Contourett

Application	Seating
Content	100% Polyurethane
Width	54"
Weight	20.3 ounces per linear yard
Finish	Silver-based ion technology
Backing	70% Polyester, 30% Cotton
Abrasion	200,000 double rubs (W)
Flame Resistance	NFPA 260 (UFAC Class 1), California TB 117-2013 compliant
Manufacturer	HON

Maintenance

- For wet spills, gently blot with dry cloth to remove spill.
- For dried spills, gently work the spill in a non-aggressive circular motion using a damp cloth, making sure to not oversaturate the fabric.
- For dried stains, use a mixture of Tide or Oxiclean and warm water (1 teaspoon of soap for every 16 ounces of water). Follow instructions for dried spills above. Make sure to wipe away any excess soap left behind and remove any moisture with a dry cloth.
- For non-liquid spills, always remove excess contaminant from surface before cleaning. The use of a soft brush or soft abrasive can be used to remove dried contaminants before performing liquid cleaning.
- For healthcare-related stains, a water-to-bleach solution of 5:1 is recommended. Rinse cleaned area with water.
- For stains requiring the use of solvent, spray the solvent directly onto the stain and allow it to sit for 2-3 minutes, avoiding oversaturating the fabric. Follow directions for dried stains above.
- Always allow fabric to air dry.

ACT Registered Certification

Multiple factors affect fabric durability and appearance retention, including end-user application and proper maintenance. Wyzenbeek results above 100,000 double rubs have not been shown to be a reliable indicator of increased fabric lifespan.
