## CONTENTS:

75 PROFILE CARDS  
90 STATUS CARDS  
270 COMMENT CARDS  
1 EASEL

## SETUP

Getting set up is super simple. Start by separating the Profile Cards, the Status Cards, and the Comment Cards into 3 decks.

Each player starts every new round with 5 Comment Cards in their hand, so grab 5 each, and then pick up 1 card after every round to replenish your stash.

## GAMEPLAY

Grab your friends/family/coworkers, and sit in a circle. Whoever has eaten oatmeal most recently is the judge first. The judge then pulls 1 Profile Card and 1 Status

Card and places them on the easel for the rest of the group to see. The other players put their best Comment Card face down as their response to the Profile + Status combo on the table.

## HOW TO WIN

Once every player has submitted their Comment Card, the judge reads each 1 out loud, then chooses their favorite response. The player who submitted that Comment Card wins the round and gets 1 point. The judge then rotates, moving 1 player to the left.

Keep playing until people get bored, at which point go back to all quietly staring at your phones.
