Making Miracles Happen... Naturally!

Message from the Pack Leader:

Happy New Year to all of you!

What a great year of hearing from so many of you, letting us know that we are getting it right. Our mission is to naturally enhance life for your dog, cat and horse friends, without compromising their longevity. It's a great feeling for all of us to know what we do is making a difference in so many lives. Thank you, from the bottom of our hearts for your wonderful pet stories and photos. Keep them coming!

2016 is already shaping up to be an incredible year for us. We are having a new website designed as I write this, as well as new labels, making it easier for you to find our products at your local GPH retailer. They will also be easier to read and have all of the information you need to use our products. The new site will be dynamic and beautiful, and so much easier for you to navigate. We'll send out a notice to all of you letting you know when it's up.

The January issue of [Dogs Naturally Magazine](#) has published one of my articles about comfrey. I'm very excited and can't wait for you all to read about this herb. It has always been one of my favorites and look forward to shining some light on the truth about one of the most important herbs in the Natural Pharmacy.

In the coming year we will be having "Facebook Only" specials. So be sure to like our page and tell your friends as this is the *only* way you'll know about all the cool things we will be offering at special prices.

We also have many new products coming on board. Some new ones from us, as well as other products from around the country that will help us all live happier, healthier lives.

We would like to welcome a new member to the pack. Elisabeth Jolliff will be the sweet voice on the phone when you call in. She has a lot of experience in customer service and will help put you at ease. She has worked in veterinary offices and been hands on with many animals. She shares our love of critters and it shows in her work. Welcome to the pack, Elisabeth!

Well, on to the rest of the newsletter. We welcome your questions and comments, and please feel free to share.

Cheers to Healthy Pets in 2016!

Deb & El

Denise McKay - Canada

I've been using GPH Products on my Dobermans for several years and I want to express my gratitude for these wonderful formulations. I've used Inflation and Herbal Aspirin on several of my dogs with great results for pain mediation and healing.

I add Daily Defense to my dogs' supper meals every day and I give them Peak Immune 4 times per year.

Recently, my 3 year old girl "Spanx" wasn't feeling up to par and a CBC revealed a very low white blood cell count. She was lethargic, depressed and losing her coat, and after several consultations and tests, a "specialty veterinary clinic" found nothing. It was possible that she was experiencing physical issues due to the emotional strain of losing my older girl in July.

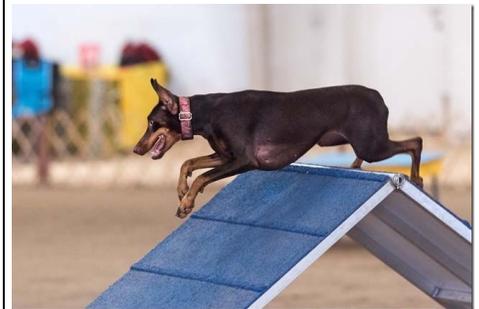

I decided to try a combination of Glacier Gold and Parv RX from GPH and after a week, I began to notice an improvement in her energy level and attitude. She finished a 14 day protocol on the products and then I gave her a rest for 12 days while we travelled to 2 agility competitions. With the stress of traveling, training and competing, Spanx started to lapse back into lethargy/depression, and skin and coat issues. I put her on the same 14 day protocol of Glacier Gold and ParvRX and she rallied immediately and is still doing great!

I am now doing a 10 day protocol of Peak Immune on both dogs, to give them a little extra help for the long, cold winter ahead.

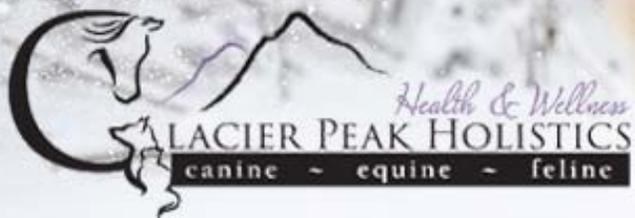

It's wonderful to have alternative treatments that don't have side effects or cause harm to my dogs.

Thank you GPH!
Denise McKay
