iroko grey oil finish | tapered legs

with two drawers

HARRIS DESK | SERVER :

The Harris Server and Desk has the same slender leg design seen on the Brass Top Table, but it is combined with a solid timber top, positioned above the base with a 2mm shadow gap. Perfect for compact spaces, this piece also scales up well with increased leg sizes for larger tables. The simplicity of the piece is complimented by the gently curved and rounded leg detail, which adds a contemporary element to an otherwise classic and timeless shape.

The Harris Server and Desk can be made with Tapered or Turned Legs. Please note that the finished height for the turned leg version is 770mm high. As with all of our table designs, we manufacture this design to order and to size in increments of 100mm. If you have a custom size in mind, please let us know and we will quote you accordingly. The minimum length to incorporate a drawer along the side is 750mm long, and the minimum for two drawers is 1400mm long.

This design is suitable for indoor use only.

STANDARD SIZES SERVERS | SMALL DESKS :

		mm (L W H)
1 drawer	-	800 x 400 x 750
1 drawer	-	900 x 500 x 750

2 drawers	-	2000 x 900 x 750
2 drawers	-	2000 x 1000 x 750

CARE INSTRUCTIONS - SOLID WOOD INDOOR FURNITURE :

you will need:

soft cloths / rags | water | soap

optional recommended soap: ProNature Plant Soap

DAILY CARE :

All the finishes we offer provide good protection to the timber. However, no finish can offer bullet-proof resistance to staining or scratches and your furniture will not be impervious to damage. But if you follow the instructions laid out below, it should be sufficient for normal, everyday use.

After use, wipe down the wood surfaces with a slightly damp soft cloth to preserve and protect the wood coating. Dry with another cloth if a lot of water remains. Do not expose these products for any extent of time to pools of water. If the products get wet you should dry them off as soon as possible. Most specifically oil, vinegar and fatty foods should be wiped up immediately using a mild solution of soapy water on a well-rung out damp cloth. Spills should not be left overnight as they will sink in and mark.

Never use Ammonia (ie Handy Andy) or oil/silicone based cleaners (ie Mr Min) on solid wood furniture as they will damage the finishes and can create cloudy marks.

Placing hot items on the wood may result in damage or burning. We recommend that you use coasters and trivets to protect the table tops from hot dishes.

We do not recommend that you place indoor furniture outdoors for any period of time. Outdoor furniture, even for covered outdoor areas, is specially designed to be able to withstand the dramatic temperature changes and moisture in the air. Exposing indoor furniture to outdoor environments could lead to warping, cracks, discolouration and ultimately will weaken the structural integrity of the design over time. Please enquire about our outdoor range if you are in need of outdoor or semi-outdoor furniture.

When used indoors, avoid placing solid wood furniture in full, everyday sun as exposure to sun/UV can cause yellowing, bleaching and light surface cracks.

Heavily airconditioned environments require the use of an humidifier to restore the natural humidity of the air, as extremely dry air will result in cracking / warping of the timber. This is also the case with central heating in cold climate countries.

MAINTENANCE :

When properly taken care of, your indoor piece of furniture should not need much maintenance beyond the above. All of our indoor tables receive a final coat of clear varnish to increase protection from liquids and foods. As such, you cannot re-oil your indoor furniture without first fully sanding off this layer of varnish.

Should you need to sand and re-oil your piece of furniture please contact us first so that we can recommend the course of action particular to your chosen design, timber and finish.

We work with a local oil manufacturer who produces top quality environmentally friendly and non-toxic oil finishes which we can recommend to you based on your order.

TIMBER SAMPLES :

ash - natural

oak - natural

oak - grey oil

iroko - grey oil

walnut - clear oil

oak - gunmetal

oak - dark charcoal
