

KV-SS081

Optional Flatbed Scanner compatible with all the Panasonic Scanners, for scanning passports, datebooks and other special documents

KEY FEATURES

- 3 sec/page simplex scanning
- 2-page separation
- Multi-crop function
-

By selectively using one compatible Panasonic document scanner and the optional KV-SS081, you can easily scan 2-page spreads from books or magazines, and automatically divide the single image into two single sheets. You can also place documents of various sizes on the flatbed and scan them all at once, then crop whatever parts you need. This is convenient for scanning multiple business cards and thick documents.
