ABOUT CAM CAM COPENHAGEN®

Timeless design uniting the classical and the contemporary

Cam Cam Copenhagen creates safe and harmonious environments for little loved ones, as a gentle contrast to the hectic modern-day life full of distractions. From small everyday essentials to furniture meant to last a lifetime, Cam Cam Copenhagen is the first choice of conscious parents.

Back in 2012, the couple, Sara and Robert, founded the children's interior brand Cam Cam Copenhagen. Their shared passion for design and architectural background fuelled their aim to offer products that combine exceptional quality, timeless design, and a strong commitment to sustainability. They envisioned their creations as cherished heirlooms, to be passed down through generations.

Cam Cam Copenhagen's timeless design approach provides a soothing and elegant aesthetic for the family home. With a deep understanding of the busy everyday of families, Cam Cam products are designed to create a safe and relaxing space where little ones can play, learn, and grow. From bedding to furniture, CamCam Copenhagen's designs are made with meticulous attention to detail, featuring soft colours, delicate prints, and a harmonious blend of functionality and aesthetics.

SUSTAINABLE AT HEART

Sustainability is key to Cam Cam Copenhagen. It was the reason why, back in 2012 when the company was founded, and still is today.

Cam Cam Copenhagen uses 100% organic cotton in all textile products, accompanied by recycled polyester in selected items for greater resistance towards stains and outdoor use. The large furniture collection is produced in Europe from sustainably sourced and FSC-certified wood finished with child-safe VOC-free and water-based paint.

Cam Cam Copenhagen is a GOTS-certified and OCS-certified company, working only with GOTS-certified textile manufacturers to ensure that the products are produced from organic materials, in the eco-friendliest manner, and under socially responsible manufacturing conditions.

Cam Cam Copenhagen is FSC®-certified. FSC helps take care of forests for future generations. Our products are made from materials coming from certified, responsibly managed forests where no more trees are harvested than the forests can reproduce, and where animals and plant life are protected, and from other controlled sources.

FSC also ensures socially responsible working conditions.

Children grow fast. So do their needs. Cam Cam Copenhagen strives to accommodate this reality and defy throw-away culture by offering products that are multifunctional and follow the child's development by changing function alongside the shifting needs.

Thus, encouraging families to make sustainable choices by opting for products meant to last a lifetime through their timeless design, innovative functionality, and high-quality materials. Letting longevity lead the way to a sustainable lifestyle.

SUMMER ALLURE

Dazed and Sunkissed

A light and fresh collection of enchanting family must-haves exuding warmth and harmony. Designed to immerse little loved-ones in a sunlit summer breeze with salty drops of sea magic and the alluring scent of sun-ripened strawberries.

The SS24 collection offers unique, archi-designed furniture and a variety of soft organic textiles featuring hand-drawn prints, accompanied by clever storage solutions, poetic accessories, and learning-while-playing toys. All conceived from a desire to encourage families to enjoy the simple magic and beautiful mess of everyday togetherness.

OUR PRINTS

Hand-drawn print design

P76 GREEN LEAVES

The Green Leaves print draws inspiration from blossoming spring fields and verdant forests covered by a lush foliage of sprouting leaves in fresh green nuances. The delicate palette unites fresh pastels with soft tones of dusty green, wild sage, and tender olive.

P84 DREAMLAND

The enchanting Dreamland print draws inspiration from the classic fairytales of The Little Prince, Peter Pan, and Ole Lukøje, where dreams take you to a place of wonder. The print is set on a cream white background with tones of chocolate, almond, and sage.

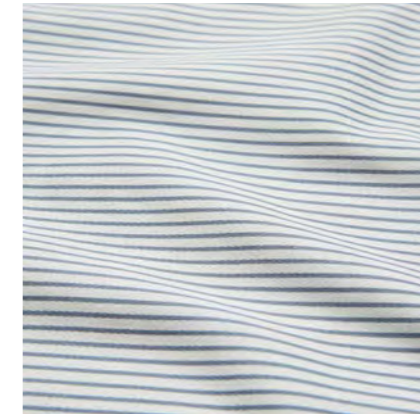

P82 LIERRE

The enchanting floral Lierre print holds an eloquent vintage elegance and elevated sophistication inspired by old Flora Danica drawings. Featuring winding branches of ordinary yet alluring leaves, the print has a touch of unseen beauty and mazy mystique.

P88 CLASSIC STRIPES CAMEL

The Classic Stripes Camel print is a classical unisex print with an ever-present stylish appeal. Nonchalant in its understated simplicity, the print has an air of casual French sophistication, recalling lazy days with loved ones in a summerhouse in the Normandie dunes or an ancient Paris penthouse.

P85 CLASSIC STRIPES BLUE

The timeless print Classic Stripes Blue is a tribute to summers by the sea in Denmark. With its simple and understated elegance, the print holds a traditional nautical theme, characteristic of Danish summers, where magical childhood memories are created surrounded by ocean blue waves.

P89 SEA GARDEN

A sweet and figurative print exuding natural harmony and imaginative storytelling. Featuring magic creatures like sea horses, jelly fish, and sea turtles peacefully swimming side by side, the blue and brown toned print portrays the soothing underwater calmness.

P31 PRESSED LEAVES ROSE

The Pressed Leaves Rose print is inspired by the collecting of leaves in the forest, pressing them, and waiting for them to dry, before mounting them in a book or in a frame for you to enjoy in your home. The print is a timeless and poetic Cam Cam classic.

P62 WINDFLOWER CREME

The Windflower print is an ode to the airy softness of Japanese aesthetics, simple yet complex by nature. Captured by the ancient notion of Wabi-sabi, saluting a beauty that is imperfect, impermanent, and unfinished. Leaving room for the eye and heart of the beholder to complete it.

P86 ASHLEY

The delicate and romantic Ashley print has a vintage feel to it with its sun-soaked background and burned brown hues on the hand drawn wildflowers. A tribute to the simple pleasures of summer, like picking wildflowers, feeling the sun on your skin, and the warm sand under your feet.

P87 BUTTERFLIES

The Butterflies print is an ode to the fleeting and fragile beauty of childhood wonder, allowing little dreamers to fly on the wings of their imagination. A poetic and figurative print featuring alluring butterflies surrounded by busy bees, dancing leaves, and floating weeds adorned by warm and luscious tones.

P90 BERRIES

Vintage enthused floral print inspired by Art deco wallpapers at old boutique hotels. The graceful and joyous print holds a significant French allure with its Matisse infused palette. Recalling fields in bloom and the sweetest taste of savory strawberries, the print oozes eternal sunshine and summer of the mind.

'Creating a calm and safe environment for your little loved ones'

FURNITURE

Cam Cam Copenhagen's exclusive European-made Furniture captures the essence of Danish design, where immaculate function and superior quality meet subtle expression. The FSC-certified pieces are produced from high quality solid wood and MDF coming from responsibly managed forests and other controlled sources. Designed with innovative multi-functionality and durability in mind, the furniture items offer a long and sustainable lifespan. Timeless in its Scandinavian refinement, every piece of Cam Cam Copenhagen furniture is destined to become a cherished family heirloom.

HARLEQUIN FRENCH CABINET

Beautiful French cabinet in a refined vintage silhouette. A small scale display cabinet offering elegant and versatile storage for the kid's room with 3 drawers underneath and 2 shelves on top, behind the adorned Harlequin doors. Due to its smaller scale, the cabinet is perfect for kid's rooms of all sizes at the same time as it allows the child to easily access its belongings on the shelves and in the drawers. The cabinet is designed with a convenient soft-close feature on both doors and drawers.

BATH TIME

There is nothing like a lovely warm bath to spread comfort, joy, and harmony in the family home. From the very first time of gently washing tiny toes and wrapping a newborn miracle in the softest of towels, to the plentiful splashes and bubble fun with a toddler in the tub, bath time strengthens the relationship of pure trust and love between child and parents. Cam Cam Copenhagen's Bath Time products are a tribute to the blessings of bath time. With the GOTS-certified Baby and Junior Towels in superbly soft, thick, and fast-drying organic cotton there is even more reason to cherish and savour bath time's special family moments.

FEEDING

Mealtime means family time. Shared moments where we gather around the dinner table to relax, enjoy tasty meals, and talk about the day ahead or gone by. For the little ones, it's also the time for sensory stimulation and motor skills development; trying new tastes, touching new textures, and eventually learning the challenging skill of eating by yourself. Cam Cam

Copenhagen's feeding products contribute to making mealtime a pleasurable moment for the entire family by offering pretty and practical dinnertime accessories. The allergy-friendly Silicone Tableware series is both child-safe and stylish featuring intelligent design details to facilitate the eating process for both child and parents. The collection of bibs presents a variety of styles, colours, and materials, to match the needs and desires of contemporary family life.

SUSTAINABILITY AND MATERIALS

ORGANIC COTTON

Cam Cam Copenhagen uses 100% organic cotton as a primary resource, since this is one of the only natural resources for textile production which can be completely organic. Organic cotton is grown without chemical fertilizers, pesticides, and insecticides – all of which carry toxins that can harm the environment. All cotton used in Cam Cam Copenhagen's products is certified by GOTS and OCS.

GOTS

Cam Cam Copenhagen is a GOTS-certified company working only with GOTS-certified textile manufacturers. The GOTS-certificate (Global Organic Textile Standard) represents a guarantee that the product is produced from the most environmentally conscious materials and under socially responsible circumstances. GOTS is globally recognised as one of the strictest standards for organic textile production. GOTS sets the scale high when it comes to demanding a safe and humane working environment as well as requiring textile products to contain as many organic fibres as possible. 100% of Cam Cam Copenhagen's cotton is GOTS-certified.

FSC

Cam Cam Copenhagen is FSC® certified. FSC® is a global, non-profit organization dedicated to the promotion of environmentally appropriate, socially beneficial, and economically viable management of the world's forests. FSC® helps take care of forests for future generations. Look for our FSC®-certified products; wooden furniture and toys, and paper plus cardboard stationary and accessories.

OCS

The Organic Content Standard Certification is a certificate given to prove that a product has met organic standards throughout its journey from raw material to the end-product. The OCS 100 logo is given when a product contains at least 95% organic material. The OCS blended logo is given, when a product contains a smaller percentage of organic material blended with for instance wood, poly-filling, or a music box.

RECYCLED POLYESTER

Cam Cam Copenhagen uses only recycled polyester. A durable and sustainable material containing no harmful substances and leaving only a minimal carbon footprint. Underlining Cam Cam Copenhagen's dedication to environmental responsibility by recycling and extending the life cycle of products.

NATURAL RUBBER

Cam Cam Copenhagen uses pure natural rubber from Hevea rubber trees in our Baby Teethers. Natural rubber is a highly durable material which is sustainable and biodegradable. It is soft, flexible, and child-safe, containing no toxic chemicals. The production of natural rubber has a minimal impact on the environment during the harvesting, manufacturing, and recycling processes.

SILICONE

Cam Cam uses silicone for our Dinnertime series of tableware, placemats, and bibs. Silicone is an allergy friendly and sterile material, ideal for food contact. It is easy to clean, either by hand or in the dishwasher. Naturally, the silicone used in our products is child-safe and contains no harmful phthalates and other harmful substances.

RECYCLED PACKAGING MATERIALS

Cam Cam Copenhagen uses recycled plastic, paper, and cardboard for all product packaging. Recycled materials reduce the waste of natural resources for production.

FOUNDER STORY

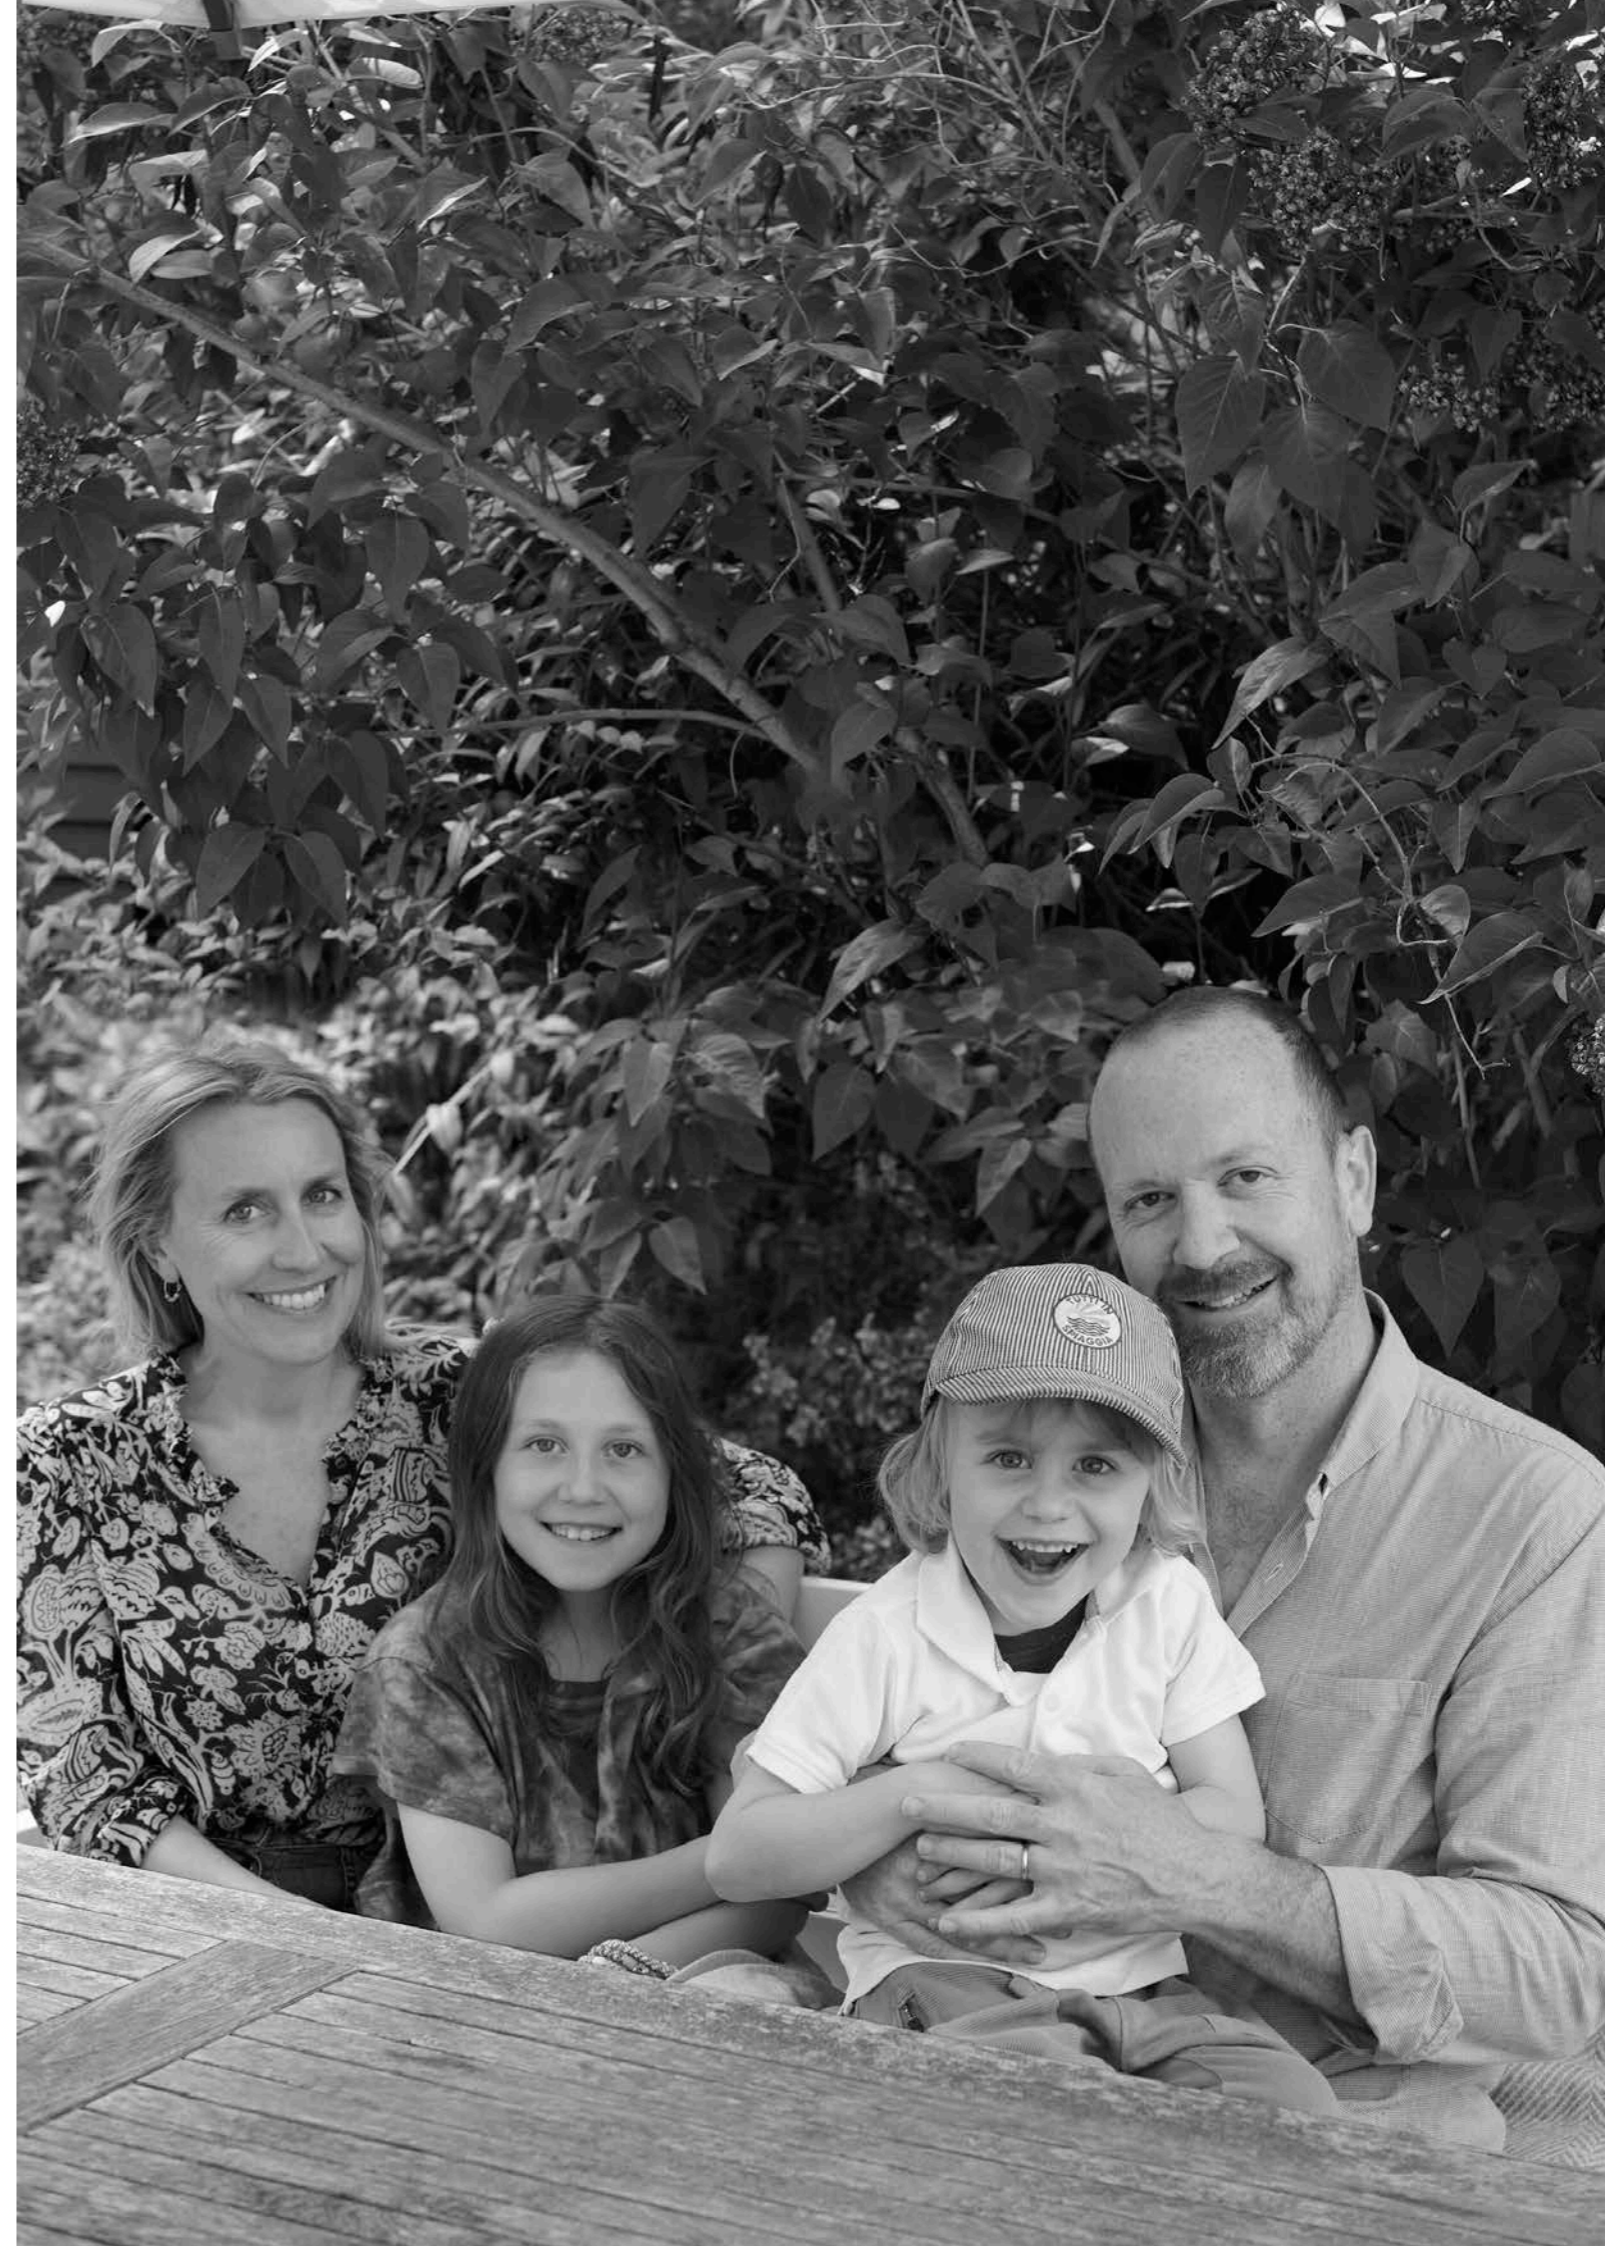

In 2012, Sara and Robert, both architects with a shared passion for design, founded Cam Cam Copenhagen. Their aim was clear: to offer products that combined exceptional quality and timeless design with a strong commitment to sustainability.

Drawing upon their architectural backgrounds, Sara and Robert set out to create products that would transcend fleeting trends. They understood the importance of longevity and enduring appeal, believing that children's surroundings should be more than just passing fads. Instead, they sought to provide safe and soothing spaces for children to thrive in, fostering an environment that would stand the test of time.

As true pioneers, Sara and Robert built Cam Cam Copenhagen with sustainability as a core pillar right from the start. They proudly became GOTS-certified as one of the first Danish brands and are still industry leaders within their field, constantly seeking new ways to produce in a better and more sustainable manner.

Staying true to the founders' architectural background and timeless design approach, Cam Cam products offer a soothing and elegant aesthetic. Parents themselves, Sara and Robert know how hectic daily life with children can feel. As a counterbalance to the various distractions, digital experiences, and high demands for our children, Sara and Robert aim to create interior products that serve as a peaceful haven for children, providing a relaxing space where they can play, learn, and grow.

With great attention to detail and dedication to craftsmanship, all products in the brand's varied range are made with intention and careful consideration. Soft colours, delicate prints, and a harmonious blend of functionality and aesthetics has become Cam Cam's signature.
