

S-Series Customization

Your Unique Coffee Vision on Display.

The Synesso S-Series allows for a clean look with uniform powdercoat coloring plus our classic wood and graphic elements.

Powdercoated Panels

Choose a unique color to match your brand and compliment your space.

Wood Accent Kits

Upgrade the Barista experience with locally-made wood portafilters, group top and steam handles.

Vinyl Graphics

Add a signature logo or graphic that captures your brand in a memorable way for customers.

POWDERCOATED PANELS

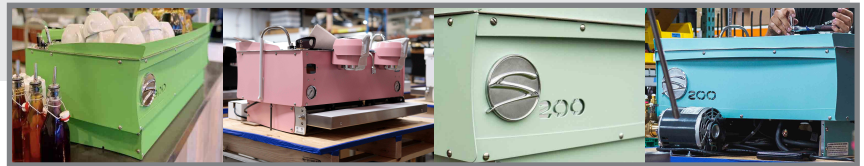

Achieve a uniform, fully-colored look with an S-Series powdercoat which covers nearly all panels in a one color.

We bring your look to life using our skill, know-how, and years of experience delivering high-quality coatings.

- Gloss & Matte finishes available for a unique look
- Choose from hundreds of RAL color options

Gloss Matte

WOOD ACCENT KITS

The look and feel of our unique wood accents add a signature touch to your machine.

All are made from carefully selected hardwoods, bespoke crafted, and guaranteed to perform year-after-year through countless cycles.

- Hand-crafted to order and truly unique
- Kit your new machine or retrofit an existing one
- Kits include portafilters, steam and grouphead handles

Maple Walnut Zebra Jatoba

VINYL GRAPHICS

Make your mark or send a message with full color, laser-cut vinyl graphic decals.

However you choose to apply them, decals are a great way to reinforce your brand and show the personality that makes your setup unique.

- Vector-based artwork file required
- Side and back panel placement options available
