

# AUTOMATIC TAMPER UNDER THE GRINDER FOR ATOM

Match it with your Atom grinder to create an all-in-one solution to optimise your workflow and coffee counter space.

## Main features & Advantages

- 1) High speed tamping:** just 1.5 seconds. Your workflow gains speed.
- 2) Automatic portafilter recognition** (thanks to metallic reader sensor): enhance speed and safety during workflow.
- 3) Pressing force customizable:** from 10 to 30 kilos, to get an even and consistent tamping.
- 4) Compact and modern design: designed to be placed underneath ATOM** to optimise barista's workspace.
- 5) Compatible with the whole Atom range**, including: Atom Excellence, Atom W, Atom Specialty\* and Atom Touch\*.
- 6) Possibility to select between single or double tamping** (sequential): choose the tamping profile you prefer.
- 7) High- speed maintenance:** the "Clean mode" enables to lower and (possibly) remove the tamping disk.
- 8) Metal Body** combined with Rubbered feet: ensuring solidity and stability on the counter.
- 9) \*\*Universal fork**, easily adjustable in height, **compatible with any kind of filter holder** (single/double/naked).
- 10) Limitless tamps per day:** use it how often you need in your workspace.
- 11) Made to last:** designed to handle up to 200'000 tamps, to support high consumption shops and chains.
- 12) Ready to suit your needs:** thanks to the Tamper Kits available as separate accessories, you can easily update and switch the standard 58 mm tamping disk according to your portafilter type. This means that you can update your Under-the-grinder Automatic Tamper at any time, even if you change your coffee machine.

**Available tamper diameters: 53 / 54,3 / 57.3 / 58/ 58,3mm\*\*.**

- 13) Standard configuration is available in 58 mm. 53 / 54,3 / 57.3 / 58,3 mm are available as separate accessories.**

\*Compatible, but slightly different fit due to this model's structure  
\*\*easily adjustable in height, compatible with any kind of filterholder (single/double/naked)

\*\*\* currently not compatible with La San Marco portafilter

## Maintenance kit available:

. Allen key for quick disassembly of the pressing disc.

. Brush to clean hard-to-reach places

**Brand:**  
Accessories

**Range:**  
Tamper

 **Target:**

A barista or a home user that wants to speed up their workflow and obtain a reliable result in its coffee extraction, removing the pressing variable. Plus, it avoids unnecessary fatigue in high volume coffee shops.
