multi·mounts®

Change your graphics • easily • quickly • safely

STANDARD PARTS

Are **A** + **B** + **C** Parts which are sold as a set - Optional extra **D** Parts are sold separately

The internal back wall of **A Parts** are designed to accommodate the head of an 8 or 9 gauge countersunk screw or bolt.

B Parts screw into **A** or **D Parts**.

C Parts screw into **B Parts**.

D Parts screw between **A** and **B Parts**.

Important: Use approved wall anchors when required.

extra spacers (**D Parts**) are used to hold more panels and/or increase the standoff distance.

For part sizes, panel thickness and weight capacities, visit www.nzazz.nz

GRAPHIC DISPLAYS

Graphics are held between back panels and front panels

Patented multimounts unique functionality makes:

- installation is simple
- graphic changes are easy, fast and safe because when the **C Parts** are unscrewed the back panel remains secured in place

MULTIPLE LAYERS

Panels are secured between **A** + **D** Parts and **D** + **B** Parts and **B** + **C** Parts

Using extra spacers (**D Parts**) give you more creative options including:

- multiple panel layers with different colours and textures
- offsetting some layers
- **D Parts** can also be used to increase the standoff distance

SALES TOOLS

Are available, including the monomount + multimount Display Pack below

Display Pack Bag

Side One

Side Two

For panel mounting, see our innovative monomount standoff system at: www.nzazz.nz
