

RING SIZE GUIDE

If you don't know your ring size at all it is always best to visit a jeweller and get sized up. However if you can't do that then please see below. Remember, Lush Designs will always exchange rings free of charge, so you can get the best fit!

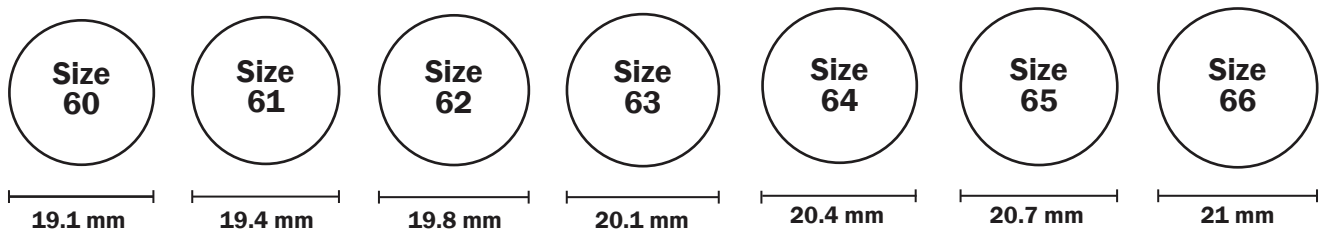

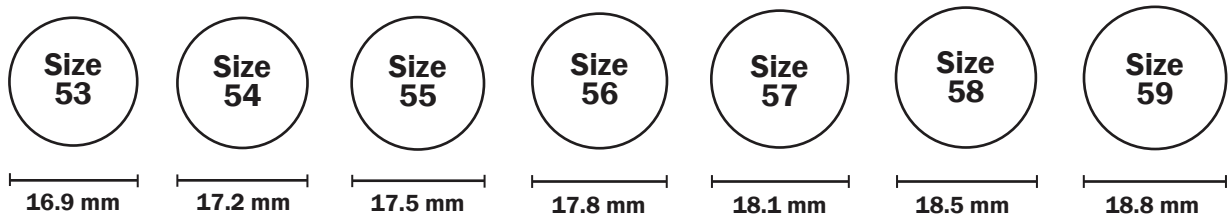

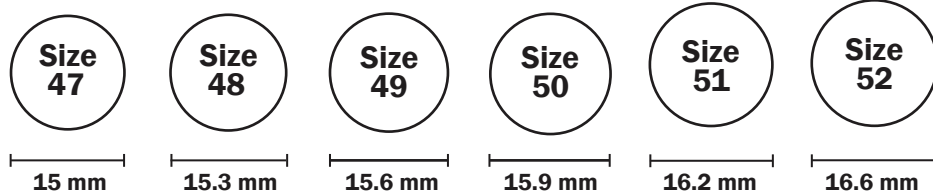

PRINT THIS PAGE TO FIND YOUR MEASUREMENTS

- Ring measurements are precise. Follow these instructions to get an accurate measurement.
- Ensure that before you print this page that your **Page Scaling is set to 'none'** on your print dialog box. (You can access this setting by pressing CTRL+P)
- After you print, measure the bar on the left to ensure it is the correct size. You can place a 20 cent piece over the image to make sure your print out is the right scale if you don't have a ruler.

YOU CAN ALSO USE AN EXISTING RING (THAT FITS YOUR INTENDED FINGER) BY PLACING IT OVER THE SIZE CIRCLES.

Match the inside edge of the ring to the circle nearest in size.
If the ring falls between two circles, order the larger size.

*Note: Please print this page using the above instructions, rather than using the on-screen pdf to avoid any sizing issues.
PDF files displayed on a computer, tablet or phone are not always accurate.*
