**SETTING UP YOUR TREBLAB BT5**

**Turn ON**
Press and hold the **POWER** button for 2 seconds. You will hear the “Power ON” voice prompt, and the blue and red LED light will start flashing.
Turn OFF
Press and hold the POWER button for 5 seconds. You will hear the “Power OFF” voice prompt, and the flashing blue LED light will go off.

PAIRING
Make sure TREBLAB BT5 are charged and turned OFF.

1. Press and hold the POWER button for 2 seconds. You will hear the “Power ON” voice prompt, and a few seconds later - “PAIRING” (LED will flash red and blue rapidly).

2. Activate the wireless connection option on your smart device and keep it within 3 feet/1 meter while pairing.

3. Using your smart device, scan/search for available devices.

4. Select TREBLAB BT5 from the device list.

5. If prompted for the password, enter “0000”.

6. Once BT5 are successfully paired and connected, you will hear the “CONNECTED” voice prompt, and the LED will start flashing blue every second.
MULTIPOINT CONNECTION

The **TREBLAB BT5** headphones have a multipoint connection. It allows two devices to be connected at the same time. While you won't receive the input from both devices at the same time, you'll be able to transition from one device to another seamlessly.

To connect **BT5** to the second device:

1. Temporarily switch the wireless mode OFF on the first device you’re connected to.
2. Repeat pairing steps 1-6 and connect to the other device.
3. Turn the wireless mode back ON for the first device.

When you turn the headphones ON, they will try to reconnect with recently connected device/devices. If the reconnection does not happen automatically, the headphones will try to find the next device in the pairing list.

AUDIO PLAYBACK

To pause and resume the playback, press the **POWER** button.

To adjust the volume, press shortly the **Volume +** button to turn the volume up and the **Volume -** button to turn the volume down.

To change tracks on **BT5**, press and hold for 2 seconds the **Volume +** button to play the next track and the **Volume -** button to play the previous track.
PHONE CALLS MANAGEMENT

TREBLAB BT5 can be used to make and receive phone calls when connected wirelessly. The audio playback will be paused during calls.

To answer a call: Press the **POWER** button during the incoming call.
To reject a call: Press and hold the **POWER** button for 2 seconds.
To end a call: Press the **POWER** button during the conversation.

TROUBLESHOOTING

</table>
| **Frequent disconnection and noise**       | Make sure that the distance between your device and the headset is less than 30 feet/10 meters.  
Make sure that nothing is blocking the signal between your device and **BT5**. 
Check if the music is paused. 
Check if the volume level is set on both the source device and the headphones. 
Check if the headset is running out of power. |
RESTORE THE FACTORY SETTINGS

To restore the headphones back to the factory settings:

1. Press and hold the **Volume +** and **Volume -** button for 5 seconds until the LED flashes blue.

2. Now the headphones are restored back to the factory settings and ready to be paired again.

CHARGING

One full battery charge provides up to 15 hours of playtime at maximum volume and up to 24 hours at medium volume. When the battery is running low, you will hear the “BATTERY LOW” voice prompt.

To charge the headphones, plug one end of the supplied cable into the Micro-USB charging port on the left earcup. Plug the other end of the charging cable into a standard USB port. It takes up to 2.5 hours to charge fully.

The LED light will turn red while charging. The red light will turn blue when the headphones are fully charged.

Be sure to use a 5V DC, 0.5-2A adapter or charger. Using a power source with lower power will increase the overall charging time.

When not in use, unplug **BT5** from the charging cable and the cable - from the power source.

If the headset is left unused, even the fully charged battery will
lose its charge over time. We recommend charging fully TREBLAB BT5 at least twice a month to maintain the sufficient battery life.

**SAFETY RULES**

✔️ Don’t disassemble or modify your headphones for any reason. Doing this may cause the headphones to malfunction or become combustible. The damage to your device can void the manufacturer’s warranty.

✔️ Make sure the headset is completely dry before charging. Charging a wet device may cause serious damage.

✔️ Clean only with a dry cloth.

✔️ Avoid exposing TREBLAB BT5 to extreme temperatures (below 37°F / 3°C or above 112°F / 45°C).

✔️ Extreme temperatures can cause deformation of BT5 components and reduce the battery life and the lifespan of your headset.

✔️ Don’t put the device's LED lights close to humans’ or animals’ eyes.

✔️ Do not use BT5 during a thunderstorm. Thunderstorms can cause serious malfunction and increase the risk of electric shock.
RECYCLING

The earphones can be recycled, and they should be in order to keep our planet clean. Where should you bring them?

In the **US**, there are a couple of options:

1. **Best Buy** has a recycling program. Just take the broken earbuds with you next time you visit a Best Buy store. This link will help you find the best location:
   https://www.bestbuy.com/site/store-locator/

2. Check for other possible locations next to you on these websites (just enter your ZIP to find a location):
   https://www.call2recycle.org
   https://search.earth911.com
   https://recyclenation.com/find
   https://www.cta.tech/Consumer-Resources/Greener-Gadgets

In **Canada**, please visit the links below:
