## Download .NET 5.0

Not sure what to download? [See recommended downloads for the latest version of .NET.](#)

### 5.0.9 Security patch

[Release notes](#) Latest release date 2021-09-10

Build apps - SDK

#### SDK 5.0.400

OS	Installers	Binaries
Linux	<a href="#">Package manager instructions</a>	<a href="#">Arm32</a>   <a href="#">Arm32 Alpine</a>   <a href="#">Arm64</a>   <a href="#">Arm64 Alpine</a>   <a href="#">x64</a>   <a href="#">x64 Alpine</a>
macOS	<a href="#">x64</a>	<a href="#">x64</a>
Windows	<a href="#">Arm64</a>   <a href="#">x64</a>   <a href="#">x86</a>	<a href="#">Arm64</a>   <a href="#">x64</a>   <a href="#">x86</a>
All	<a href="#">dotnet-install scripts</a>	

**Visual Studio support**  
Visual Studio 2019 (v16.11)  
Visual Studio 2019 for Mac (v8.10)

**Included in**  
Visual Studio 16.11.0

**Included runtimes**  
.NET Runtime 5.0.9  
ASP.NET Core Runtime 5.0.9  
.NET Desktop Runtime 5.0.9

**Language support**

Run apps - Runtime

#### ASP.NET Core Runtime 5.0.9

The ASP.NET Core Runtime enables you to run existing web/server applications. **On Windows, we recommend installing the Hosting Bundle, which includes the .NET Runtime and IIS support.**

IIS runtime support (ASP.NET Core Module v2)  
15.0.21196.9

OS	Installers	Binaries
Linux	<a href="#">Package manager instructions</a>	<a href="#">Arm32</a>   <a href="#">Arm32 Alpine</a>   <a href="#">Arm64</a>   <a href="#">Arm64 Alpine</a>   <a href="#">x64</a>   <a href="#">x64 Alpine</a>
macOS		<a href="#">x64</a>
Windows	<a href="#">Hosting Bundle</a>   <a href="#">x64</a>   <a href="#">x86</a>	<a href="#">Arm64</a>   <a href="#">x64</a>   <a href="#">x86</a>

#### .NET Desktop Runtime 5.0.9

The .NET Desktop Runtime enables you to run existing Windows desktop applications. **This release includes the .NET Runtime; you don't need to install it separately.**

OS	Installers	Binaries

# Download .NET

Downloads for .NET and .NET Core, including ASP.NET Core

Not sure where to start? See the [Hello, World in 5 minutes](#) tutorial.

Windows Linux

.NET is a free, cross-platform, open-source developer platform for building many different types of applications.

**.NET 5.0 (recommended)** Current

[Download .NET SDK x64](#) [Download .NET Runtime](#)

[All .NET downloads](#)

**.NET Core 3.1** LTS

[Download .NET Core SDK x64](#) [Download .NET Core Runtime](#)

[All .NET Core downloads](#)

[Looking for .NET Framework downloads for Windows?](#)

**CLICK "Download Net Runtime"**

# Download .NET 5.0 Runtime

The runtime includes everything you need to run existing .NET and ASP.NET Core applications

Windows Linux macOS

**Run console apps**  
Do you want to run console apps that use .NET on your Windows computer? Install the .NET Runtime.

[Download x64](#) [Download x86](#)  
[Download Arm64](#)

**Run desktop apps**  
Do you want to run a desktop app that uses .NET on your Windows computer? Install the .NET Desktop Runtime.

[Download x64](#) [Download x86](#)  
[Download Arm64](#)

**Run server apps**  
Do you want to run web/server applications? The ASP.NET Core Hosting Bundle includes the .NET Runtime and ASP.NET Core Runtime. If installed on a machine with IIS, it'll also add the [ASP.NET Core IIS Module](#).

[Download Hosting Bundle](#)

**For newer Windows computers download 64 bit. Older models download x86.**

# Thanks for downloading .NET 5.0 Desktop Runtime (v5.0.9) - Windows x64 Installer!

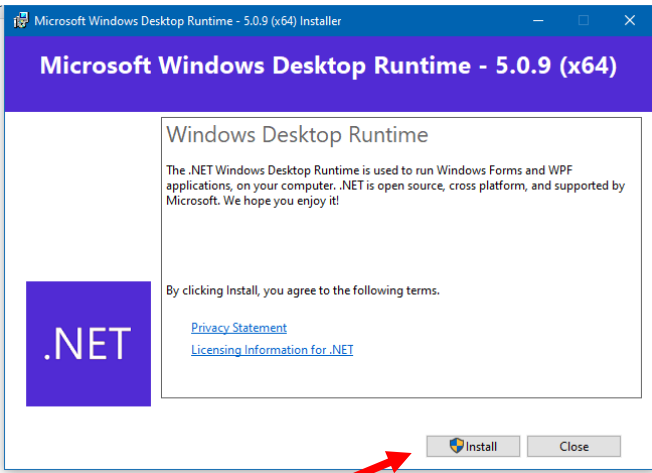

The .NET Desktop Runtime also includes the .NET Runtime.

If your download doesn't start after 30 seconds, [click here to download manually.](#)

Want to build apps?

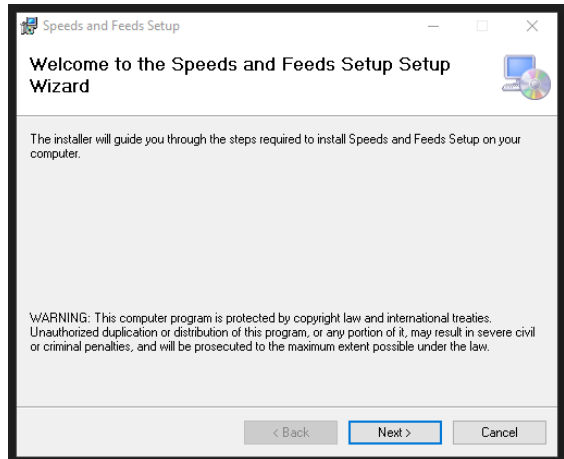

CLICK Install

After the installation is complete CLICK the Speed and Feeds Icon and use the Set Up Wizard to complete installation.

Once completed the BobsCNC Speeds and Feeds Icon will appear on your desktop

Select the model  
BobsCNC Router

Select the material you  
are using.

Select the units you are  
using, mm or inches

Select the diameter of  
the router bit.

Select the number of  
cutting flute on the  
router bit.

Project Settings will give you a  
general reference to help you  
set the speeds and feeds for  
your tool path.

Additional information including  
warnings will be shown in this  
screen.

Speed and Feed Calculator

**BobsCNC**  
Unleash Your Creativity

CNC Model: Evolution Series - Makita

Material: MDF

Units: Inches

Bit Diameter: 0.250 inches

Number of Flutes: 2

**Project Settings:**

Makita Dial:	2.3
Feed rate:	199 inches/minute
Plunge rate:	99 inches/minute
Step over:	0.075 inches
Depth per pass:	0.100 inches

**Calculating Speeds and Feeds**

It is important to note that there are many variables when setting CNC cutting parameters. The values set should be thought of a starting values. With experience, these values can be modified to find the sweet spot for the project that you are working on.

Calculation details:

Surface Feet per Minute (SFM) is a number that sets the best RPM for cutting the material. This number varies depending on the manufacture of the tool and CNC machine. The calculation is:

$$\text{SFM} = \text{RPM} \times 0.2618 \times \text{bit diameter (inches)}$$

We have added default SFM values. If SFM value is modified, it will change the RPM of the spindle.

Once the RPM is determined, you can calculate the feed rate with the formula

$$\text{Feed Rate} = \text{RPM} \times \text{Flute count} \times \text{Chip load}$$

The flute count is the number of flutes on the bit, and the chip

Override RPM and/or Chip load

Chip Load:	0.0065 inches
Spindle Speed:	15279 RPM
Surface Speed:	1000 feet/minute
