C NNECT
with Your Guests using QR Code Wristbands!

VIP® Band now offers QR Code Wristbands that allow you to connect with your guests in new and exciting ways! The QR Code Wristbands feature a QR code that can be scanned by your guests with Smart Phones that have the reader app installed. When scanned, the QR code will trigger an action. There are so many ways you can use QR Code Wristbands! Be creative!

What is a QR Code?

A Quick Response (QR) code is a two-dimensional barcode. When scanned or read with an iPhone, Android or other camera-enabled Smartphone, the QR code will link to digital content on the web or activate a number of phone functions. Any desired function is easily achieved by properly creating your QR code through an online QR code generator. It's a simple process that takes just a few minutes, and is absolutely FREE!
