“SHOTGUN!”[™]

The Road Trip Game

FROM THE CREATORS OF
**WHAT DO YOU
MEME?**

CONTENTS:
200 Cards
1 Drawstring Pouch

How to Play

On a road trip, succumbing to boredom may cost you your sanity. Keep things exciting with a deck full of dares, trivia, revealing questions, and more.

Nominate someone to be the card reader (person sitting shotgun, we're lookin' at you). If the car setup allows, you can rotate the reader. Also, nominate someone to keep score in their Notes app. Maybe don't pick the person who planned the road trip: they've already done enough work figuring out directions and booking that sweet Airbnb® with the fire pit.

Dashboard Cards are challenges to be kept in mind throughout the trip. Place them on the dashboard as a reminder. With **Quick Cards**, you compete to be the first to give the correct answer. **Discussion**, **Pause**, and **Just for Fun Cards** aren't worth points.

How to Win

The player with the most points wins.

Play until you reach your destination or until you notice any signs of road trip insanity (like anyone staring into the abyss and thinking about every regret they've ever had) and need to take a break from each other to stare at your phones.

Do not play while driving.
