ABOUT CAM CAM COPENHAGEN®

Timeless design uniting the classical and the contemporary

Cam Cam Copenhagen creates premium, sustainable interior design for little loved ones. Combining contemporary Scandinavian simplicity with a classical architectural heritage, poetic prints, and a delicate colour palette, Cam Cam Copenhagen offers enriching environments for families. From small everyday essentials to furniture meant to last a lifetime.

Cam Cam Copenhagen is a family company run by Danish-American architect couple, Sara and Robert. Cam Cam Copenhagen originated in 2012, shortly after their daughter Olivia was born. Sara was searching for products for baby Olivia that combined timeless design with sustainable production. When she could not find what she was searching for, Sara decided to make it herself. And so, Cam Cam Copenhagen was conceived.

SUSTAINABLE AT HEART

Sustainability is key to Cam Cam Copenhagen. It was the reason why, back in 2012 when the company was founded, and still is today!

Cam Cam Copenhagen uses 100% organic cotton in our textile products, accompanied by recycled polyester in selected items for greater resistance towards stains and outdoor use. The furniture collection is produced in Europe from sustainably sourced wood and child-safe VOC-free and waterbased paint.

Cam Cam Copenhagen is a GOTS-certified and OCS-certified company, working only with GOTS-certified textile manufacturers to ensure that the products are produced from organic materials, in the eco-friendliest manor, and under socially responsible manufacturing conditions.

Cam Cam Copenhagen is FSC®-certified. FSC helps take care of forests for future generations. Our products are made from materials coming from certified, responsibly managed forests where no more trees are harvested than the forests can reproduce, and where animals and plant life are protected, and from other controlled sources. FSC also ensures socially responsible working conditions.

Children grow fast. So do their needs. Cam Cam Copenhagen strives to accommodate this reality and defy throw-away culture by offering products that are multifunctional and follow the child's development by changing function alongside the shifting needs.

Thus, encouraging families to make sustainable choices by opting for products meant to last a lifetime through their timeless design, innovative functionality, and high-quality materials. Letting longevity lead the way to a sustainable lifestyle.

Cam Cam Copenhagen donates to charitable organisations around the world.

THE HERITAGE COLLECTION

"All in all, it was a never to be forgotten summer — one of those summers which come seldom into any life, but leave a rich heritage of beautiful memories in their going — one of those summers which, in a fortunate combination of delightful weather, delightful friends and delightful doing, come as near to perfection as anything can come in this world."

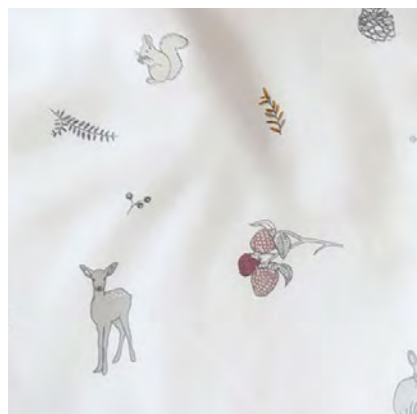

L.M. Montgomery, *Anne's House of Dreams*

The First Half Collection 2023 introduces two beautiful new prints, Ashley, and Classic Stripes, that draw inspiration from magical childhood summer memories by the sea.

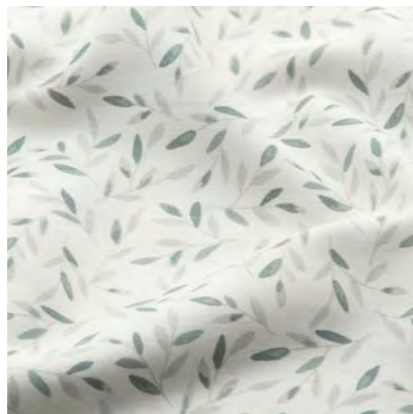

OUR PRINTS

HAND-DRAWN PRINT DESIGN

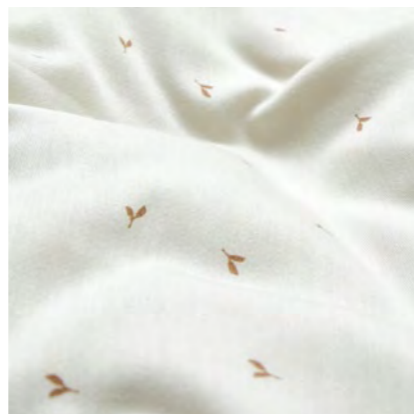

P45 FAWN

The theme of the Fawn print is fostered by the inspiration from the autumnal forest. Autumn is a most beautiful time of the year to go out and explore nature with the little ones. Collecting fallen leaves, picking nuts, and finding mushrooms for eating.

P76 GREEN LEAVES

The Green Leaves print draws inspiration from blossoming spring fields and verdant forests covered by a lush foliage of sprouting leaves in fresh green nuances. The delicate and life-affirming palette unites fresh pastels with soft tones of dusty green, wild sage, and tender olive.

P81 FLOWING LEAF

The Flowing Leaf print is an ode to the union of Scandinavian simplicity and Japanese minimalism forever dear to Cam Cam's aesthetic heart and heritage. A simple, light, and graceful print featuring sparsely spread flowing leaves in warm taupe on a cream white background.

P85 CLASSIC STRIPES BLUE NEW

The timeless Classic Stripes Print is a tribute to summers by the sea in Denmark. The traditional nautical theme is characteristic of Danish summers, where magical childhood memories are created, and days are spent sailing and collecting shells at the beach with sun-kissed cheeks. The simple and understated print has classical ocean blue stripes and matches perfectly with the new accent colour Praline.

P84 DREAMLAND

The enchanting Dreamland print draws inspiration from the classic fairytales of The Little Prince, Peter Pan and Ole Lukøje, where dreams take you to a place of wonder. The print is set on a cream white background with soft tones of chocolate, almond, and sage, which is seen throughout the collection in baby essentials and soft textiles for the entire family.

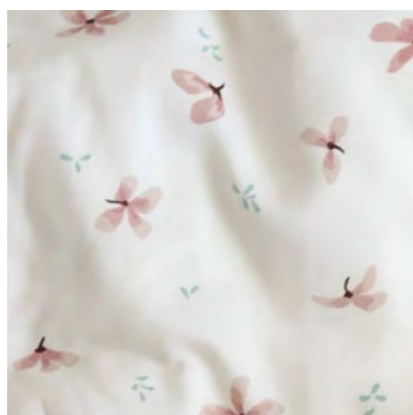

P86 ASHLEY NEW

The Ashley print is an ode to summers spent in France, picking wildflowers, swimming in the sparkling ocean, and building sandcastles. The print has a vintage feel to it with its sun-soaked background colour and brown burned hues of delicately hand drawn flowers. The balancing warm tones of antique white, cocoa, and coral can be seen throughout the collection in baby essentials and soft textiles for the entire family.

P31 PRESSED LEAVES ROSE

The Pressed Leaves Rose print is inspired by the collecting of leaves in the forest, pressing them and waiting for them to dry, before mounting them in a book or in a frame for you to enjoy at the summerhouse or in your home. The print is a timeless and poetic Cam Cam Copenhagen classic that is as beautiful on soft baby essentials as on nursery decoration items and playtime favourites.

P62 WINDFLOWER CREME

The Windflower print is an ode to the airy softness of Japanese aesthetics, simple yet complex by nature. Captured by the ancient notion of Wabi-sabi, saluting a beauty that is imperfect, impermanent, and incomplete. Leaving room for the eye and heart of the beholder to complete it.

P83 POPPIES

The dreamy Poppies print, so ample with softness and light, is an ode to the iconic Poppy flower. In its poetic portrayal of this token of innocence and hope, the Poppies print is a reminder to take the time to see the beauty, the awe of simplicity, and ever shining light in even the smallest flowers.

P80 FOREST

The Forest print draws inspiration from the autumn and winter forest with falling leaves and animals hibernating. A calm and blissful natural world with the frosty air about to spread its snowy magic upon everything. Balancing soft tones like warm taupe, sand, and nutmeg with dusty blue, deep ocean, and arctic sky this figurative print brings cosy and refined style to the nursery.

P47 DANDELION NATURAL

The Dandelion Natural print is an ode to the poetic feel of withering dandelions. A simple, yet strong flower, most beautiful in its fragile, fleeting decay. Airy and enigmatic like flying kisses and softly whispered words of tenderness floating towards the sky.

P82 LIERRE

The enchanting floral Lierre print holds an eloquent vintage elegance and elevated sophistication inspired by old Flora Danica drawings from the 18th Century. Featuring winding branches of ordinary yet alluring leaves the print contains a touch of unseen, missed beauty and mazy mystique.

FURNITURE

Cam Cam Copenhagen's exclusive European-made Furniture captures the essence of Danish design, where immaculate function and superior quality meet subtle expression. The FSC-certified pieces are produced from high quality solid wood and MDF coming from responsibly managed forests and other controlled sources. Designed with innovative multi-functionality and durability in mind the furniture items offer a long and sustainable lifespan. Timeless in its Scandinavian refinement, every piece of Cam Cam Copenhagen Furniture is destined to become a cherished family heirloom.

LUCA STORAGE BENCH – EXTRA MODULES

All families with children are aware of the daily challenges of organizing the children's toys in a manner where the toys are accessible to the child, but at the same time creates a harmonious and tidy environment.

Now we're introducing an extra module, which can be easily stacked, so you can build the piece of furniture to the height you need for storage. The LUCA Storage Module and boxes are sold separately.

SLEEP & CUDDLE

Crafted from the finest 100% organic cotton, Cam Cam Copenhagen's sleeping time products feature handmade detailing on a soft and delicate sateen cotton weave bringing an exquisite feel to them. The light colours and poetic prints are designed to bring a calm atmosphere evoking harmonious sleep and sweet dreams. Ready for many hours of safe and cosy cuddling.

NEW PRINT ASHLEY

The Ashley print is an ode to summers spent in France, picking wildflowers, swimming in the sparkling ocean, and building sandcastles. The print has a vintage feel to it with its sun-soaked background colour and brown burned hues of delicately hand drawn flowers. The balancing warm tones of antique white, cocoa, and coral can be seen throughout the collection in baby essentials and soft textiles for the entire family. The colours beautifully match with the new accent colour Latte, that has a burned earth tone.

The delicate yet distinctive Ashley print is destined to bring a nostalgic and refined style to the home.

NEW PRINT CLASSIC STRIPES

The timeless Classic Stripes Print is a tribute to summers by the sea in Denmark. The traditional nautical theme is characteristic of Danish summers, where magical childhood memories are created, and days are spent sailing and collecting shells at the beach with sun-kissed cheeks. The simple and understated print has classical ocean blue stripes and matches perfectly with the new accent colour Praline, a soft brown hue, which can be seen throughout the collection.

BATH TIME

There is nothing like a lovely warm bath to spread comfort, joy, and harmony in the family home. From the very first time of gently washing tiny toes and wrapping a newborn miracle in the softest of towels, to the plentiful splashes and bubble fun with a toddler in the tub, bath time strengthens the relationship of pure trust and love between child and parents. Cam Cam Copenhagen's new Bath Time products are a tribute to the blessings of bath time. With the GOTS-certified Towels and Bathrobes in superbly soft, thick, and fast-drying organic cotton and the beautiful natural rubber Bath Toys offering sensory stimulation and encouraging imaginative storytelling there is even more reason to cherish and savour bath time's special family moments.

FEEDING

Mealtime means family time. Shared moments where we gather around the dinner table to relax, enjoy tasty meals, and talk about the day ahead or gone by. For the little ones, it's also the time for sensory stimulation and motor skills development; trying new tastes, touching new textures, and eventually learning the challenging skill of eating by yourself. Cam Cam Copenhagen's new Feeding products contribute to making mealtime a pleasurable moment for the entire family by offering pretty and practical dinnertime accessories. The allergy-friendly Silicone Tableware series is both child-safe and stylish featuring intelligent design details to facilitate the eating process for both child and parents. The collection of bibs presents a variety of styles, colours, and materials, to match the needs and desires of contemporary family life.

ILLUMINATE THE KID'S ROOM WITH CAM CAM'S WHIMSICAL LAMPS

Our fun and whimsical lamps create a dreamy atmosphere in the kid's room, with their warm light and soft glow, sure to spark adventurous and delightful dreams. The best advice we can give people for their home, is to create a balanced and atmospheric lighting design with many smaller light sources, instead of one main light source in each room.

The night light are easy to operate: Turn on the lamp by pressing the button under the lamp and activate the colour change function by gently tapping the night light. If you wish to keep the light in a certain colour, gently tap the night light again.

PLAY & DEVELOPMENT

Cam Cam Copenhagen presents a wide range of toys suitable for babies, toddlers, and children. The Baby Toy collection, made from soft 100% organic cotton, sustainable wood, and natural rubber, is designed to stimulate the baby's senses, and support its development. For the older children, the beautiful Play Kitchen, perfectly paired with eco-friendly accessories, and the adorable Doll's Universe are sure to bring many hours, days, and years of imaginative role play. Finally, the playful and refined FSC-certified Cardboard Collection featuring the Memory Game, Stacking Boxes, and Suitcases offer plenty of family fun and essential skills development.

ON THE GO

The synthesis of function and refinement is a key element in Cam Cam Copenhagen's dedication to pursuing and renewing the Danish design legacy. Sustainably crafted from 100% organic cotton and recycled polyester and designed in a classical yet contemporary style, the On the Go collection includes everything from iconic Changing Bags to Beauty and Makeup Purses, and picnic ready Cooler Bags, plus a wide selection of pram and stroller must-haves. A collection of pretty and practical essentials created to tackle the everyday challenges of the modern family with uncompromising design, eco-friendly materials, and long-lasting quality.

MY FAVOURITES

The employees of Cam Cam Copenhagen are true experts when it comes to knowing the range by heart. Discover which news they most covet for their own children.

CHARLOTTE RØNNE-AHM, 34
International Key Account Manager

Mother to Olivia, 4,5 years old
and Isabella 20 month old

DAYBED

Our new and improved daybed is a great piece for any lucky child's bedroom or as a guest bed as it now comes in single bed size. Our signature harlequin pattern that frames the bed, makes it a timeless piece of art, and can easily be styled with our Luca furniture range as well. This is a piece of furniture that can be handed down from generation to generation.

FLOWER KIDS CUTLERY SET

My youngest daughter used our silicone spoons when she was learning to eat. As she is getting older, so is Cam Cam Copenhagen's development into feeding growing stronger. This new set will be great for her to start with, as the great non-slip - comfortable in hand - silicone handles are the same, and the metal cutlery are just the right size. The aesthetic design also makes mummy here very happy to look at when clearing the dishwasher.

BEDDING - ASHLEY

I really like the Ashley design. It takes me back to my childhood with the slightly vintage coloured background mixed with Cam Cam Copenhagen's floral trademark pattern. A great print that will add beauty and warmth into any child's bedroom. One thing I really enjoy as well is not only the great cotton quality, but also that the zippers on the bedding are YKK zippers, which means their endurance are paramount despite many trips in the washing machine.

TEDDY BEAR

The softest teddy bear with the cutest vintage look. This is a perfect cuddle toy for Holly at bedtime but also when relaxing in the stroller on the way home from day-care. I will also have to buy one for Hannah who is a big fan of all teddys.

DIVIDED PLATE

The divided plate is a must have when you have small kids. Hannah loved dividing the food into groups when she was little so this one, I need for Holly. The plate also completes our lovely collection of flower silicone dinnerware.

LUCA STORAGE MODULE

The Luca storage module is not only practical but also the most beautiful storage solution I have ever seen, and it will fit every room of our home. In our apartment all the kids' toys are stored in many different baskets on the floor but with the Luca module it will leave space on the floor for play instead of storage.

SMALL CHANGING BAG

The Small Changing Bag is an eagerly awaited necessity for parents like us who are on the go with the stroller every single day - if you have ever had a baby who wouldn't sleep more than 30 minutes anywhere else, you'll know! Placed on the handle, it offers the perfect storage for all the necessities - like coffee and sunglasses for the early morning rides - that you need right at hand. I'll go for the Classic Stripes since it has that perfect simple and superior summer feel to it which never goes out of style. As an extra bonus it looks great as a crossbody or shoulder bag too so I'll definitely be wearing it beyond the stroller days.

LUCA CHANGING TABLE DRESSER

For our little one who's not so little anymore, the Luca Changing Dresser is just perfect since it offers a larger changing area and fits babies up to 15 kg. And when the changing days are over, we'll have great use of it as a dresser! I love the classical silhouette and simple elegance of the Luca design so it'll be a beautiful addition to the rest of our Luca furniture.

BUMBLE BEE ACTIVITY TOY

The Bumble Bee Activity Toy is a given on my top3 SS23 shopping list. It's simply way too cute and indispensable as an on the go entertainment, especially for the car seat which he's not exactly overly fond of, so we're always saving the best toys for the car rides. Since Charlie's nickname is bumblebee in Danish, Brumbasse, I'm confident they'll be best buddies.

SUSTAINABILITY AND MATERIALS

ORGANIC COTTON

Cam Cam Copenhagen uses 100% organic cotton as a primary resource, since this is one of the only natural resources for textile production which can be completely organic. Organic cotton is grown without chemical fertilizers, pesticides, and insecticides – all of which carry toxins that can harm the environment. All cotton used in Cam Cam Copenhagen's products is certified by GOTS and OCS.

GOTS

Cam Cam Copenhagen is a GOTS-certified company working only with GOTS-certified textile manufacturers. The GOTS-certificate (Global Organic Textile Standard) represents a guarantee that the product is produced from the most environmentally conscious materials and under socially responsible circumstances. GOTS is globally recognised as one of the strictest standards for organic textile production. GOTS sets the scale high when it comes to demanding a safe and humane working environment as well as requiring textile products to contain as many organic fibres as possible. Cam Cam Copenhagen aims at 100% organic fibres in all cotton products.

FSC

Cam Cam Copenhagen is FSC® certified. FSC® is a global, non-profit organization dedicated to the promotion of environmentally appropriate, socially beneficial, and economically viable management of the world's forests. FSC® helps take care of forests for future generations. Look for our FSC®-certified products; wooden furniture and toys, and paper and cardboard stationary, storage and toys.

OCS

The Organic Content Standard Certification is a certificate given to prove that a product has met organic standards throughout its journey from raw material to the end-product. The OCS 100 logo is given when a product contains at least 95% organic material. The OCS blended logo is given, when a product contains a smaller percentage of organic material blended with for instance wood, poly-filling, or a music box.

RECYCLED POLYESTER

Cam Cam Copenhagen uses recycled polyester. A durable and sustainable material containing no harmful substances and leaving only a minimal carbon footprint. Underlining thus Cam Cam Copenhagen's dedication to environmental responsibility by recycling and extending the life cycle of products.

NATURAL RUBBER

Cam Cam Copenhagen uses pure natural rubber from Hevea rubber trees in our Baby Teethers and Bath Toys. Natural rubber is a highly durable material which is 100% sustainable and biodegradable. It is soft, flexible, and child-safe, containing no toxic chemicals. The production of natural rubber has a minimal impact on the environment during the harvesting, manufacturing, and recycling processes.

SILICONE

Cam Cam uses silicone for our Dinnertime series of tableware, placemats, and bibs. Silicone is an allergy friendly and sterile material, ideal for food contact. It is easy to clean, either by hand or in the dishwasher. Naturally, the silicone used in our products is child-safe and contains no harmful phthalates and other harmful substances.

RECYCLED PACKAGING MATERIALS

Cam Cam Copenhagen uses recycled plastic, paper, and cardboard for all product packaging. Recycled materials reduce the waste of natural resources for production.
