An accidental loss of a daily companion knife and inspirations from Bob Terzuola led Justin Lundquist to craft his first custom creation. Driven by a lifelong passion for fine art and traditional craftsmanship, Justin drew on his experiences in camping and hunting, adding clean flowing lines to fill the hands with a sleek blade that tackles any tasks with ease.

Justin Lundquist

Ki3499 Feist

Ki4500 Wanderer

K I Z E R

Feist

Justin Lundquist

Embodiment of the fact size does not equate capability, the Feist is a compact knife with sleek lines. Similar to a traditional slipjoint but upgrade with flowing modern outline and S35VN premium steel, this front flipper stands out from the crowd. Full of energy and spunky, a "feisty" knife indeed!

Ki3499

Steel: CPM-S35VN

Handle: 6AL4V Titanium

Blade Length: 2.83"

Overall: 6.54"

Weight: 2.58oz

System: Caged Ceramic Ball Bearings

Wanderer

Justin Lundquist

Wherever the path may take you, this is the companion with whom to share the journey. Subtle curves in the handle meld into the palm, leading to a utilitarian blade suitable for all purposes for a modern vagabond. Slim yet filling the hand with purpose, the Wanderer will be ready to answer the need at any time.

Mini - Shoal

Kim Ning

How can you make a great design even better? "We can rebuild them. We have the technology.... Newer steel, easier carry, faster opening!" We created new incarnations of our blades in M390 steel, sized down for easier carry in daily use, but retained the features that made each a crowd pleaser. Each knife is individually serialized and only produced in limited quantity.

Ki3469

Steel: M390

Lancer **-NEW**

Dirk Pinkerton

The iconic Pinkerton Lancer! The short wide canted handle with deep finger choil locks the hand in position for an instinctive secure grip, no matter forward grip or reverse grip as the situation demands. A wide blade influenced by the distinctive Scottish dirk pattern, in full tang, provides the power to the Lancer. Whether in side carry or the preferred appendix carry, the Lancer is quick to enter, and end, any trouble.

TK knives grew out of the need of a pair of survival adventurers and artists who were in search for a tough yet easy to carry everyday use knife. David Michalik and Robert Chromcak began their custom knife production to make folding knives serving the same duty as fix bladed knives, but in a compact package. Their experiences as developers of high-tech machining tools and artists helped TK knives excel in both function and style.
