

CRT - What to Say when Addressing City Councils or School Boards:

- PREFACE: At the start, let it be abundantly clear that I and all who support what I will be saying below, decry racism in any form. We define racism as an unbiblical and illogical term that deceptively seeks to divide the human race – a *single* race of human beings – into groups at war with one other. We are all of the same blood, created by the same Maker. We are designed by our creator as unique individuals, each made in the image of God. That means we are all endowed with – as the Declaration of Independence states – certain inalienable rights, such as life, liberty, and the pursuit of our happiness. As such, it is *because* we live in America, unlike anywhere else in the world, that those rights may not be infringed upon, suppressed, or taken from us by any man or group. We acknowledge and believe wholeheartedly that these rights apply equally to all American citizens of all shades of color, ethnicity, cultural heritage, sex, size, faith, or income status. We are all Americans!
- Lastly, before I speak on CRT, let it be clear that we recognize that America isn't perfect. It never has been, and it never will be. A perfect world will never be made by man on this planet. But we Americans as a people have taken significant steps and shed more blood than any nation in history in our attempts to overcome our past failures; and we have come a long way from the two-class-only, rich-or-poor, impoverished lifestyles of the nations our ancestors fled from, and we're not finished yet.
- THE KEY POINT: **Critical Race Theory (CRT) is an Existential Threat to America, Freedom, Justice, and Peace.**
 - 1) *Critical Race Theory (CRT) is an existential threat to America because America was built upon the principle that "All men are created equal". Equality in this context means equality of opportunity – not equal *outcomes* (which is what *equity* means and which is the root of Marxism and Communism).*
 - 2) *Critical Race Theory (CRT) is an existential threat to Freedom because Freedom is destroyed when race-based "equity" is forced upon us. The claim that some are oppressors, and some are the oppressed forces the loss of freedom for all and breeds contention, which leads to bondage.*
 - 3) *Critical Race Theory (CRT) is an existential threat to Justice because the scales of Justice are radically tilted by the unequal enforcement of laws. We are witnessing preferred treatment for the *unjust* by the wholesale allowance of rioting, theft, personal violence against those labeled as "oppressors", and the firing or otherwise "cancelling" of them with no attempt by the law to prosecute the offenders, leaving us in a state of lawlessness and injustice.*
 - 4) *Critical Race Theory (CRT) is an existential threat to Peace because without the enforcement of laws to protect the people, peace is cancelled and chaos reigns.*
- America is a country where millions have fled to escape the tyranny of dictators and kings BECAUSE America has no supreme dictator or king. America is ruled by a contract between the people and those who we elect to represent us in our government, and that contract, or covenant is the Constitution and Bill of Rights of the U.S... It is the Law of the land, and it is being blatantly violated daily by the divisive, hateful, racist ideology of CRT, enabled by our government and state-run institutions.
- The activists of CRT are Marxist in every way, and they state so by their own words. They seek to destroy the nuclear family, break down society, and stoke the flames of revolution to topple the government of America. Pushing to incite racial division is simply a means to an end.
- Thus, any government official or employee (whether employed by our military, state-education system, government-funded or supported colleges and universities) that refuses to stand against this anti-Constitutional ideology in our state institutions is effectively committing treason by violating the foundational precepts of the laws of this nation. The promotion of CRT by those on the payroll of the government are displaying adherence to our enemies by joining in their schemes.
- The fundamental role and responsibility of any government is to protect the people from evil, enforce the laws of the country, and promote righteousness. When our own government promotes CRT, they are derelict in their duty in all three areas and deserve to be removed from office, never to be employed by our government again.
