A COMFORTABLE NIGHT’S SLEEP
YOU’VE EARNED IT!
THE CRUA COMMUNITY

Crua was founded by an Irishman with years of experience in camping and trekking outdoors. The team has expanded now and we reckoned that building an all-weather tent worthy of our own adventures was a natural fit for our skills...so yeah, we pushed the limits and over engineered the heck out of it. So much so that the unique Thermo Tent insulation that we developed is now patent protected. Introducing the revolutionary Crua range of high quality insulated tents. It’s all about getting a better night’s sleep in any weather, which a Crua tent provides by virtue of its superior quality, functionality and design. You won’t find a better thermally and acoustically insulated tent in the world!
