

SOUL & ARK

SYDNEY

Our Story

Soul & Ark has a range of body care and luxury home fragrance products made with natural ingredients and is eco-friendly.

The products include hand crafted candles, hand and body moisturisers, hand and body wash, salt body scrubs, coffee scrubs, reed diffusers and detox bath salts.

Developed in small batches ensuring top quality, these quality products are crafted in Sydney, Australia.

The idea for Soul & Ark was born from a want of helping an orphanage that was struggling in Bangalore.

Soul & Ark's founder Frances Marie feels the business has grown and has evolved into a passion and feeds her creativity, love for design and love for fragrances. From a young age Frances loved to dry flowers and make her own pot pourri to perfume her room. The power of these scented candles help ignite childhood memories or a well enjoyed holiday.
