**Clear Glycerin Solution**

Used to dilute pigments to develop a lighter, more sheer color especially for shading purposes.

Dilute your pigment at your chosen ratio in your pigment cup, mix well.

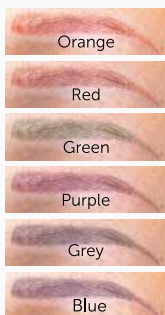

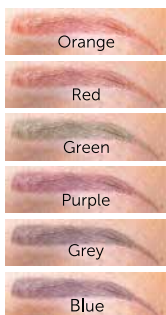

HOLD SWATCHES ABOVE CLIENT'S EYES FOR BETTER COLOR VISUALIZATION

**SUNSET LUXE**

**TOFFEE LUXE**

**AUTUMN LUXE**

For machine shading (optional).

#### PREVIOUS PMU

For cover-ups, previous PMU should be faded by at least 50%. Ashy brows? Correct with a warm pigment.

#### CUSTOM BLENDS

Mix pigments for a bespoke color. Sunset, Toffee and Autumn are great for warming up other pigments.

#### PRO TIP

Do not oversaturate as retention is up to 90%. It's best to start conservative and re-evaluate at the touch-up.

# Pigments

SUNSET BROW COLLECTION LUXE

Color chart for easy *pigment* selection

When selecting a color for your clients, here are a few key things to consider

#### SKIN OVERTONE

Choose a pigment that provides the right amount of contrast against their skin tone using our Fitzpatrick guide.

#### SKIN UNDERTONE

Is their undertone warm, cool or neutral? Remember, pigments heal cooler in the skin than they appear in the bottle.

#### SKIN TYPE

Thinner and mature skin types retain pigment very well. Be conservative with color choice and go darker at the touch-up if needed.
