Trust the RFID Experts to Support Your Brand Activation with Unparalleled Service, Competitive Pricing, and On-time Delivery!
Over 15 Years RFID Experience

Combining radio frequency identification (RFID) with a wristband, PDC created the first PDC Smart® RFID wristband system in 2000. Smart Band® was quickly put to the test by the U.S. Navy to help identify and track the wounded in the Gulf War. Building on that experience, PDC became the RFID credential partner of the SXSW Music festival, and the first of eight Great Wolf Lodge properties. Over the last decade, leading amusement parks, water parks, resorts, music festivals, and brand activation events across the globe have trusted PDC’s Smart® RFID wristband systems to deliver superb guest experiences.
