

### PBCLXD Programming Backup Cartridge for ESP-LXD

Provides program backup and restore and barcode scanning capability for the ESP-LXD controller (not compatible with ESP-LXME or ESP-LX Basic)

#### Upgrade Kit Features

- Provides 8 full backups, including all programs, flow information and decoder addresses – allows you to easily archive 8 different controllers – restoring all information typically takes two minutes or less
- Snaps into the back of the ESP-LXD front panel; installs without tools; no additional enclosures or external wiring required
- Kit includes cable for interface to barcode scanning pen (pen not included) – allows you to quickly scan decoder addresses into the ESP-LXD controller during installation to save you time

#### Model

- PBCLXD (works with all versions of the ESP-LXD controller)

PBCLXD Cartridge

### Pigtail

#### Features

- 6-feet (1.8 m) long
- Three 16 gauge stranded conductor wires
- 90 degree molded plug type NEMA 5-15P
- Gray color

#### Model

- PIGTAIL

PIGTAIL

### Controller Pedestals

Pedestals for ESP-LX Series, ESP-MC, ESP-SAT, ESP-SITE, and CCU

#### Features

- Includes all necessary mounting bolts, nuts, and washers

#### Specifications

- Material: Powder-coated steel and stainless steel
- Field wiring connection: In controller

#### Dimensions

Model	Height	Width	Depth
• LXMM	12 <sup>7</sup> / <sub>8</sub> " (32.7 cm)	14 <sup>1</sup> / <sub>2</sub> " (36.8 cm)	7 <sup>3</sup> / <sub>4</sub> " (19.7 cm)
• LXMMPED	28" (71.1 cm)	14 <sup>1</sup> / <sub>4</sub> " (36.2 cm)	7 <sup>1</sup> / <sub>4</sub> " (18.4 cm)
• LXMMSS	12 <sup>7</sup> / <sub>8</sub> " (32.7 cm)	14 <sup>1</sup> / <sub>2</sub> " (36.8 cm)	7 <sup>3</sup> / <sub>4</sub> " (19.7 cm)
• LXMMSSPED	28" (71.1 cm)	14 <sup>1</sup> / <sub>4</sub> " (36.2 cm)	7 <sup>1</sup> / <sub>4</sub> " (18.4 cm)

#### Model

- LXMM: Metal Cabinet for ESP-LX Series Controllers\*
- LXMMPED: Metal Pedestal for ESP-LX Series Controllers\*
- LXMMSS: Stainless Steel Metal Wall Mount Enclosure for ESP-LX Series Controllers
- LXMMSSPED: Stainless Steel Metal Pedestal for ESP-LX Series Controllers

\* **Note:** Metal cabinets and pedestals are not standard on ESP-LX Series controllers and must be purchased separately. LXMMPED requires LXMM, and LXMMSSPED requires LXMMSS.
