

# Let's Get Deep™

**FRIENDS**  
EDITION  
Questions For Friends

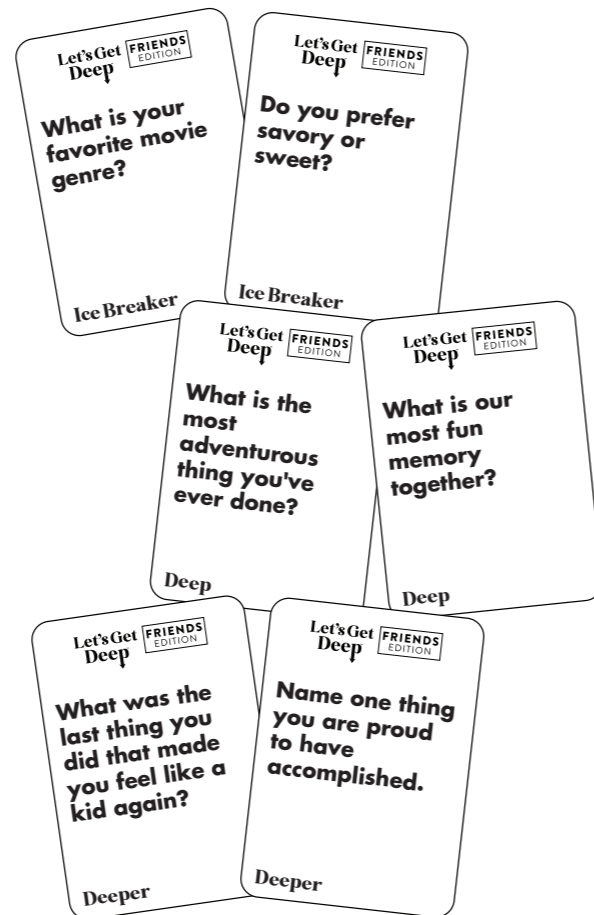

**CONTENTS:**  
400 Cards

**SETUP:**  
You tell them almost everything, but do you actually know them? Time to find out. Split up the cards into the 3 designated decks: "Ice Breaker", "Deep", and "Deeper".

**HOW TO PLAY:**  
The person who texted another player most recently is the first to draw and read a card. Pull from whichever deck you prefer, and answer/ask the question as directed.

Players take turns reading and answering the questions. You can either all answer the same card or answer each one by yourself—it's up to you! Use these cards to stimulate and create a dialogue.

Play until you know enough about each other that you could probably start answering questions for other players. Just remember to have fun until that happens!
