Ricoh Aficio MP C3001/C3501 and MP C4501/C5501

Versatile color in a secure, eco-friendly design.
It's not enough for full-color multifunctional systems to offer vibrant image quality, high productivity and incredible versatility. Beyond high performance, today's users need environmentally-friendly solutions that offer security features and extensive choices for managing documents. The RICOH® Aficio® MP C3001/C3501 and MP C4501/C5501 deliver all this and more in a convenient, cost-effective design. Use these innovative systems to accomplish any critical task—from printing and copying to scanning and faxing, from finishing and distribution to color control and workflow execution. Each one helps fast-paced offices produce flawless documents securely and efficiently with more collaboration and less outsourcing.

PowerfulEfficientSecureFast

All-In-One Office Document Portals

With four models to choose from, the Ricoh Aficio MP C3001/C3501 and MP C4501/C5501 provide an extensive array of capabilities for fast-paced, results-oriented offices.

- Expect powerful multifunction performance with a complete lineup of printing, copying, scanning and faxing functionality on all four models.
- Manage any workflow with speed and precision. Choose from a broad selection of on-board document distribution tools, portable plug-and-play media, mobile widgets and a host of other document-delivery tools.
- Create compelling presentations, comps, spreadsheets, booklets, brochures and other documents in eye-catching color or crisp, detailed black & white.
- Print or copy on a variety of paper stocks and sizes, then add professional inline finishing to generate ready-to-use marketing, education and collaboration materials.

The intuitive, full-color LCD Control Panel makes it easy for any user to access basic functionality or more advanced workflow tools.

Fast, High-Quality Output

Meet tough deadlines with exceptional speed and processing power.

- Keep more jobs in-house, printing or copying up to 55 pages-per-minute in both full-color and black & white.
- Process even the most complicated print jobs with ease. These systems offer controllers with blazing speed and substantial memory capacity, so users spend more time working and less time standing around waiting for documents.
- Accommodate local networking requirements and make life easier on IT. All four models offer a wide range of standard and optional interfaces as well as broad compatibility with Windows, Macintosh, Unix and AS/400 environments.

Depend on these systems to deliver high-resolution color documents for marketing, education, training and collaboration.

Superior Hard Drive Security

Hard drives often contain confidential files. If left unprotected, they can be a target for hackers and thieves. Ricoh helps ensure your hard drive stays safe.

- Reduce the risk of anyone extracting sensitive documents from the hard drive, even after the system reaches end of life. The standard DataOverwriteSecurity System (DOSS) automatically overwrites the area of the hard drive used for image processing after the completion of each job, making it virtually impossible to recover documents. At the end of the system's useful life, the entire hard drive can be overwritten, which destroys the data before it leaves your location.
- Safeguard documents stored on the hard drive even if the drive is removed from the system. Standard HDD Encryption adds a powerful layer of security to certain stored files, encoding them for maximum defense against hackers.

Optimize Document Security

All four models offer advanced security features designed to protect business-critical documents.
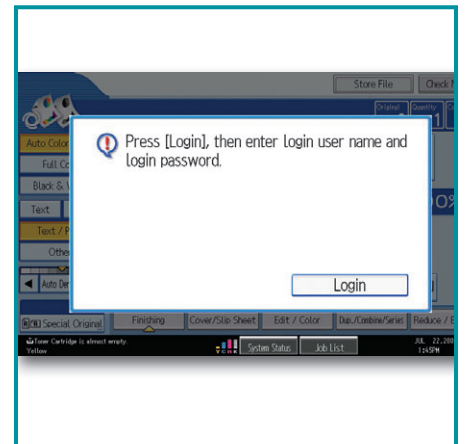

- Prevent unauthorized viewing of confidential files with Locked Print. Users must enter a password at the control panel before jobs are printed.
- Add high-quality color to your projects without the risk of misuse. A multi-layered approach to authentication lets you confirm user identity and control access to color printing and other functions.
- Defend against unauthorized network interceptions with encrypted PDF transmission, which protects data for Scan-to-Email and Scan-to-Folder functions.

Prevent unauthorized users from accessing these systems with a variety of user authentication methods.

Advanced Document Distribution

Ensure recipients around the world receive important documents. The Ricoh Aficio MP C3001/ C3501 and MP C4501/C5501 make it easy to manage document distribution.

- Distribute hardcopy documents immediately with a variety of "Scan-to" functions. Scan-to-Email reaches multiple recipients instantly, while Scan-to-Folder can be configured to share and archive documents automatically.
- Reduce network traffic with Scan-to-URL, which saves scanned documents on the hard drive and allows recipients to access them through a secure hyperlink. This avoids the risk of clogging the network when sending large files.
- Put all your documents in your pocket with Scan-to-Removable Media, which lets you easily store scanned files on a USB clip drive or SD card.
- Convert hardcopy documents into High Compression PDFs using the JPEG 2000 image compression standard. Unlike other methods, the JPEG 2000 standard helps ensure file sizes are small and portable without compromising image quality.
- Handle fax workflows quickly and conveniently. Send or receive faxes electronically with Internet (T.37) faxing, send faxes directly from a PC (LAN faxing), or use IP (T.38) and Super G3 faxing for quick delivery to conventional fax numbers.
- Decrease fax errors with the ability to detect blank pages and allow users to preview faxes prior to transmission.
- Ensure that information gets to the intended recipient by automatically routing inbound faxes to an e-mail address or network folder.

Professional Inline Finishing

Produce a diverse portfolio of attractive, ready-to-deliver documents using a full complement of finishing choices.

- Keep outsourcing to an absolute minimum for reports, plans and other essential documents. The Ricoh Aficio MP C3001/C3501 offers stapling with optional 500-sheet or 1,000-sheet Finishers, while the MP C4501/ C5501 offers a 1,000-sheet or a 3,000-sheet Finisher.
- Create easy-to-read booklets with a 1,000-sheet Booklet Finisher for the MP C3001/C3501 or a 2,000-sheet Booklet Finisher for the MP C4501/C5501.
- Produce two- or three-hole punched documents that are ready for insertion in binders. All four systems offer optional hole punching.

Promote Environmental Sustainability

- Reduce unnecessary output with Locked Print, as well as the User Account Limit feature, which allows administrators to set limits on output for individual users. Minimize wasted energy and paper, minimize the workload of IT managers and increase users' environmental awareness.
- Reduce paper consumption considerably with standard Automatic Stackless Duplexing, which produces two-sided booklets, brochures, agendas and more, with no additional user involvement.
- Ricoh has been an environmental leader for more than 30 years and remains committed to providing eco-friendly office solutions.

Reduce network traffic and transmit files more efficiently with Scan-to-URL, which stores documents on the system's hard drive, allowing recipients to view them via web browser.

Use these versatile devices to generate an extensive variety of full-color, professionally finished documents.

Ricoh has been named one of the "Global 100 Most Sustainable Corporations in the World" by Corporate Knights Magazine for the sixth consecutive year.

DependableAccessibleVersatileExceptional

With fast warm-up and recovery times, these models save both time and energy.

Remarkable Energy Efficiency

All four models continue a long-standing Ricoh commitment to promoting energy savings without compromising quality or productivity.

- Use less power without changing workflow or inconveniencing users. The Ricoh Aficio MP C3001/C3501 warms up in 23 seconds and recovers from Sleep Mode in 13 seconds. The MP C4501 is ready to go in 22 seconds and recovers in 19 seconds or less (36 and 32 seconds for the MP C5501). The innovative induction heating fusing system heats up quickly, using less electricity to do the same work. All this leads to some of the lowest Typical Electricity Consumption (TEC) values in the industry for all four models (as of September, 2010)[1].
- Get documents quickly and save energy with fast first-copy times. The MP C3001/C3501 delivers the first color copy in just 7.8 seconds or 4.9 seconds for black & white, while the MP C4501/C5501 provides a color copy in as little as 5.0 seconds and 3.1 seconds for black & white.

Support Mobile Workers

Mobile users often have no easy way to print important documents, even when traveling to branch offices. These systems give mobile users access to essential features without compromising security.

- Print without device-specific drivers, special software or a LAN connection using the Ricoh HotSpot MFP option. This capability lets mobile users print directly from a laptop, handheld device or smart phone—including BlackBerry® and iPhone®.
- Save time and improve flexibility with the innovative Mail-to-Print capability. This allows users to print a PDF or JPEG attachment automatically by sending an e-mail directly to the system instead of connecting to a local network.
- Print JPEGs, TIFFs and PDFs directly from a USB drive or SD card right at the system. There is no need to open native applications or gain access to the LAN.

Print documents directly from a USB drive or SD card. Just plug in and print without connecting to the local network.

[1] Typical Electricity Consumption (TEC) Approach: A method of testing and comparing the energy performance of imaging equipment products which focuses on the typical electricity consumed by a product while in normal operation during a representative period of time. The key criteria of the TEC approach for imaging equipment is a value for typical weekly electricity consumption, measured in kilowatt-hours (kWh). Detailed information can be found in the "ENERGY STAR Qualified Imaging Equipment Typical Electricity Consumption Test Procedure" available at www.energystar.gov/products.

Dynamic Color, Productivity and Efficiency

The **optional 125-sheet Inner One-Bin Tray** provides a cost-effective way to separate copy, print and fax output.

The Ricoh Aficio MP C3001/C3501 can be equipped with a **500-sheet** or **1,000-sheet Finisher** for traditional stapling, or a **1,000-sheet Booklet Finisher** that creates professional-quality booklets and offers optional hole-punching.

The MP C4501/C5501 can be equipped with a **1,000-sheet Finisher** or **3,000-sheet Finisher** for traditional stapling, or a **2,000-sheet Booklet Finisher** (shown) for professional-quality booklet-making. The 3,000-sheet Finisher and 2,000-sheet Booklet Finisher both offer optional hole-punching.

Use the **optional Side Output Tray** to keep output separate or the **optional Internal Shift-Sort Tray** to collate document sets when no finisher is selected.

Add a **Two-Tray Paper Bank** (shown) or the **2,000-sheet Tandem Large Capacity Tray (LCT)** for maximum versatility. The MP C3001/C3501 can also be configured with a One-Tray Paper Bank (Caster Table required). These options accept stocks up to 140 lb. Index (256 g/m²). Or add a **Cabinet Stand** if the standard paper supply meets your needs.

Ricoh Aficio **MP C3001/C3501 and MP C4501/C5501**

The **standard 50-sheet (MP C3001/C3501)** or **100-sheet (MP C4501/C5501) Automatic Reversing Document Feeder** easily handles one- and two-sided originals up to 11" x 17".

The MP C4501A/C5501A feature a **Single Pass Duplexing Document Feeder** to scan both sides of a document simultaneously by two scanners, significantly improving scanning speed for two-sided originals.

Choose the **optional 1,200-sheet Side Large Capacity Tray (LCT)** to boost maximum paper capacity to 4,400 sheets (with Tandem LCT).

Two front-loading **Standard Paper Trays** each hold 550 sheets. With the **100-sheet Bypass Tray**, total standard paper capacity is 1,200 sheets. Tray 2 can also be fitted with an option to feed envelopes right from the drawer.

Transform the Way You Work

Revolutionize document management with new tools that enable users to customize workflows, manage documents on the go and dramatically increase personal productivity.

- Take advantage of "widgets" to simplify complex workflows with App2Me. Download widgets to your desktop and execute them on any Ricoh MFP enabled with App2Me. No matter where you go, your experience with App2Me-enabled MFPs remains completely personalized for maximum convenience. Widgets can be created to combine, distribute, edit and create documents, as well as perform many other tasks automatically.
- Personalize scanning with Personal Paperless Document Manager (PPDM). This software allows users to customize MFP touch-screen menus directly from the PC, without involving IT. Intuitive icon-based selections at the MFP seamlessly integrate with powerful desktop software to enhance the user experience.
- Spend less time waiting with PDF Direct Print, which leverages Ricoh's true Adobe® PostScript® 3™ option to print even complex PDFs efficiently using a simple drag-and-drop process. There is no need to open files in a viewer application.
- Enhance the usability of embedded software, such as GlobalScan NX, eCopy ShareScan and Reform PDC, with an optional USB keyboard that makes data entry quicker and more accurate.
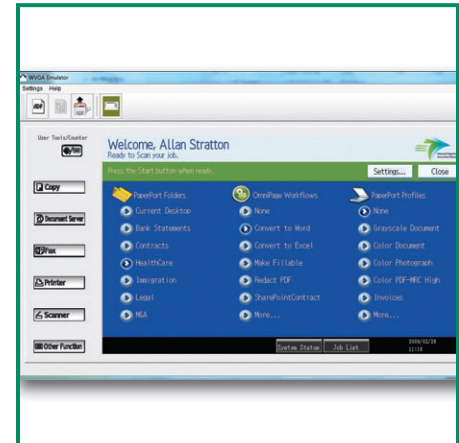

Enhanced Document Solutions

Transform the Ricoh Aficio MP C3001/C3501 and MP C4501/C5501 into powerful document portals. Choose from a long list of user-friendly, easy-to-integrate software solutions from Ricoh and many other innovative technology partners.

- Incorporate proven Ricoh solutions for document capture and distribution, storage and management, variable data printing, assessment and cost recovery, device management and print security. These offerings are designed to work with Ricoh MFPs, transforming them into true document portals.
- Leverage the smartest, most effective workflow tools and streamline every aspect of your organization with Ricoh. We partner with industry-leading technology innovators to make sure our MFPs can serve as on-ramps to an enormous selection of applications for content management and other business-critical activities.
- Develop customized applications for the Ricoh Aficio MP C3001/C3501 and MP C4501/C5501 using Embedded Software Architecture™, a Java-compatible Software Development Kit (SDK).

The optional keyboard makes data entry easier for embedded software applications, such as GlobalScan NX, eCopy ShareScan and Reform PDC.

Personal Paperless Document Manager (PPDM) lets users create unique workflows, combine multiple files in one PDF and convert scanned files into editable Microsoft® Office documents.

Solution partners extend the functionality of Ricoh MFPs to enhance your organization's document-related workflow.

Reliable Paper Handling

With a number of choices for paper handling, these systems give offices the ability to create an extensive range of documents.

- Cut scanning time significantly and improve user convenience with the Single Pass Duplex Document Feeder, which scans both sides of a document automatically. (Available on Ricoh Aficio MP C4501A/ C5501A only.)
- Let users get creative with a wide range of paper stocks and sizes. These systems support very heavy paper for printing full-color proposals, postcards, flyers and more. The bypass tray expands paper handling with support for 12" x 18" paper and duplexing for sizes up to 11" x 17".
- Run mailings without outsourcing. Print envelopes and statement-size documents directly from the Paper Trays (requires option).
- Keep output from different users or functions separate with the Side Output Tray.
- Minimize paper loading for long print and copy tasks. These systems offer a total paper capacity of 4,400 sheets for fewer interruptions.
- Customize paper capacity to match your workflow by adding a Cabinet Stand, one additional paper tray (available on MP C3001/C3501 only), a Two-Tray Paper Bank, or a 2,000-sheet Tandem Large Capacity Tray (LCT). The 1,200-sheet Side LCT can be added with either the Two-Tray Paper Bank or Tandem LCT.

Control costs and speed turnaround by keeping color document creation in house.

Amazingly Vibrant Color

These systems incorporate patented PxP™ toner and powerful print engines to deliver rich, bold color for every document.

- Give client proposals, competitive bids, RFPs and business plans the sophisticated appearance they deserve. All four systems deliver superior color output with resolutions up to 1200 x 1200 dpi.
- Keep expensive outsourcing to a minimum. Instead, give your office or workgroup the capability to produce exceptional color documents in-house and on-demand with outstanding cost-efficiency.
- Energize your organization's image. These systems make it affordable to use color more often, which helps make documents more compelling, key messages more memorable, and your brand more striking.

Ricoh's PxP™ toner ensures vibrant color output for all of your business documents and is environmentally friendly.

Control Color With Precision

With the optional EFI Fiery™ Controller, users can leverage these productive MFPs to attain professional-grade color control and management.
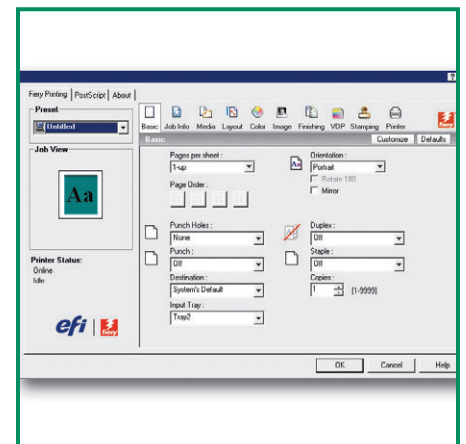

- Take full advantage of the print engines' outstanding color capabilities for graphic-intensive applications and accurate spot color matching.
- Fine-tune color output for application-specific needs. With the EFI Fiery™ Controller's built-in tools, you can achieve superior results for RGB, CMYK and even PANTONE® colors.
- Print complex color documents such as page layouts, concept drawings or proof sheets quickly, consistently and accurately with the additional firepower of a Fiery™ Controller.
- Control workflow, reprint jobs and even combine documents with the powerful Command WorkStation™ tool.

The EFI Fiery™ Controller is ideal for users who require more sophisticated control over color workflows.

Enhanced Accessibility Features

Ricoh makes it a priority to develop easy-to-use technology for everyone. Many of the features on the Ricoh Aficio MP C3001/C3501 and MP C4501/C5501 make them very user-friendly and help meet Section 508 requirements.

- Improve ease of use with the large, full-color W-VGA control panel. You can also use the Simplified Display feature, which shows fewer function keys and uses a larger screen font.
- Get animated, step-by-step instructions for routine tasks, such as clearing paper misfeeds or replacing toner.
- Accommodate all users with a convenient design. Toner cartridges can be replaced with one hand. Paper trays can be easily opened with an overhand or underhand grip. Also, the scanner and document feeder can be detached and placed on a desk, making every function accessible to seated users.
- Handle a long list of documents and device management tasks remotely. View detailed system information and network settings, and monitor supply status right from a standard Web browser.

The detachable scanner option makes the MP C4501/C5501 completely accessible to seated users (stand not included; not available on MP C3001/C3501 or MP C4501A/C5501A).

Innovative Document Management

The Ricoh Aficio MP C3001/C3501 and MP C4501/C5501 provide numerous capabilities designed to help you deal with documents on your own terms.

- Simplify archiving with the ability to turn scanned documents into searchable PDFs. This makes it easy for users to locate documents using a keyword search.
- Never retype another document. Sophisticated OCR (Optical Character Recognition) tools let you transform scanned hardcopy documents into editable Microsoft Word, Excel or PowerPoint files.
- Take advantage of easy-to-use Bates Stamping for case files and discovery documents in legal environments.
- Remove information from electronic documents with powerful redaction tools that completely eradicate the unwanted data, quickly and easily.
- Create fillable PDF forms, create sound files from scanned documents, combine pages created in different applications (e.g., Word and Adobe Photoshop) into a single document, and much more.

New PDF documents can be created by combining content from various applications.

Ricoh Managed Document Services

Ricoh's Managed Document Services (MDS) is a powerful way to streamline your document management environment. MDS enables control of output-related costs and assets and optimizes the fleet. Through on-site and off-site services, MDS improves workflow, productivity and end-user experiences.

- Control expenses with the Ricoh Aficio MP C3001/C3501 and MP C4501/C5501, which provide a powerful combination of high productivity, long-lasting reliability and low total cost of ownership (TCO).
- Consolidate copying, printing, scanning and document management into a single device, with a smaller footprint and one set of consumables.
- Place the right device for the right applications with these systems and others—all part of our extensive line of Ricoh products.

The Total Green Office Solution

Ricoh continues its long-standing commitment to developing office solutions with environmentally friendly and superior energy- and supply-saving features, without compromising productivity.
