

## Neon

These neon colored PU (Polyurethane) Heat Transfer Vinyls are suitable for use in Craft Vinyl Cutters such as Cricut and Silhouette, and Production Cutters like Roland and Graphtec. There is nothing quite like requiring sunglasses to view a design so bright!

(21) Neon Yellow

(22) Neon Orange

(23) Neon Pink

(24) Neon Green

(25) Neon Blue

### Instructions:

Cut Direction: Reverse  
For Use On: Cotton, Cotton-Poly Blend, Polyester  
Temperature: 320 degrees Fahrenheit  
Time: 15 seconds  
Peel: Warm

## Metallic

This flexible metallic is a high quality, multi-layered polyurethane film on a polyester liner. It has a very shiny metal-effect look. This metallic is very thin and highly elastic allowing for stretching with the textile. Above all, this metallic distinguishes itself from the rest with its excellent weeding characteristics.
