Some beauty professionals' tongues are so crooked they could open a wine bottle. If you are still proudly holding on to that rusted container of Carmex for your lips, this may not be for you. But when you are ready to hydrate dry and chapped lips or heal unsightly cold sores and/or fever blisters, then and only then will you be ready for Miracle Lips. As you ease closer and closer to that mistletoe during this holiday season, make the experience pleasant for everyone.
