

BDC-1133PM DUST COLLECTOR

A COMPACT DUST COLLECTION SYSTEM

The BDC-1133PM is a small light weight industrial vac made of strong polyester making it light to carry, damage resistant, and easy to clean.

The Blastrac BDC-1133PM is a compact dust collection system ideal for hand tools and small grinding machines. It can be used for both wet and dry applications. It is equipped with a M-class filter.

The M-class machine includes a hose diameter setting and a flow sensor warning (LED + buzzer).

USER FRIENDLY

The BDC-1133PM dust extractor is robust and easy to handle when it comes to transportation from one site to another. It is equipped with a power outlet with automatic Start & Stop for electric power tools.

SAFE WORKING ENVIRONMENT

This dust collector has improved cleaning performance. It is equipped with the InfiniPulseClean system (permanent automatic filter cleaning system). The M filter can be replaced in a dust free environment thanks to the easy access hatchback.

FOR HEAVY DUTY WORK

Our range of small dust collectors comes with more suction power, a sealed dust system, automatic filter cleaning, and several other user benefits. They are designed to meet the tough requirements in building and construction industries.

BAGGING SYSTEM

Our Longopac system allows you to collect the dust in easy to handle packages of 25 kg without dispersing dust. The tube-like bagging system is dust free since the bags are replaced and sealed from the outside – there is no contact with the waste.

STORAGE SOLUTIONS

The BDC-1133PM has a flat top design for deposit of hand tools & accessories. Moreover it's possible to add an adapter plate for storage of "L-Boxx" and "Systainer" tool box systems (suitable for Bosch, Stihl, Flex, Hitachi, Makita... tool boxes).

CONTINUOUSLY WORKING

The BDC-1133PM introduces a new improved automatic filter cleaning system, which secures continuously high suction performance and sealed airflow. A powerful reverse air pulse is activated every 15 seconds, keeping the air flow at a high level.

DELIVERED WITH STANDARD ACCESSORIES

Heavy duty hose Ø36x4000mm with quick system fitting. Stainless steel curved hand tube, crevice nozzle, antistatic tool adapter, 2 hose/cable hooks, 1 fleece filterbag and 1 plastic disposal bag.
