## SIZING + GARMENT MEASUREMENTS

## NOTES ON FITTING

The Acton dress has been drafted for a B cup bust. To work out whether or not you will need to do a Full Bust Adjustment (FBA) or a Small Bust Adjustment (SBA), measure your bust (fullest part of your chest) and your high bust (the area of your chest below your underarm). If the difference is greater than $5 \mathrm{~cm}(2 \mathrm{in})$ you will need to do a FBA. If it is smaller than 5 cm (2in) you will need to do a SBA.

It is suggested that you make a toile / muslin (a test version of a garment, made from a similar, but often cheaper, fabric). By making a toile, you can check the fit, and make any adjustments before cutting into your "real" fabric. Due to the fitted design of the Acton, it is really important that you make a toile, as it is difficult to make adjustments to the fit as you go, as the bodice is fully lined.

The pattern is drafted for height of $170 \mathrm{~cm}\left(5^{\prime} 77^{\prime \prime}\right)$. Getting the right strap position is crucial to getting a good fit through the bust of the Acton. Play around with the strap length until it sits comfortably and the peak of the bodice sits on the peak of your bust.
