

CTMP 2020 Media Credential Application

Please review CTMP Media Credential Policies & Guidelines information below prior to completing this application.

Media credentials are very limited and are available only to qualified media members. CTMP does not issue credentials to freelance writers/photographers, non-contracted stock photo agencies, or any media outlet unable to provide samples of relevant coverage. Photographers must attend a mandatory photo meeting to receive a photo vest. Photo vests must be worn during ALL on-track sessions.

Media credentials will be issued only to recognized journalists representing newspapers, news services, racing publications, television and radio networks, local television stations and other approved media outlets. This application should be filled and submitted by an assigning editor or contract employer when applicable.

Those representing websites will be credentialed only if the site covers relevant motor racing on a regular basis, and is consistently updated with original news and features. Web journalists who have not previously covered events at CTMP should submit recent copies of race coverage and three industry references in order to be considered for accreditation. Working media credentials will not be issued for employees in marketing, PR, promotions, sales, etc.

A media credential is a privilege and submitting a media application is not a confirmation of access, and CTMP reserves the right to reject your application.

Send finished application to media@ctmpark.com
