

# Journey™

## WATER FILTER BOTTLE

Thank you for choosing the Sagan Journey Water Filter Bottle to help you stay healthy and well wherever your journey may take you. Its comfortable design and ease of use conveniently provide you with pure, filtered water. Its use is essential when you are camping, backpacking, trekking and enjoying your travels. It will give you peace of mind when the quality of the water available is in question.

### ABOUT SAGAN INDUSTRIES LLC

Our passion is to enhance and preserve life. We believe personal wellness is dependent upon access to pure, SafeWater. We preserve life and promote health and wellness by creating state-of-the-art water filtration products for everyday use, outdoor activities and for times of emergency. Our products are reliable, easy to use and promote personal wellness and self-reliance.

Sagan water purification products are uniquely designed and "End-of-Life" certified to give you the assurance they will meet your personal needs anytime, anywhere.

# MAKE THE UNTHINKABLE DRINKABLE™

## INDEPENDENTLY TESTED

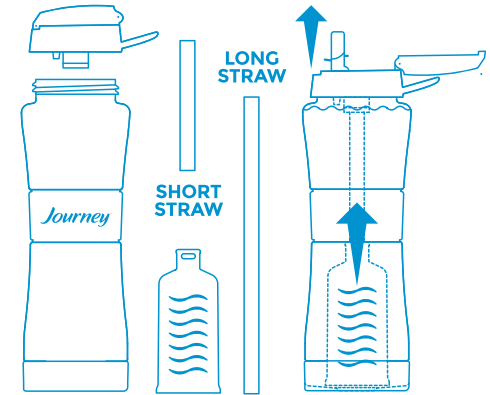

The Sagan Journey Filter has been tested by an independent EPA/ISO certified laboratory to remove from water up to 99.9999% of Bacteria, up to 99.99% of Protozoan Cysts (Giardia/Cryptosporidium) and up to 99.99% of Virus for up to 250 gallons/946 liters.

The Journey Filter is "End of life" tested to deliver up to 250 gallons/946 liters of SafeWater which is free from microbial contaminants from any water source, excluding salt water. This means the filter was continuously challenged with the EPA prescribed amount of microorganism contaminants at regular 25 gallon intervals, until the water passing through the filter started showing signs of falling below the EPA water quality standards. See the chart below. A copy of the Filter Test Results are available at:

[saganindustries.com](http://saganindustries.com) & [aquaveritas.org](http://aquaveritas.org)

AQUA VERITAS™	BACTERIA	VIRUS	CYSTS (Giardia/Cryptosporidium)
EPA Water Quality Standard Removal Criteria	99.9999%	99.99%	99.9%
Sagan Journey Filter Removal Certification 250 gallons	99.9999%	99.99%	99.99%
Averaged Total CFU* Volume of Contaminants with which the filter was challenged over the course of testing 250** gallons of water	450,000,000	300,000,000	40,000,000
NOTES *CFU means Colony Forming Unit which is one microorganism **The challenge of microorganism contaminants every 25 gallons included the simultaneous dose of all three types of microorganisms			

## COMPONENTS & INSTRUCTIONS FOR USE

**BOTTLE & LID**    **FILTER**    **HOW IT WORKS**

1. Remove straw inserted into the cap.
2. Set aside the short straw and filter and long straw
3. Wash the bottle and cap with warm soapy water
4. Hold the filter in your hand so the silicone grommet is pointing down. Run water over the end and sides of the filter for a couple of minutes to wet and flush the filter media.
5. Press short straw firmly into the silicone grommet located on the underside of the cap
6. Save the long straw for use when the filter is not being used.
7. Fill bottle with water to "Filter Fill Line" \*\*
8. Insert filter into bottle and screw on the cap
9. Allow the filter cartridge to pre-soak in the water for at least 5 minutes, prior to use
10. Flip the mouthpiece up to suck water through the filter and straw
11. Enjoy Safe, Great Tasting Water Anywhere!

\*\*WARNING: ALWAYS PREFILTER THE WATER THROUGH A CLOTH OR WATER SCREEN IF THERE IS VISIBLE SEDIMENT AND TURBIDITY. Dirt and sediment will clog the filter membrane pores prematurely and shorten the useful life of the filter. The warranty does not cover abuse of the filter due to its use with turbid water.
