## SIZING + GARMENT MEASUREMENTS

## SELECTINGYOUR SIZE

The Attwood pants pattern ss available in two size brackets: sizes A - J and sizes $G$ - P. There is a 4 size overlap $(G-J)$ so that you can grade between pattern sizes when required.

If your measurements are in the overlap section of our size charts (G-J), we suggest using the G-P range to achieve the best fit.

Use the LENGTHEN / SHORTEN lines on the pattern to make alterations to the length. We have provided two lines so that you can distribute any adjustment throughout the panels and keep the proportions of the panels intact. If only making a small length adjustment (less than $3 \mathrm{~cm}\left(1 \frac{1}{4} \mathrm{in}\right)$ ), you may choose to just use one of the lines to adjust the length, rather than distributing the amount between the two points.

See the following pages for the finished garment measurements for each size bracket.

## SIZES A - J

## NOTES ON FITTING

The Attwood pants are designed to be relaxed in fit. Select a size based on your hip measurement and then adjust the elastic length to accommodate your waist. Due to the nature of elastic waist pants, there is considerable ease in the waist of the pants before inserting elastic, so keep this in mind when selecting your size. We have provided the waist measurements without elastic so you can ensure that the pants will fit over your hips.

This pattern is drafted for a height of $170 \mathrm{~cm}\left(5^{\prime} 7{ }^{\prime \prime}\right)$. Use the LENGTHEN / SHORTEN lines on the pattern to make alterations to the length.
