

October 22, 2020

To whom it may concern,

This letter is to confirm sample DIGESTIBE ENZYMES CAPSULE Lot BEDE175 was tested at Labs-Mart Edmonton under GMP protocol following FCC monograph for Protease (Fungal-Aspergillus Niger) and Protease (Fungal-Aspergillus Oryzae) against a specification of 9.83 FCC SAP/Cap and 11,730 FCC HUT/cap respectively.

Results obtained from the testing reported July 2, 2020 (Report ID 89830-7), concluded the enzyme activity of Protease met the client provided specification. Results obtained by the laboratory are summarized below.

- Protease (Fungal-Aspergillus Niger): 9.46 SAP/cap
- Protease (Fungal-Aspergillus Oryzae): 12,137 FCC HUT/cap

As the results obtained are between 80%-150% of the specification provided, these results meet the Health Canada Finished Product Specifications as outlined in the link below.

<https://www.canada.ca/en/health-canada/services/drugs-health-products/natural-non-prescription/legislation-guidelines/guidance-documents/finished-product-specifications-form-user-guide.html#a8>

Should you require and additional information, please do not hesitate to reach out to me directly.

Regards,

Andrew Garrard
