Thank you for purchasing our MagicLight WiFi bulb. Please read the instruction manual before using it. The documentation provided will allow you to fully enjoy all the features this bulb has to offer.

## Instructions:

1. Install the MagicLight WiFi bulb in a socket and turn the light on.
2. Search for the app "MagicLight WF" from iOS App store or Google Play Store and install the free app.

Or you can download it by scanning the QR code below:

### **Follow these steps to connect the bulb to your home WiFi Router:**

- 1: Switch on the bulb, Find the bulb's default SSID "LEDnet\*\*\*\*\*", and connect to it .
- 2: Run the APP " MagicLight WF", and connect your bulb to your home WiFi router (Find your home WiFi and input the right passwords)
- 3: Connect to your home WiFi router, and run the app again. Now enjoy your MagicLight WiFi bulb!

**There is also a setup video on YouTube:** <https://www.youtube.com/watch?v=cPsoUlugQdw>

## Important Notice:

If your bulb does not show up in the app after it is connected to your router, it indicates that the pairing failed due to one of the following reasons:

1. You entered the wrong password to your home WiFi network
2. Your home WiFi network is operating in the 5hz frequency, The MagicLight bulb requires a 2.4Ghz network
3. Your network SSID contains space or special characters
4. Your network password contains a space

Most problems with MagicLight WiFi smart bulbs can be fixed with a quick factory reset.

## Set Up MagicLight WiFi Bulb with Amazon Echo:

To set up with Amazon Echo, First make sure you used the right app "MagicLight WF" and that you connected your MagicLight WiFi bulbs to your home WiFi router. Then please create a MagicLight Account for Alexa and open the "Remote Control" feature.

After that, please add the skill named "Magic Home" from your Alexa App with the MagicLight Account. Then follow with Alexa to discovery new devices under SmartHome, and now the MagicLight Bulbs are connected with your Amazon Echo

Here is are two videos to show how to connect to Amazon Echo by Alexa:
