## KIZER 2019

---

Each year, we spread our wings and expanded into unknown territories and different disciplines to further test ourselves. From these, sometimes far-flung, voyages, we've opened our eyes to a brighter horizon and brought back exciting experiences that we applied to improve KIZER further.

In 2019, we are returning to our roots, and continue to grow our portfolio of products. With our newfound knowledge from the wide outdoor adventure arenas, we bring to you, in the coming year, blades and tools that feature the same enthusiasts' passion, drive for precision, and uncompromised performance, that set us apart from the very beginning.

## ≡ Domin Mini V3516

**NEW**

### AZO

The bigger brother of the Begleiter, this tough reinforcement puts your mind at ease, slices through the troubles, and leaves nothing to chance.

Steel: N690  
 Handle: G10  
 Blade Length: 2.89"

Overall: 6.86"  
 Weight: 2.93oz  
 System: Washer

# ☰ Begleiter Ki4458

## AZO

Named “the companion”, this will be the knife to accompany its owner through all of the daily tasks that needs a quick blade. Slim and lightweight, this perfect EDC knife disappears into pockets or purse, appearing at the most opportune time to serve.

Steel: CPM-S35VN  
Handle: 6AL4V Titanium  
Blade Length: 3.54"

Overall: 8.18"  
Weight: 2.93oz  
System: Caged Ceramic Ball Bearings

NEW

# ☰ Maestro Ki4529

## AZO

Adept at every role is the Maestro. The blade bears that distinction is a virtuoso at no less. The opening action from any angle is silky smooth and effortless with any style of opening. The large thumb-hole allows multiple positions to flicker the blade into the open; the caged ceramic ball-bearing boots a fast flipper action; geometric decorations on the handle offers unprecedented traction during hard use; and the robust reverse-tanto blade combines utility and durability without compromise.

Steel: CPM-S35VN  
Handle: 6AL4V Titanium  
Blade Length: 3.57"

Overall: 8.32"  
Weight: 7.45oz  
System: Caged Ceramic Ball Bearings

NEW

## ≡ Envoy Ki3493

### AZO

Each day, we race through countless scenarios requiring quick shifts in tactics to resolve. Whether you choose to “rise against the machines” or negotiate passionately, we have the instruments to help you make your points clearly.

Steel: CPM-S35VN	Overall: 6.94"
Handle: 6AL4V Titanium	Weight: 2.88oz
Blade Length: 2.99"	System: Caged Ceramic Ball Bearings

## ≡ Zugang Ki4439

### AZO

"Don't leave home without it" declares the handle in ancient script, and that's exactly how we feel about the Zugang. Anywhere you might need a beauty with a dangerous edge, the Zugang will be by your side to separate you from harm. Handle Script Literal Translation: Permitted in Ten Thousand Countries.

Steel: CPM-S35VN	Overall: 8.43"
Handle: 6AL4V Titanium	Weight: 5.18oz
Blade Length: 3.71"	System: Caged Ceramic Ball Bearings

## ≡ Kesmec Ki4461

### AZO

Unique and elegant, the Kesmec swims alongside its pack in the ocean of life. Whether pursuing peace of mind or chasing dreams, the Kesmec with its ergonomic Titanium handle and razor sharp S35VN will stand tall with a rare mix of aesthetic and functions.

Steel: CPM-S35VN	Overall: 7.95"
Handle: 6AL4V Titanium	Weight: 5.30oz
Blade Length: 3.54"	System: Caged Ceramic Ball Bearings

## ≡ Kesmec V4461

### AZO

Unique and elegant, the Kesmec swims alongside its pack in the ocean of life. Whether pursuing peace of mind or chasing dreams, the Kesmec with its ergonomic Titanium handle and razor sharp S35VN will stand tall with a rare mix of aesthetic and functions.

Steel: VG10/N690	Overall: 8.14"
Handle: G10	Weight: 4.81oz
Blade Length: 3.58"	System: Washer

## Basalt Ki4505

### AZO

Rock solid, the Basalt is a monolith standing solemnly at attention after the firestorm of heated emotion passes and cooler heads prevail. Never wavering support in a moment of crisis, captured in Titanium and S35VN for your daily exploration of the urban jungle.

Steel: CPM-S35VN  
Handle: 6AL4V Titanium  
Blade Length: 3.48"

Overall: 7.91"  
Weight: 3.99oz  
System: Caged Ceramic Ball Bearings

## Domin V4516

### AZO

The bigger brother of the Begleiter, this tough reinforcement puts your mind at ease, slices through the troubles, and leaves nothing to chance.

Steel: VG10  
Handle: G10  
Blade Length: 3.46"

Overall: 8.05"  
Weight: 3.66oz  
System: Washer

## Begleiter V4458

### AZO

Named "the companion", this will be the knife to accompany its owner through all of the daily tasks that needs a quick blade. Slim and lightweight, this perfect EDC knife disappears into pockets or purse, appearing at the most opportune time to serve.

Steel: VG10  
Handle: G10  
Blade Length: 3.58"

Overall: 8.17"  
Weight: 3.88oz  
System: Washer

"Advanced innovative designs while maintaining Form, Function, and Organics" , no one could have said it better than the man himself. Darrel Ralph has enjoyed recognition as a famed designer and engineer in the knife industry for his accomplishments, bringing artistic vision, functional design and innovative engineering to his line of creations.

# Darrel Ralph

Ki4501A1 Gunhammer

Ki4501A2 Gunhammer

## Gunhammer Ki4501

### Darrel Ralph

A true classic from the mind of DDR. The Gunhammer features a 3D machined Titanium handles and pocket clip for a truly unique handle experience, whether or EDC, utility or self-defense pursuits. The mesmerizing Radian Recurve blade thrills as it awes the eyes; the Bowie blade presents plenty of belly for a true utilitarian workhorse that packs a punch.

Steel: CPM-S35VN  
 Handle: 6AL4V Titanium  
 Blade Length: 3.50"

Overall: 7.93"  
 Weight: 4.78oz  
 System: Caged Ceramic Ball Bearings

Honed by 18 years in the Security Industry, Dirk is famed for his effective, no non-sense, and explicitly purpose-driven models. This dynamic approach to knife designs fuels the growing demand for Dirk's creations.

1029 Little River Bowie

Ki4482A1 Nomad

Ki4482A2 Nomad

## ☰ Rogue Ki3480

### Dirk Pinkerton

One of the most versatile EDC folders, Rogue is perfectly suited as a small, lightweight Urban Carry. From a letter opener to an extremely effective self-defense tool, the Rogue features an ergonomic handle with jimping and a modified wharncliffe blade with multiple grip rests. This is the go-to compact knife for the fans of the Wharncliffe blade!

Steel: CPM-S35VN  
Handle: 6AL4V Titanium  
Blade Length: 3.05"

Overall: 7.14"  
Weight: 4.01oz  
System: Washer

## ☰ Escort Ki4481

### Dirk Pinkerton

A robust and nimble EDC folder, the Escort will accompany you every step of the way. Hidden with the tip up/tip down deep carry pocket clip and a reserved appearance, the Escort may be subdued in its looks but will astound in its performance..

Steel: CPM-S35VN  
Handle: 6AL4V Titanium  
Blade Length: 3.50"

Overall: 7.94"  
Weight: 5.44oz  
System: Caged Ceramic Ball Bearings

## ≡ Lancer 1028

### Dirk Pinkerton

The iconic Pinkerton Lancer! The short wide canted handle with deep finger choil locks the hand in position for an instinctive secure grip, no matter forward grip or reverse grip as the situation demands. A wide blade influenced by the distinctive Scottish dirk pattern, in full tang, provides the power to the Lancer. Whether in side carry or the preferred appendix carry, the Lancer is quick to enter, and end, any trouble.

Steel: CPM-S35VN  
Handle: G10  
Blade Length: 4.75"

Overall: 8.50"  
Weight: 5.69oz  
System: Kydex

22

## ≡ Little River Bowie 1029

### Dirk Pinkerton

Robust, functional and easy to carry, well-suited for either the great plains or the sly gambler's vest, the Little River bowie showcases the praised functionality of the traditional clip point bowie in a compact form. A great knife always at the ready for any task from the field to the shop to self defense.

Steel: 1095  
Handle: G10  
Blade Length: 4.48"

Overall: 8.84"  
Weight: 6.14oz  
System: Kydex

## ≡ Nomad Ki4482

### Dirk Pinkerton

Power and Authority are embodied in the Nomad. Inspired by the tribal designs of the Khanjar dagger, the Nomad features a powerful upswept blade and 3D carved ergonomic handle. Simple and effective, Nomad gives control and versatility in any cutting task you have.

Steel: CPM-S35VN  
Handle: 6AL4V Titanium  
Blade Length: 3.787"

Overall: 8.736"  
Weight: 5.11oz  
System: Caged Ceramic Ball Bearings

23

A knife enthusiast with a passion for the surrealism artists such as H. R. Giger and Brian Smith, Elijah found his niche in crafting knives drawing on the natural flow in ergonomic design. Striking a balance between aesthetics and utility but always pushing the envelope in the capability front, the Isham system of design brings a new look to the complex designs of tactical blades.

Ki4514 Theta

## ≡ Söze Ki4513

**NEW**

### Elijah Isham

Standing out from the crowd with its symmetrical lines, this "Kizer Soze" will be the highlight in your collection's line-up in spection as you search for the "usual suspects" for a night on the town with the crew.

Steel: CPM-S35VN  
 Handle: 6AL4V Titanium  
 Blade Length: 3.65"

Overall: 8.30"  
 Weight: 3.60oz  
 System: Caged Ceramic Ball Bearings

## ≡ Megatherium Ki4502

### Elijah Isham

A folding Santoku for the outdoor chef, the Megatherium is a showcase of the "edge below tab" flipper system of Isham's design. Its wide blade excels at tasks requiring a firm slicing motion, the pseudo-choil allows for a close choke-up for delicate tasks and the flipper becomes hidden when the knife is opened for unobstructed optimal performance.

A1

A2

Steel: CPM-S35VN

Weight: 5.42oz  
System: Caged Ceramic Ball Bearings

## ≡ Minitherium Ki3502

### Elijah Isham

A more pocketable version of the Megatherium, this little monster will sleep in the pocket till its needed. The modified Santoku blade will shear through any trouble that comes its way and do it in impeccable style with the Carbon Fiber handles lending it flair while making the job seem easy.

Steel: CPM-S35VN  
Handle: Carbon Fiber  
Blade Length: 2.95"

Overall: 7.11"  
Weight: 2.64oz  
System: Caged Ceramic Ball Bearings

27

## ≡ Theta Ki4514

### Elijah Isham

One of the first designs in Isham Design's Simple Series featuring the motif of "Edge Below Hidden Flipper Tab", the Theta is an utilitarian folder designed with clean straight lines incorporating a clear geometric theme, making for a straight forward EDC carry piece that bursts with visual appeal.

Steel: CPM-S35VN  
Handle: 6AL4V Titanium  
Blade Length: 3.22"

Overall: 7.48"  
Weight: 3.99oz  
System: Caged Ceramic Ball Bearings

Hailing from the California central valley, Eric began making knives in 2008 under Matt Cucchiara and has since honed his craft thoroughly. Drawing his artistic elements from nature, Eric's designs are ergonomic wonders that combine art and utility.

# Eric Garza

1022A1 Sequoia

1022A2 Sequoia

## Sequoia 1022

NEW

### Eric Garza

The 'Sequoia' is a mid sized fixed blade that was designed by Eric during a hike in the Sequoia national forest. He wanted a knife that could perform any camping task with ease, but also function in many bushcrafting and survival scenarios. The original Sequoia has been his personal camp knife for years and after many months of testing, we bring you the 'Sequoia' collaboration.

"Overbuilt, Practical, and Tactical" describes John Gray's knife design philosophy. Created with a full Titanium frame and S35VN stainless steel, the smooth actions on these knives makes them a joy to carry and deploy. A lifelong avid outdoorsman and knife enthusiast, John's designs are perfectly suited for those occasions when sharp business suits conceal sculpted muscle bulk.

# John Gray

Ki4473 GPB1

Ki4474 S.L.T

## GPB1 Ki4473

### John Gray

The GPB1 (Gray's Pocket Brute 1), true to its name, is a muscle knife executed with supreme finesse. The generous blade with the cutting edge positioned below the grips is the perfect companion in all tasks, from the kitchen counter to hard uses in the field.

Steel: CPM-S35VN  
 Handle: 6AL4V Titanium  
 Blade Length: 3.48"

Overall: 8.48"  
 Weight: 7.05oz  
 System: Washer

## S.L.T Ki4474

### John Gray

Aptly named, the SLT (Slim Line Tactical) designed by John Gray fits into the hand with each sweep of the handle's ergonomic curve, crafted in Titanium. Whether in a board meeting or out in an arena, the SLT will be your guardian with style.

Steel: CPM-S35VN  
 Handle: 6AL4V Titanium  
 Blade Length: 3.59"

Overall: 8.52"  
 Weight: 5.71oz  
 System: Caged Ceramic Ball Bearings

Founder of Ranger Knives and Gingrich Tactical Innovations (GTI), Justin has leveraged his experience in the Ranger Battalion and the Special Forces Group to enhance his creation of market leading designs. Respected in both the military and civilian world, Justin is always on the cutting edge with his unique take on hard-use knives and tactical products.

# Justin Gingrich

TK knives grew out of the need of a pair of survival adventurers and artists who were in search for a tough yet easy to carry everyday use knife. David Michalik and Robert Chromcak began their custom knife production to make folding knives serving the same duty as fix bladed knives, but in a compact package. Their experiences as developers of high-tech machining tools and artists helped TK knives excel in both function and style.

Size: 2.96"

Weigth: 0.49oz

# Pry-Axe T109

## Eddie Diaz

From a Swiss army knife, the love of knives and tools grew like a fire inside him. From serving in the Air Force to being a Network Engineer, even during his continuous pursuit as a MMA practitioner, the desire to create unique, creative and functional designs always drove him on.

- 1 Nail Puller
- 2 Bottle opener
- 3 Hex Drivers(5/16、 1/4、 3/8)
- 4 Hex Bit Holedr
- 5 Mini Pry Bar
- 6 Flat Head Screwdriver

An inseparable part of the gears for the modern knight! Inspired by the classic battle axe from the medieval days of yore, the PryAxe stands ready to guard against any peril and fell even the sturdiest of foe.

Steel: Titanium

Size: 3.50"

Weigth: 0.91oz

## JK Talon Pry T110

### JK Designs

From a young age, Julian always felt at peace with design and craft. During his studies in industrial / product design at SFSU, he made the transition to precision CNC machined products catering to the tactical community as well as first responders and law enforcement.

- 1 Lanyard Hole
- 2 Hex Drive
- 3 Pry Bar
- 4 Bottle Opener

From everyday use to the tactical, you will find many use for this stylish and handy tool. Equipped with a lanyard slot, 5/16" and 3/8" hex wrenches, and a flat head pry tip, the JK Talon will see you through each crisis. law enforcement.

Steel: Titanium

Size: 3.35"

Weight: 0.75oz

## Crocotool T111

### Evgeny Polukhin

From his childhood, Evgeny was already playing with mechanical devices, kindling his love for the finer points of polished and cold metal surfaces. Combined with his love of the different outdoors and studies in Mechanical Engineering, that passion was always ninspiration to create easy to carry and easy to use knives and tools.

- 1 Pry Bar
- 2 Wirebreaker
- 3 Hex Drivers
- 4 Bottle Opener
- 5 Blade
- 6 Can Opener

Elegant in its simplicity, the Crocotool combines irreplaceable tools in a small body, maximizing its effectiveness. Fitted comfortably on the keychain or in the pocket, this reliable tool will be the good friend helping you with EDC tasks wherever you may go.
