### SNOWY MOUNTAINS TROUT

Naturally Wood Smoked Antibiotic Free

During the period when the Snowy Mountains Hydro Electricity Scheme was being constructed an engineer on the project identified that the base of the Blowering Dam was an ideal location to develop a commercial trout farm. In the 1960's he and several other professional men commenced construction. The Blowering Dam releases huge volumes of water during the summer months to supply water for the Murrumbidgee irrigation area. The water supply is reliable, pristine and at an ideal temperature for the natural development of trout.

Rod Smith and his family have been the owners of the farm since the early 1990's and have implemented significant improvements to the farm to conform to NSW Food Authority Regulations. They recently acquired land in the same area for the purpose of constructing a modern facility. Construction is now completed and the current output of 4 tonnes per week will be easily surpassed

## JULIANNE'S KITCHEN

Special Christmas Season Pâté's and Terrines

### Duck and Black Cherry Pâté:

Rick, smooth traditional duck pâté topped with whole dark pitted cherries, surrounded with our soft red jelly made from cherries and port. In our duck pâté we only use duck, no other meats like chicken or pork. This gives our duck pâté a full, robust taste that is stronger than the chicken pâtés. The duck pâtés are also a little darker in colour as are duck livers.

### Turkey, Duck and Cranberry Terrine:

Highly seasoned terrines using Christmas spices and pressed with large pieces of turkey breast, surrounded by finely minced duck and pork. This terrine is spiked with fresh and dried cranberries throughout and topped with pistachios. A slice is as pretty as Christmas with its red and green.

### Salmon and Cucumber Terrine:

A luxurious mix of fresh smoke salmon blended with cream cheese, capers and horseradish folded through with hot smoke salmon, pickled cucumber and dill, wrapped in smoke salmon with a delicate fresh cucumber jelly. A lovely Christmas buffet centrepiece and beautiful to slice and serve.
