

MOBILE

1. Cut out each piece carefully along the outer edge.
2. Take one piece from each pair and place it (wrong side facing up) in the order you want it on the mobile.
3. Lay a piece of string or ribbon down the center of the pieces. Leave enough at the top so you have plenty of string/ribbon to hang the mobile.
4. Spread glue on the wrong side of one of the matching pieces, turn the piece over, and place it on its match, keeping the string in place.

5. Repeat #4 for each piece.

6. Allow the glue to dry, then hang your finished mobile!
