SETTING UP YOUR TREBLAB E3

Turn ON

When using the headset for the first time, press the **POWER** button for 5 seconds until the red LED starts flashing. Then release the button. The device will get into pairing mode. For further use, press the **POWER** button for 3 seconds. You will hear the “Power ON” voice prompt, and the red LED light will start flashing.

Turn OFF

Press and hold the **POWER** button for 5 seconds. You will hear the “Power OFF” voice prompt, and the red LED will flash two times.

PAIRING

Make sure **TREBLAB E3** are charged and the 3.5 mm Audio cable is not plugged in.

1. Press and hold the **POWER** button for 3 seconds. You will hear the “Power ON” voice prompt. Do not release the button for a few additional seconds until you hear the “Pairing” voice prompt, and the LED will start flashing red indicating that the **E3** are in pairing mode.

2. Activate Bluetooth mode on your smart device and keep it within 3 feet / 1 m from the **TREBLAB E3** while pairing.

3. Scan/search for available devices in your smart device.

4. Select the **TREBLAB E3** from the list.

5. If prompted the password, enter “0000”.

6. Once the **E3** are successfully paired and connected, you will hear the “Connected” voice prompt, and the LED will start flashing blue slowly.

**NOTE:** The **TREBLAB E3** headphones can be connected to only one device at a time.
To connect the **E3** to the second device:

1. Switch off Bluetooth mode on the first device the headphones are connected to.
2. Repeat pairing steps 1-6 and connect the other device.

When you turn the earbuds on, they will try to reconnect with recently connected device/devices. If the reconnection does not happen automatically, the earbuds will try to find the next device in the pairing list. The headphones can save up to 8 devices.

**AUX-IN CONNECTION**

You can connect the **TREBLAB E3** to compatible devices using the supplied 3.5 mm Audio cable.

Plug the USB Type-C end of the Audio cable into the **USB Type-C charging port / AUX Line-in** port on the right earcup and plug the other 3.5 mm end into the AUX jack on your device.

**NOTE:** The functions Next, Previous, Pause and Volume are not available when using the 3.5 mm Audio cable. You will need to make all the adjustments using your smart device.

Please keep the ANC function off while connected with a line-in audio cable.

**AUDIO PLAYBACK**

**Bluetooth mode**

To pause and resume the playback when connected wirelessly, press shortly the **PHONE** button.

To adjust the volume, press shortly the **Volume+** button to turn the volume up and **Volume-** button to turn the volume down.
To change tracks on the **E3**, press and hold the **Volume -** button for 1 second to play the next track and press and hold the **Volume +** button for 1 second to play the previous track.

**ANC FUNCTION**

The **TREBLAB E3** headphones feature the Feedforward Active Noise Cancellation (ANC) technology. This technology provides the ability to not only decrease the surrounding noise in ANC mode but also alternatively increase some frequencies of surround sound in Environmental sound mode to hear voices when using the **E3** headphones. These functions can be used with and without playing any music.

- To turn **ON** the ANC mode, press and hold the **ANC** button on the left earcup. The ANC LED indicator near the button will turn green.
- To turn **ON** the Environmental sound, press shortly the **ANC** button.
- To turn **OFF** the ANC functions, press shortly the **ANC** button again.

**NOTE:** Please keep the deduction microphone holes on both earcups not blocked when using the ANC/Environmental functions.
**PHONE CALLS**

The **TREBLAB E3** can be used to make and receive phone calls when connected wirelessly. The audio playback will be paused during the calls.

<tr>
<td>Multicals*</td>
<td>Press shortly the <strong>PHONE</strong> button to answer the first call. When the second one is incoming, press the <strong>PHONE</strong> button to pick it up. The first one will enter into the hold on status. Press the <strong>PHONE</strong> button again to end the second call and get back on the first one. Press the <strong>POWER</strong> button to end the current call.</td>
</tr>
</tbody>
</table>

*To be able to use this option, your device needs to support the multicalls management.

**VOICE ASSISTANT ACTIVATION**

The **TREBLAB E3** headphones support the voice assistant activation command. To use any of the voice assistants (depending on the assistant enabled on your connected smart device) while in Bluetooth mode, press and hold the **POWER** button for 3 seconds. After the sound notification, you can transmit your voice commands using an inbuilt mic.

**CHARGING AND BATTERY**

**TREBLAB E3** support PD quick charging protocol, so you can charge them with your USB Type-C charger or Power Bank with quick charge. When PD quick charge protocol is detected, you will see the ANC LED shining white.

Also, you can charge the headphones by plugging the supplied cable into the USB Type-C charging port on the right ear-cup and the other end of the charging cord into a standard USB port. The LED light will turn red. It takes up to 1 hour to charge the **E3** fully. The red light will turn off when the headphones are fully charged.

One full battery charge provides up to 2 days of playtime at medium volume w/o ANC and up to 27 hours at 100% volume with the ANC activated function.

The incredible quick charge function lets you use your headphones up to 7 hours at 100% volume w/o ANC after just 3min of charging by 5V / 2A standard charger and even much longer with 9V / 2A, 12V / 1.5A quick charge charger.

When the battery is running low, you will hear the “Battery Low” voice prompt.

Be sure to use no less than 5V DC, 2A adapter or charger. Using a power source with lower power will increase the overall charging time. Unplug the **E3** from the charging cable and the cable from the power source when not in use. If left unused, a fully charged battery will lose its charge over time.

We recommend charging the **TREBLAB E3** fully at least twice a month to maintain the sufficient battery life.
SAFETY RULES

- Don’t disassemble or modify your headphones for any reason. Doing this may cause the headphones to malfunction or become combustible.

- The damage to your device can void your manufacturer’s warranty.

- Do not let your device get wet – liquids can cause serious damage.

- Damage to your device caused by water can void your manufacturer’s warranty.

- Make sure the headset is completely dry before charging.

- Avoid exposing the TREBLAB E3 to extreme temperatures (below 37°F/3°C or above 112°F/45°C). Extreme temperatures can cause the deformation of the E3 components, reduce the battery life and the lifespan of your new headset.

- Don’t put the device’s LED lights close to humans’ or animals’ eyes.

- Do not use your E3 during a thunderstorm. Thunderstorms can cause serious malfunction and increase the risk of electric shock.
RECYCLING

The earphones can be recycled, and they should be in order to keep our planet clean. Where should you bring them?

In the **US**, there are a couple of options:

1) **Best Buy** has a recycling program.
   Just take the broken earbuds with you next time you visit a Best Buy store.

This link will help you to find the best location:
   https://www.bestbuy.com/site/store-locator/

2) Check for other possible locations next to you on these websites:
   (just enter your ZIP to find a location):
   https://www.call2recycle.org
   https://search.earth911.com
   https://recyclemation.com/find
   https://www.cta.tech/Consumer-Resources/Greener-Gadgets

In **Canada**, please visit the links below:
   https://thinkreuse.net
   https://www.call2recycle.ca

In the **UK**, please visit the links below:
   https://www.recycle-more.co.uk/
   https://www.recyclenow.com/local-recycling
## SPECIFICATIONS
