

HAND ROPE WINCH HA-ED 2S STAINLESS STEEL 304

Stainless steel manual winch made from 304 Grade stainless steel for harsh environment applications, especially in areas with aggressive conditions ,e.g. chemical and food industry, clarification plants, special refuse disposal, transport and marine applications.

- Space saving internal self actuating load brake
- High and low speed gears
- Free wheel
- Lifelong lubrication
- Large rope capacity
- High efficiency
- Detachable safety crank
- Superior quality

Product code		HA-ED 2S
Capacity: 1st rope position	(kg)	500
4th rope position	(kg)	335
Crank force low gear	(N)	170
Lift/crank turn: low gear	(mm)	37
Lift/crank turn: fast gear	(mm)	280
Rope diameter (mm)	(mm)	ø 6
Weight	(kg)	11

HAND ROPE WINCH HA-ED 500 - 700 - STAINLESS STEEL 304

Stainless steel manual winch made from 304 Grade stainless steel for harsh environment applications, especially in areas with aggressive conditions ,e.g. chemical and food industry, clarification plants, waste disposal, transport and marine applications.

- Space saving internal self actuating load brake
- Lifelong lubrication
- Large rope capacity
- High efficiency
- Detachable safety crank
- Superior quality
- Proven security concept

Product code		HA-ED 500	HA-ED 750
Capacity: 1st rope layer	(kg)	500 kg	750 kg
Capacity: Last rope layer (4th layer)	(kg)	350 kg	445 kg
Lift per crank turn	(mm)	37 mm	30 mm
Effort on crank	(N)	170 N	180 N
Rope capacity	(m)	25 m	26 m
Rope diameter	(m)	ø 6 mm	ø 6 m
Weight	(kg)	10 kg	10 kg
