

KNOCKDOWN DECOY INSTRUCTIONS

To deploy your knockdown decoys lift the back support (pic 1) until it is about 90 degrees to the stake.
Gently push down to lock the back support in place (pic 2).

(pic 1)
Back Support

(pic 2) Push down here

To knockdown your decoy gently lift the back support near the opening of the windsock (pic 3) and raise until the mechanism disengages and lowers for storage.

(pic 3) Gently lift here
