

Software Policy

No warranty is given nor will any refund be offered for any software, including Alibre, EstlCAM or Vectric.

We recommend that you “try before you buy” on Vectric’s website for Vectric Software (Desktop, Pro or Aspire). If the BobsCNC kit is purchased with Vectric Software, the refund amount will be reduced by the retail price of the Vectric Software. Please contact Vectric for software transfer policies.
