VINTAGE OVERVIEW

We were bracing ourselves for an early harvest and indeed started on the 6th of March with Pinot Noir, which is the second earliest ever. On March 27th all Pinot Noir, Chardonnay, Pinot Gris and Riesling was safely in the winery with the later varieties finished on April 10th. In contrast to the challenging vintages of 2017 and 2018, practically all the grapes were in perfect condition, grape picking was fast and easy and the final sorting at the winery was more of a "make you feel good exercise". Instead of trying to rescue vulnerable fruit, we could choose when to pick, a luxury we all appreciated.
