

# MISSING SOMETHING IN YOUR DRINK? THERE'S A REASON FOR THAT.

PLASTIC STRAWS ARE HURTING OUR OCEAN.

We've committed to stop serving plastic straws and only offer paper straws upon request. Let us know what you think!

## WHY DID WE SWITCH?

PLASTIC STRAWS END UP IN OUR OCEAN.

Many plastic straws are NOT recyclable and end up in our ocean, polluting the water and harming sealife. If we don't act now, by 2050 there will be more plastic than fish in our ocean.
