Face Mask

USB to Remote Cable

USB Adapter

SEDONA Remote

Rechargeable Batteries

# The SEDONA Remote

1. Display

2. Power ON and OFF

3. Mode (select program)

4. + Key (increases intensity)

5. - Key (reduces intensity)

# Power Supply

Open the battery cover; place the two AAA batteries into the compartment; close the battery cover. After press the ON/OFF button (if the device doesn't turn on then batteries are empty, please swap the batteries for two new AAA batteries.)

1. Open the battery cover

2. Place the two AAA batteries into the compartment

Another power source is to plug the control remote into an outlet

Make sure blue dots are lined up

Plug the cable into the top of the remote

# How to Start Device

Press the ON/OFF button to boot up the unit. The display panel back light will turn on. Then press the M (mode) button to select the desired program. Press "+" or "-" to set the intensity. (Make sure the unit is connected to the pillow otherwise the unit will automatically shut down)

Make sure inductor is connected

Press the ON/OFF button

Press the M button until desired mode

The selected program will start automatically a few seconds after you have reached your desired intensity and run for 30 minutes

Press the "+" button till desired intensity

To have the program run indefinitely (without stopping)

Press the ON/OFF button

Press the M button and "+" button at the same time

You will notice the lock button in the upper left corner

Now select desired program and intensity

# Programs

Program		Frequency	Intensity	Use
A	Very Low	3Hz	0.6 gauss	Clearer Skin
