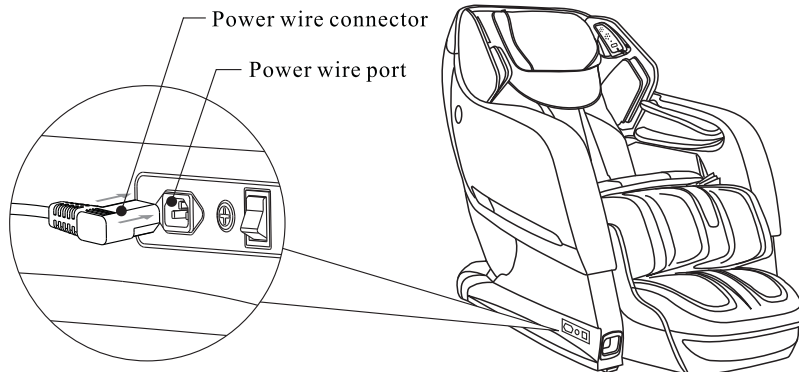

Step 5 Installation of controller unit

- ▶ Connect the data line of the controller to the port on the inner side of right armrest (pay attention to the convex-concave between connector and port); then fix the screw cap. (see the figure below)

Step 6 Other Accessories

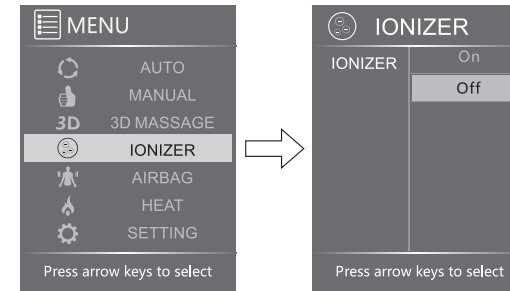

- ▶ Connect the power wire connector to the port on the outer side of right armrest;
- ▶ Switch on the chair, and use the controller to raise the backframe to normal position.

▶ NAME AND FUNCTION OF EACH COMPONENT

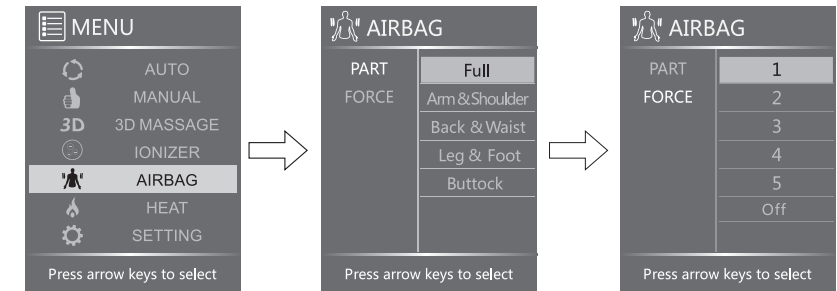

▶ IONIZER

Press MENU button first, then choose IONIZER, press up or down button to open or stop ionizer.

Under AIRBAG PART function, press right button first, then press up or down button to choose full, arm&shoulder, back&waist, leg&foot, or buttock.

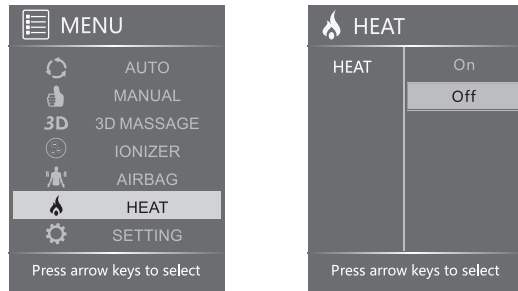

FORCE:

Under AIRBAG FORCE function, press right button first, then press up or down button to choose airbag force from 1 to 5 grades and stop the airbag.

▶ NAME AND FUNCTION OF EACH COMPONENT

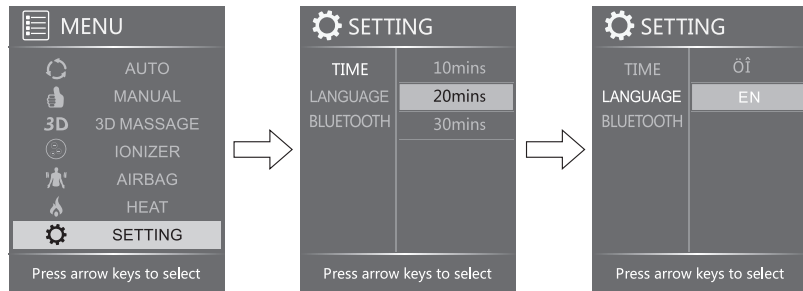

▶ Heat

Click MENU , choosing HEAT , then click right to choose on or off.

▶ SETTING

Press MENU button, choose SETTING, then press up or down button to set time, language or bluetooth.

TIME: Under SETTING TIME function, press right button, then press up or down button to choose 10minutes, 20minutes or 30 minutes. The default setting is 20minutes.

LANGUAGE: Under SETTING LANGUAGE function, press right button, then press up or down button to set CHINESE or ENGLISH menu.

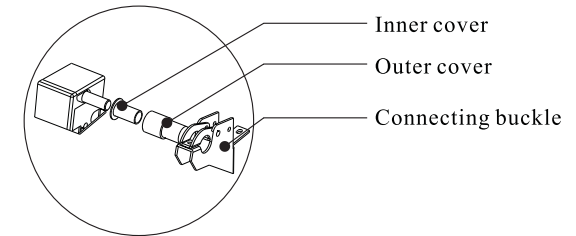

BLUETOOTH: Under SETTING BLUETOOTH function, then press up or down button to START or STOP bluetooth.

MEMO: All the above settings are remembered even when the machine is cut off suddenly.

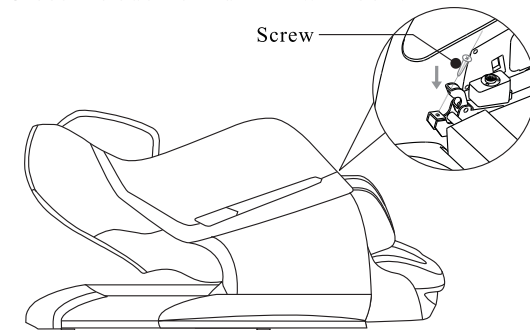

▶ PREPARATION BEFORE USING

Step 4 Installation of legrest unit

▶ Install the inner cover and outer cover of leg frame onto the connecting shaft.

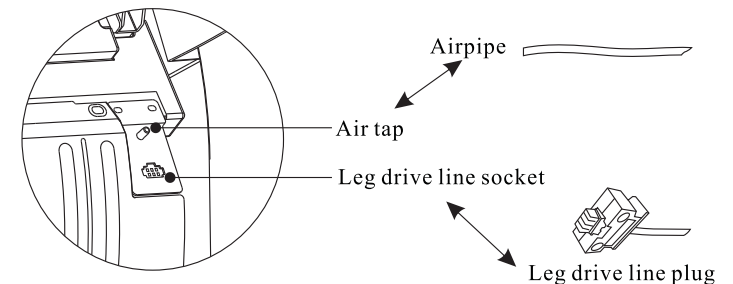

▶ Remove the screw on leg connecting buckle of the frame and open the buckle upwards, then put the leg units into the buckle groove of the frame. Close the buckle and fix it with bolt.

▶ Lift legrest units, put leg drive line plug into leg drive line socket, and air pipe into air tap. Make sure it is connected firmly. (Fig below)

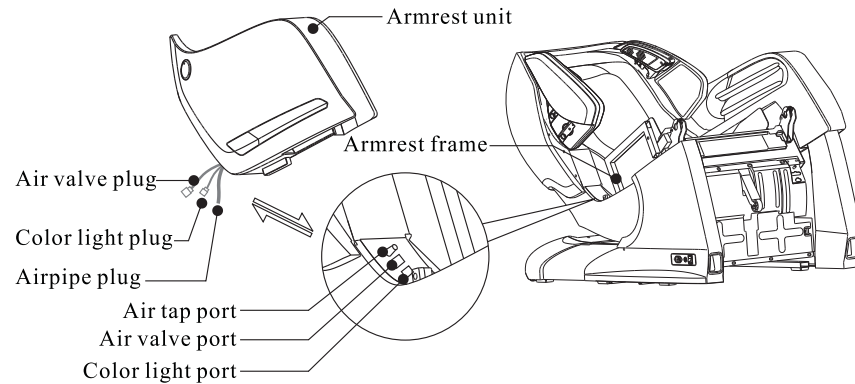

▶ Connect the wrinkle cover of the leg massage unit with the velcro on the seat cloth.

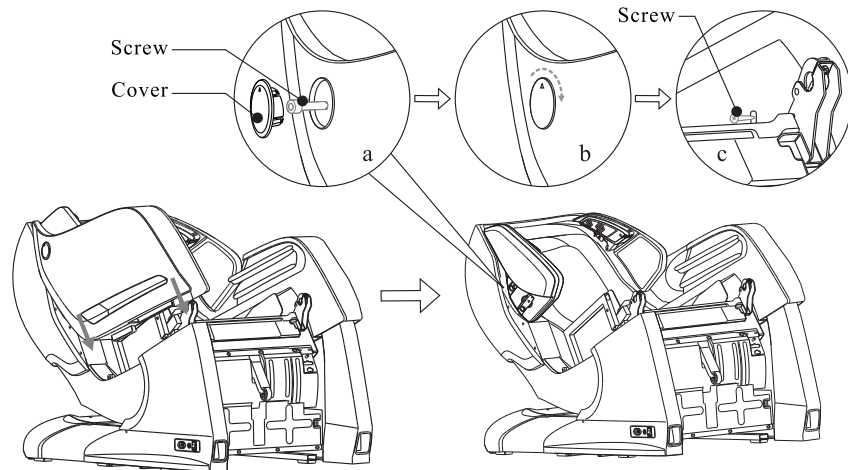

► PREPARATION BEFORE USING

Step 3 Installation of armrest units

- Match the air valve, color light, airpipe plugs on armrest to the side ports on lower part of the armrest frame. (follow the sequence in the diagram below)

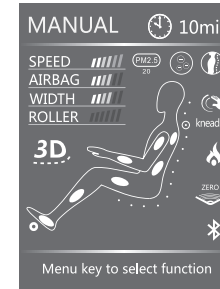

- After the cables from armrest are well connected, push downward after aiming the inner groove of armrest unit to armrest frame, then armrest unit will be connected into the armrest frame. Attach with a screw (a). (It is the same installation method for the other side)
- After the screw is tightly fixed, put the cover on (left and right are different), then fix the cover (b) by rotating clockwise.
- Use another screw to fix armrest from the interior (c).

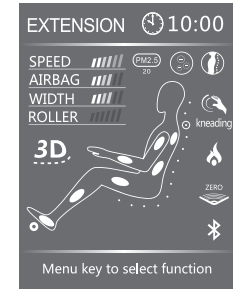

► NAME AND FUNCTION OF EACH COMPONENT

Note:

1. Under auto mode or manual mode screen will refresh back to main screen after 10 seconds of no input.

Home page in manual mode

Home page in auto mode

⚠ Caution

- During massage, click MENU twice, it will go back to home page immediately.
- In the home page, under manual mode or auto mode, click the left and right button to adjust air pressure intensity; under manual mode, click up and down, to adjust massage wheels speed.
- Click AUTO to choose auto program directly.

⚠ Caution

- Please do not disassemble the massage chair for any reason.
- Please do not spill water or other liquids into the controller to avoid malfunction of keys and error code.
- Please do not put heavy things on the controller or power cable.

► PREPARATION BEFORE USING

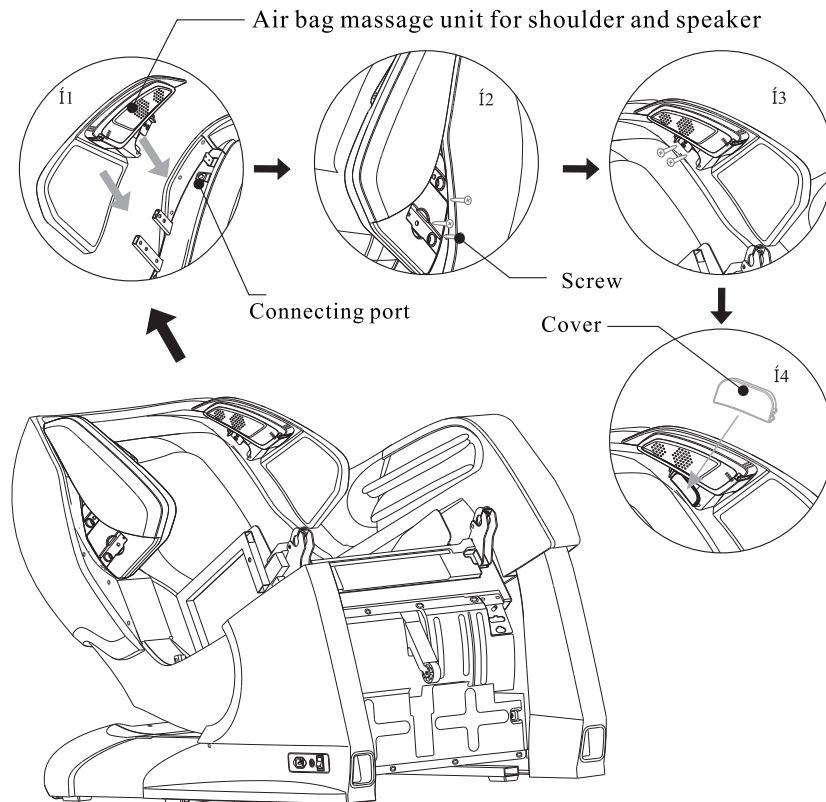

Installation Method

Step 1: Get out each part of the chair

- Unpack the cartons, carefully get out cushion units, accessories box and so on.
- Check all accessories with packing list.

Step 2 air bag massage unit for shoulder and speaker installation

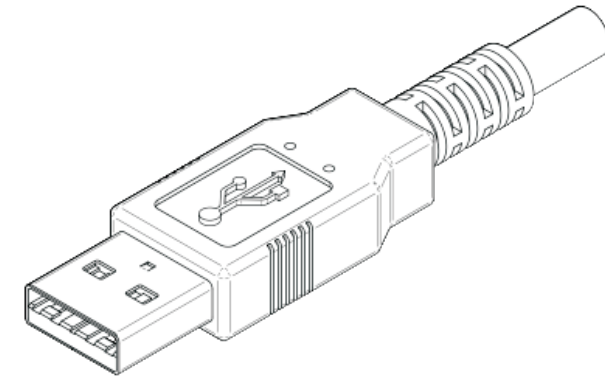

- Connect the shoulder airbag and speaker unit with connecting port. Connect the two connector pillar slots on shoulder airbag and
- speaker point at pillars on the massage backrest, and insert them. Then fix them with the three screws. (picture 2) Then fix the inside of speaker by two screws. (picture 3). Then install the cover. (picture 4)
- Installation method of the other side is the same as above.

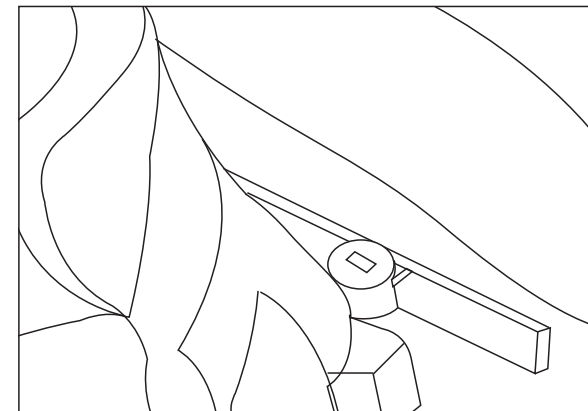

► USB CHARGING PORT

How To Use

Charger is 1 amp charger. Allows you to charge your phone/tablet while using the chair. Especially great when using the App/Apk to control the chair. Uses a Type A usb.

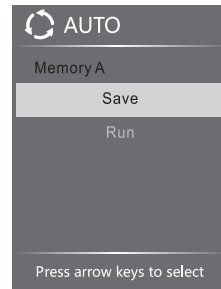

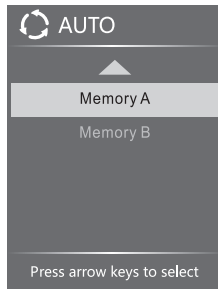

Port is located on left thigh area behind the thigh airbag.

▶ MEMORY FUNCTION

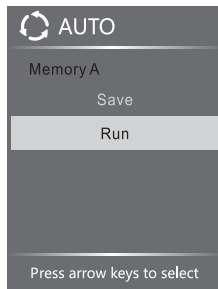

1: Storing a memory program:

After selecting all of your wanted functions in the manual mode, go to the Auto page and scroll to the bottom of the page. Here you will see Memory A and Memory B. Select either A or B then select “Save”..

2: Loading a memory program

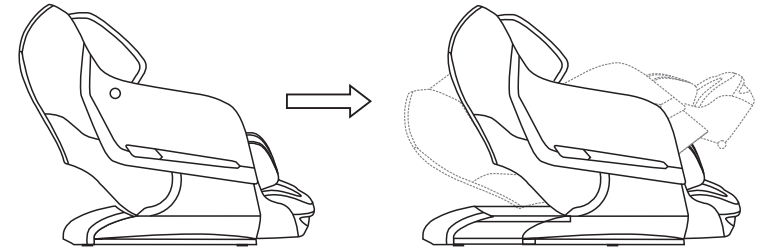

Go to the Auto page and scroll to the bottom of the page. Select Memory A or Memory B and then select “Run”. The chair will now run the program you created in the Manual mode.

▶ FUNCTIONS AND FEATURES

1: Sliding
