## Product Detail

1 USB Charging Ports

2 DC Adapter

3 Wireless Charging Pads

4 Acoustic Chamber

5 Magnetic Key Hooks

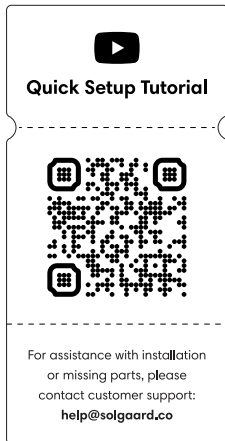

### Compatible Phone Cases

HomeBase can charge your phone with many cases up to 3 mm thick. Some phone cases accessories will interfere with wireless charging technology. These must be removed before charging.

*(including metal cases)*

# Safety Instructions

## ⚠ IMPORTANT

Read **all** instructions and warnings before using this product. Improper use may result in product damage, excess heat, toxic fumes, fire or explosion, for which damages Solgaard is not responsible.

- ❶ In order to achieve the best charging, place your device at the correct position.
- ❷ This charger is only suitable for indoor use, beware of rain and exposure.  
**Homebase is not waterproof.**
- ❸ **ONLY** use the original DC Adapter. Only use certified cables to charge iPhone.
- ❹ Do not put heavy or metal objects on the charging area.

Install HomeBase according to instructions provided. We are not responsible for injury or damage resulting from incorrect installation or use. Our products are for use only as wall-mounted shelves and are not intended for any other purposes.

2x Screws

2x Drywall Anchor

1x Apple Watch Puck

5x Cable Clips

1x User Manual

## Tools suggested for this installation

(not included)

Level

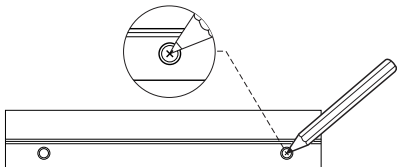

Power Drill / Screwdriver

Pencil

# Installation Guide – Wall Mounting

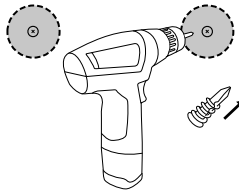

- 1 Choose the desired position to mount the HomeBase to the wall and make two marks on the wall through the two circular holes on the wall mount.

*Tip: Use a pencil and level*

- 2 Using a power drill, drill holes into the wall at the pencil marks and insert the drywall anchors into the wall.

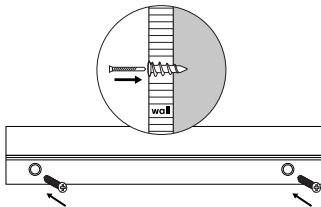

*Tip: Ensure the holes are level*

**DO NOT PUT DRINKS OR PLANTS ON HOMEBASE. THIS DEVICE IS NOT WATERPROOF. THIS IS RATED FOR A MAXIMUM OF 5LBS (2.5KGS) DO NOT EXCEED.**

**3**

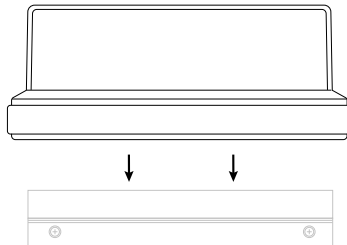

Place the wall mount on the wall, then tighten the screws firmly into the drywall anchors till they are flush.

*Tip: Do not over-tighten screw. Improper tightening could reduce the holding power of wooden screw*

**4**

Slide HomeBase into the wall mount from above until it hooks onto the back of the homebase ridge.

# Setup Guide

## Connect The Adapter

HomeBase comes with international adapters. Select your adapter and attach to the underside of the plug and enter the plug into an electrical outlet. Plug the power cord into the side of your HomeBase. Once power is connected, your HomeBase is ready to go.

## Connecting The Apple Watch Adapter

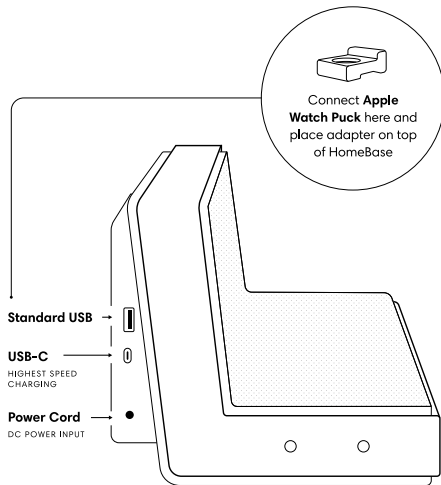

If you ordered the optional Apple Watch adapter, slip your Apple watch puck into it and connect to USB. Place the adapter on top, centered on the HomeBase.

PD

## High Speed Charging (PD Charging)

HomeBase Supports high speed charging via the USB-C port. This will be the fastest way to charge your iPhone.

# Setup Guide

## Using The Key Magnets

Simply pop your keys onto the magnet and they will automatically clip on! Recommended for up to 4 keys, only works with steel items.

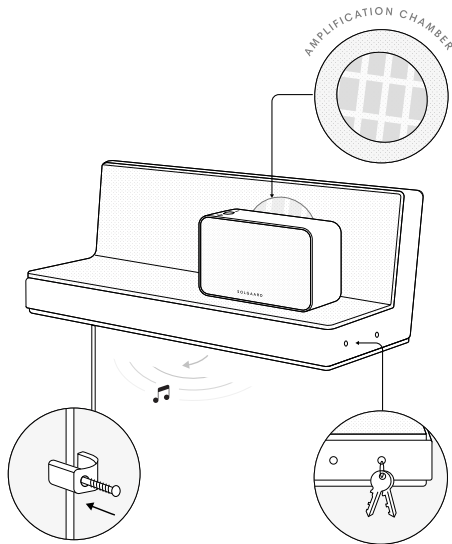

## Amplification Chamber

HomeBase includes a built-in amplifier - when the Solar Boombox plays into the shelf it amplifies the sound, and audio comes out the bottom of the HomeBase for an enriched audio experience.

## Cable Clips

We designed HomeBase to help eliminate cable clutter, so we have included cable clips to mount your HomeBase power supply cable to the wall.

# Charging Wirelessly

HomeBase can power up to four devices at once. Two wirelessly and two wired. To charge wirelessly, simply place your device flat on one of the two charging areas.

Homebase is equipped with two premium 3-Coil charging areas. 6 coils for maximum charging. These use the Qi standard of wireless charging.

CHARGING AREA 2

## What Do The LED Lights Mean?

### LEDs Solid / Fade Out

- Indicator light **will** turn on when your device **starts charging**.
- LEDs **will stay on for 60 seconds**, then fade out. Your device is **still** charging after the LEDs fade out.

### LEDs Blinking

- If the LEDs are **blinking**, the device is **not charging**. Blinking means "foreign object detection" usually a piece of metal (keys/coins) are on the charging area.

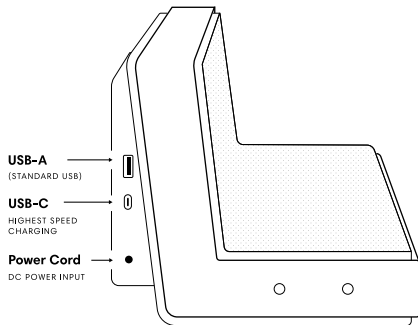

### Charging Orientation

- Wireless Charging works on **any rotation**.

# Charging Wired

HomeBase is equipped with fast charging for when you need accelerated power in times of need. This is accessible on most modern smartphones but require specific cables in order to function (usually USB-C to your device port). If a standard cable is used Homebase will use 2.4A output.

Device	Technology
USB-C	Power Delivery 3.0 ⚡ <b>FASTEST!</b>
USB-A	Quick Charge 3.0

HomeBase has intelligent matching current for fast charging and wireless charging. You do not need to configure any settings.
