

FLEXA MONITOR SYSTEMS

Flexa is our most versatile Monitor System. The base configuration serves as a basis for a wide range of solutions. Mix and match all the components to achieve the perfect solution for your needs. With both Fixed and Floating base packages you can add on to build double and triple monitor options.

FLEXA FIXED MONITOR SYSTEM

- The base configuration provides a strong stable mount for monitors from 15" to 27".
- Height adjustable on pole
- Die cast aluminium structures
- Integrated cable management
- Easy assembly and flexibility
- Grommet and desk clamp include

500F190

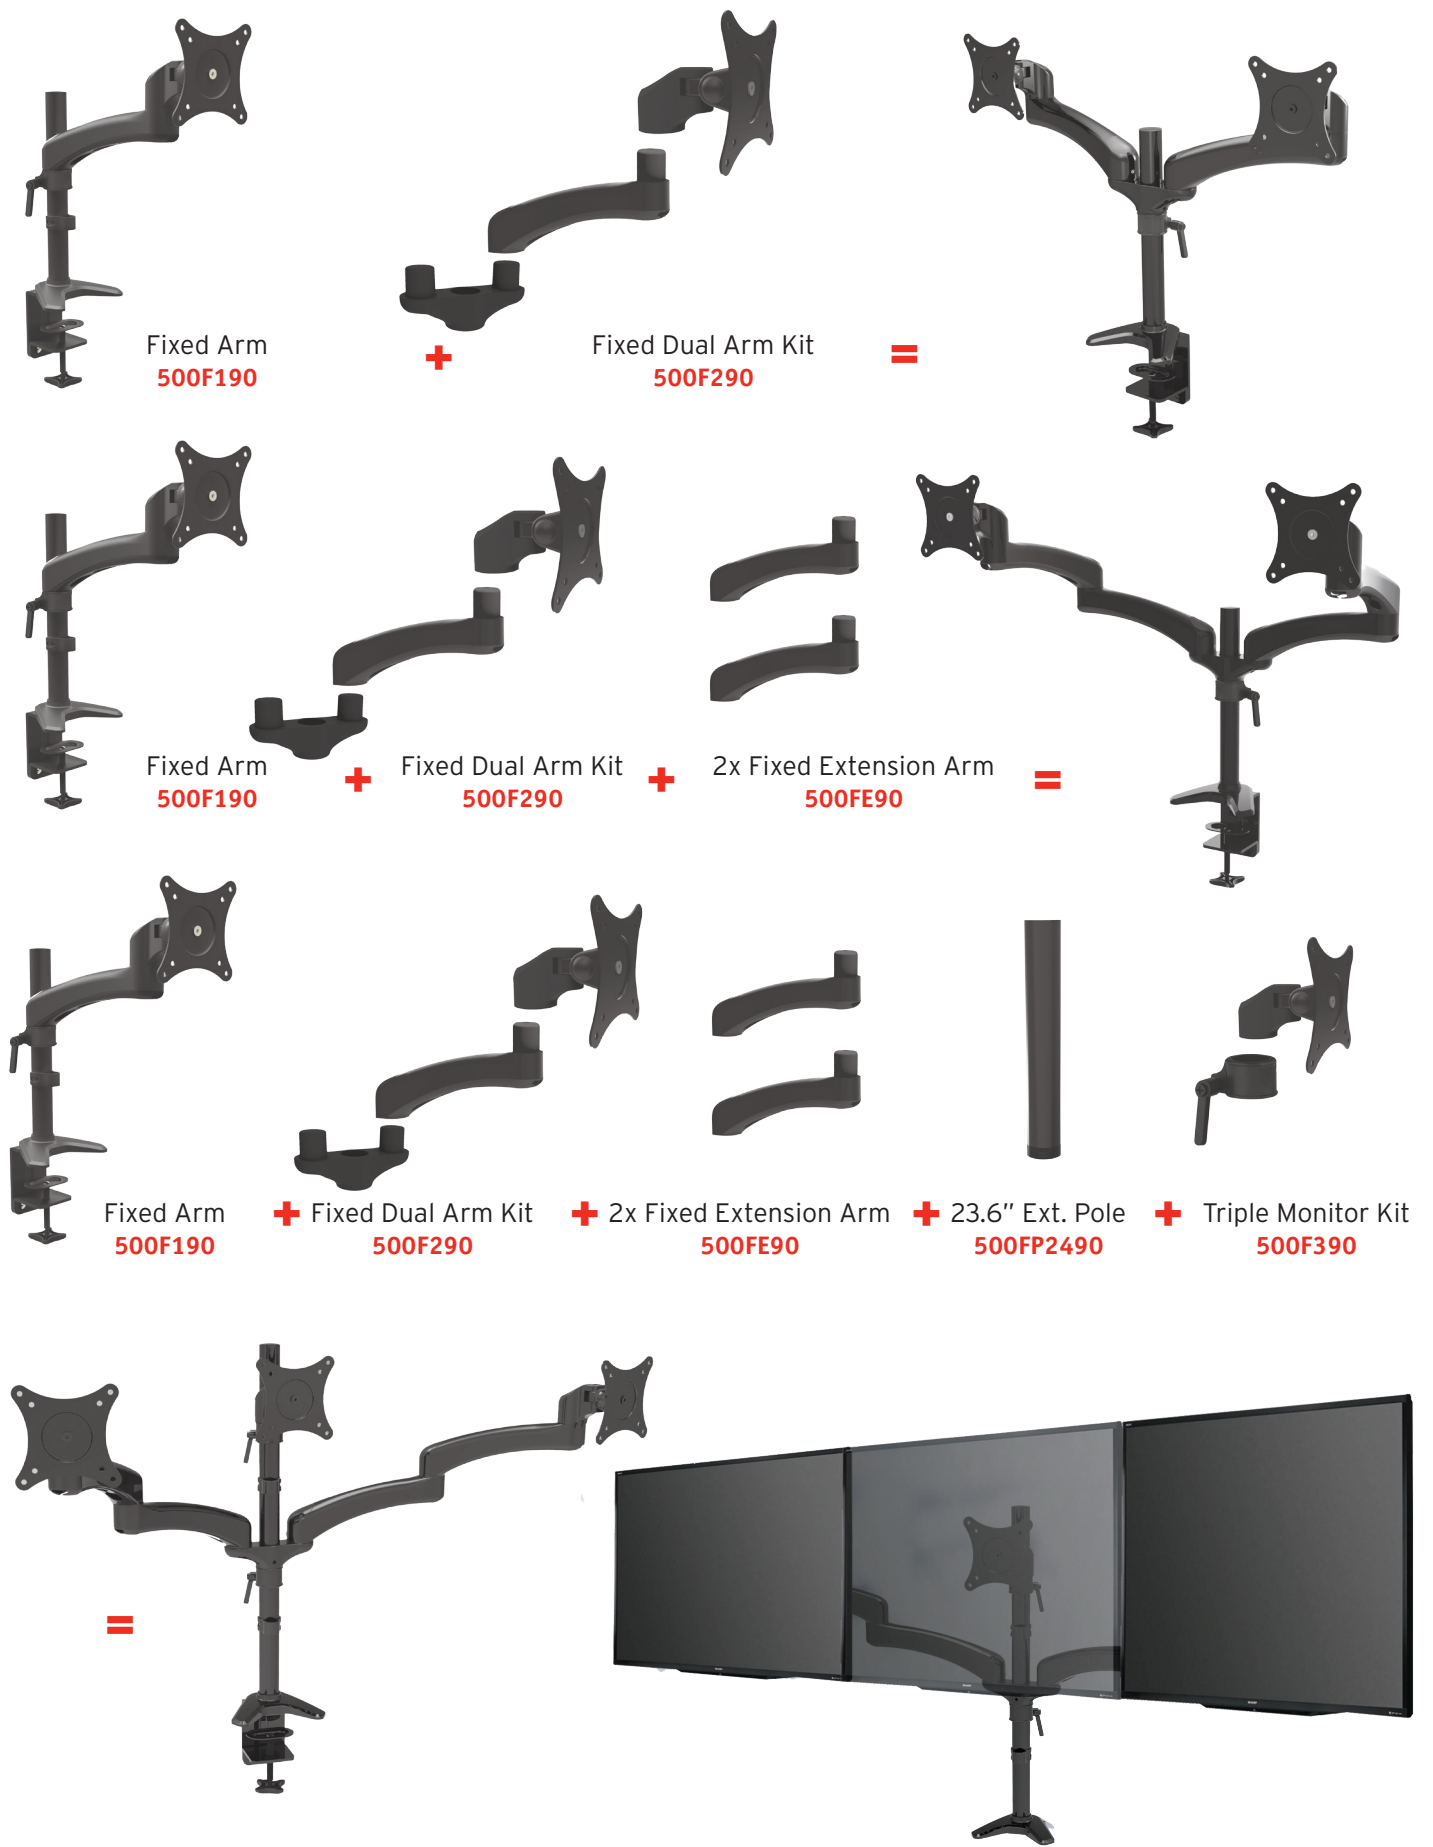

FLEXA FLOATING MONITOR SYSTEM

- Gas spring tension adjustment for counter-balance height adjustment for monitors 1-8 KG
- Elastic painting process for a durable and beautiful finish
- Gas spring tested to 50,000 repetitions
- Easy assembly and flexibility
- Hidden cable management
- Desk clamp and grommet mounting included
