

INSTRUCTIONS FOR USE

1. Unscrew the seal from the body of the blowpipe to reveal the bore.
2. Insert the orange cork into the bore.
3. Pour one full bag of dry desiccant beads inside the blowpipe.

4. Remove the cork.
5. Screw the seal onto the mouthpiece body and apply hemp as required.
6. After playing, empty wet desiccant onto an oven tray and place in warm oven* until the beads return to their original orange colour.

*Do not microwave these beads
